Court Action Filed by Munsons Against Harvey C. Walker.

An $11,000 damage suit has arisen in Scott county district court as the result of an early morning auto crash near Linwood, Ia., on Aug. 22, 1947.

SALES TAX FOR SCHOOLS.

Editor, The Democrat: Reorganization of school districts in Iowa will mean higher taxes for most land and real estate owners, but to some districts the taxes will be lower.

The modern trend is toward consolidation of schools and the non-property owner is 100 per cent in favor of the trend because it does not raise his taxes. Rich and poor alike pay sales taxes, no questions asked. It is a sort of painless way to pay them. Why should not more revenue from sales taxes be used for school funds to ease the tax burden on the property owner?

Taxes on farms near Wilton are 27 an acre which is a great burden for the owner who has to make improvements on his farm, keep up interest on the mortgage, and make a living for his family. The Sycorville school district in Polk county has an 86 an acre tax. It appears that with our modern education we are still so ignorant that we are educating ourselves right out of our homes. Our farm hat happens to be on the other side of the fence, else we could just as well give it to the school district and pay cash.

I have always been greatly interested in Scott county because I was born and lived there a greater part of my life. I have always respected Mr. Dance as a very outstanding rural school superintendent. Why not make a trip out take the in Iowa as a man who holds the welfare of the taxpayers first? Everyone wants a good education but all persons should help pay for it by putting aside more revenue from sales taxes for school use.

I hope some public spirited citizens will get behind this and take the lead in the state of Iowa.

Yours truly,
Henry A. Krueger,
R. R. No. 1,
Wilton.
