LIVE balanced & WELL adjusted

JUST THE RIGHT TOUCH

Much of the bodywork performed by the chiropractor centers around an "adjustment" or "spinal manipulation" which involves moving a joint out of its usual range of motion but not beyond the point that the joint was anatomically designed to move. To pinpoint the exact place in the vertebrae needing adjustment, the chiropractor uses examining procedures such as motion palpation (diagnostic touch) to detect misalignments of spinal bones. Unless corrected, this abnormal positioning or functioning of the spinal joints may lead to irritated nerves and related problems. To relieve stress on irritated nerves, the chiropractor treats the patient with vertebral adjustments in an effort to put misplaced areas of the spine back into alignment to restore the flow of nerve energy.

Chiropractic care, especially when combined with acupuncture, can help with many symptoms and there underlying problems. Everyone benefits differently, but the commonality is that they just feel better. Imagine your 2012 pain free through a healthy balanced lifestyle, wellness education and natural alternative healthcare. Visit us at 7975 Stone Creek Dr., Suite 20, Chanhasen, for your complimentary initial chiropractic consultation and examination. Call today, (952) 746-8150 to schedule your appointment and put yourself on a path to wellness.

P.S. Chiropractic treatment is predicated on the belief that a body in balance and without internal interference has the inherent ability to heal itself.
