October 01, 2025

Hello Tribal members,

If you have not been following the news, the Federal Government could not reach a budget agreement and is now shut down. This course of action will impact the Tribe as we have many grants and contracts that we use across many departments. Starting today October 1 The following departments will be shutting down operations and be placed on furlough. They may not be reachable until further notice. If you cannot reach these departments please contact the Tribal Office and we will assist as best we can. That number is 775-574-1000.

Museum and Visitors center

Cultural Center and Library

Parks and Recreation

Natural Resources

JOM program

Lands Office

Higher Education

The total of employees that will not be available after today will be over 25. As the government shut down continues other departments may become limited in operation. These furloughs are necessary to ensure the continued operation of public safety, such as the Police, EMS and Food Bank.

Thank you for your understanding and patience during this difficult time.

Steven Wadsworth, Chairman

Pyramid Lake Paiute Tribe
