

# FALL ACCESSORIES

## ANIMAL PRINTS

It's a wild safari this season with animal prints finding their way onto handbags, belts, hats and shoes. Leopard prints are huge this fall, but giraffe and tiger prints are spot on, too.

## TEXTURED TIGHTS

Black patterned tights and leggings are running rampant this fall, and they're a must for the little black dress. During the fall runway shows, black speckled tights had everyone excited. Fall's legwear has taken the look to stripes, checkered patterns and peek-through styles (think fishnets). And if you're looking to elongate your leg, try a vertical pattern.

## JEWELRY STACKING

Don't be scared to make an incredibly bold statement. The "statement piece" is a hot style that includes stacking bracelets, large cocktail rings and loading up on chain necklaces. Stack up your arms with dazzling bangles (not matchy, matchy) and try mixing metals with wood and fabric designs.
