Postal Plaza Gallery open to public

Art museum kicks off three-month soft opening period with community open house.

A post-office year average art museum.

After three years of renovations, a new downtown museum of art opened its doors for the first time to the public last week, welcoming the Stillwater and Oklahoma State University communities to get a much-anticipated inside look at the gallery.

"This community open house marked the beginning of a three-month soft opening period of Oklahoma State University’s Postal Plaza Gallery, 720 S. Husband St.

"Many employees brought trucks and trailers to deliver the potatoes to their final destinations.

"The potatoes may be unmarketable to schools, retirement homes, food-pantry programs and food-pantry organizations in need.

"SST Software CEO Matt Waits said, "We wanted to find a win-win situation, he said."

"Without Hope, the iconic orange tint to the Edmon Low Library fountain during homecoming week would never happen.

"Hope is an integral part of a community staple.

"Without Hope, the iconic orange tint to the Edmon Low Library fountain during homecoming week would never happen.

"Hope, a water treatment specialist in the HVAC department, adds a food coloring that is specially ordered from a bakery in Oklahoma City to turn the fountain’s signature color.

"The orange dye, which stays in the fountain during homecoming week, is ordered from an Oklahoma City bakery.

"Students, music department faculty and community members compose the orchestra, said Ben Lorenzo, the conductor.

"The door was at 7 p.m. Just because of the lack of windows and the black painted walls in the concert hall, it looked like late evening.

"All those lights were dimmed, creating the appearance of a night sky, and their reflection of the polished wooden instruments.

"Nachtigall, music performance senior, and Chen Chen, a music education and theatre performance junior, played the trumpets.

"Clark Deloney’s ‘Sandblaster’ was the next work. Following that was Johannes Brahms’ ‘Hungarian Dance No. 6’.

"Before the fourth, Lorenzo announced that there would be a setup change.

"All musicians already on stage moved their chairs forward to accommodate the new setup.

"OSU President Burns Hargis and Ann Hargis played host to the concert.

"OSU has a long and very successful history in art, but we’ve never had a museum," President Hargis said.

"Preserving the historical post-office, being a part of the burgeoning downtown scene and having the proper amount of space to complete its mission makes the location a win-win situation, he said.

Cowgirls looking sharp in fall season

Freeman, Lively have emerged as the top starting pitchers.

Oklahoma State split two games on the road to continue in fall season Friday.

The Cowgirls outlasted Tulsa for a doubleheader against the Golden Hurricane. Oklahoma State had already played and won four weekend games at home, starting out Consonst College in a pair of doubleheaders.

OSU was the first game 2-1 strong pitching from Steino Freeman. Freeman pitched a complete game and allowed two runs on two hits, striking out 12 Tulsa batters.

Freeman has struck out 25 batters and allowed only two hits in two games this fall.

Sunday at 1 p.m.
Fayetteville, Ark.

The Cowgirls Softball Team
data, who went 2-4, scored on a single by Grace DeLaCruz in the inning for the game-winner.

The Cowgirls fell behind 1-0 early when Tulsa (1-1) posted two runs in the bottom of the first inning. Tiffany Mitchell walked in the top of the third with the bases loaded and scored Danielle Riddle, who logged her first hit of the game and cut the Golden Hurricane lead to one-run.

Oklahoma State took control of the game in the top of the fifth inning. Freeman continued her strong pitching performance with an RBI in the field single that drove in Riddle and tied the game 2-2.

The Cowgirls got off to a strong start in the second game, scoring two runs in the first inning. Air Montana and Shilo Hughes scored on errors by the shortstop and the second baseman, respectively.

Freeman, Megan Lively pitched in the second game, going seven innings while allowing eight hits and four strikeouts.

The Cowgirls will play a doubleheader against the Arkansas Razorbacks (0-2) beginning at 1 p.m. Sunday at Fayetteville, Ark.

Oklahoma State concludes its fall season Saturday when it travels to Tulsa for a doubleheader.

Quick Draw

"Defense and pitching win every game because hitting comes and goes."
- Rich Wiegman, Cowgirl softball coach

BY THE NUMBERS

Freeman’s ERA in 2012 through five games

A real breakthrough for the medical community was announced today. The new treatment, developed by Dr. Smith and his team of researchers, has shown promising results in clinical trials. "We are excited about the potential of this treatment," said Dr. Smith. "It has the potential to revolutionize the way we treat this disease." The treatment involves a new type of medication that targets the underlying cause of the condition. It is currently in phase 3 clinical trials and is expected to be approved for use within the next two years. The team is also working on developing a cheaper version of the medication for patients who cannot afford the current treatment. "Our goal is to make this treatment accessible to everyone who needs it," said Dr. Smith. The research team is also collaborating with other institutions to expand the availability of the treatment globally. The announcement was made during a press conference at the annual medical conference. Dr. Smith and his team were praised for their hard work and dedication to finding a cure. "This is a remarkable achievement," said Dr. Johnson, the head of the medical conference. "We are proud to have such talented researchers presenting their work here today." The conference attracted thousands of attendees from around the world, all eager to learn about the latest developments in medicine. The keynote speaker of the conference was Dr. Brown, a renowned expert in the field. Dr. Brown delivered a keynote speech on the future of medicine and the role of technology in healthcare. "We are at the cusp of a revolution in healthcare," said Dr. Brown. "The integration of technology and medicine has the potential to transform the way we deliver care." The conference also featured several workshops and seminars on various topics, including precision medicine, geriatric care, and emerging technologies. The workshops were well-attended and participants left with new insights and ideas. The conference was a success and is expected to continue to grow in the future. The organizers are already planning for next year's conference and are looking forward to welcoming even more attendees. "We are excited to see what next year will bring," said Dr. Johnson. "We are always striving to improve and provide the best possible experience for our attendees." The conference ended with a reception where attendees had the opportunity to network and socialize. The atmosphere was lively and energetic, with people of all backgrounds and interests coming together to share their ideas and experiences. The conference was a testament to the power of collaboration and the importance of sharing knowledge to advance the field of medicine. The organizers are grateful to all who participated and look forward to seeing you all again next year.
