Attorney General Ford Launches Operation Robocall Roundup, Issues Warning Letters to 37 Telecom Companies

Carson City, NV — Today, Nevada Attorney General Aaron D. Ford launched Operation Robocall Roundup, a multistate effort by the Anti-Robocall Litigation Task Force to crack down on robocalls across the country. AG Ford and 50 bipartisan attorneys general are sending warning letters to 37 voice providers demanding that they act now to stop illegal robocalls being routed through their networks.

"The ongoing deluge of robocalls across the country and in Nevada has become a nuisance to our residents that must end," **said AG Ford**. "The providers that we have warned today have ignored federal rules meant to stop these robocalls from getting through to the phones of Nevadans. They must immediately comply with these rules."

These providers haven't complied with Federal Communications Commission (FCC) rules about responding to government traceback requests; haven't registered in the FCC's Robocall Mitigation Databases; or haven't filed a plan that describes how they will reduce illegal robocalls on their network. By disregarding these simple rules, these companies are allowing robocallers onto their phone networks and then passing their calls on to other downstream providers until they reach the phones of Nevadans.

The task force is also sending the letters to 99 downstream providers that accept call traffic from the 37 companies, so that they know they're doing business with bad actors that are not willing to follow the rules that apply to everyone equally.

The FCC announced yesterday that it will be removing seven of these providers from the Robocall Mitigation Database, which means that other providers will no longer be allowed to accept and route any calls from their networks.

The voice service providers receiving warning letters are Advantage Investors LLC; Alpha Stream; Ananya Traders LLC; Ariyan Khan; BBT Voice Private Limited; Belthrough; BPO VoIP; Collection 3 LLC; Communications and Telephone Systems Co.; Dial Vista Corp.; DigitalOcean, LLC; Dtel Network LLC; End Zone Financial Services; EON Telecom Inc.; Family Communication Inc.; Fiber Flux VOIP; First Tele Communications Inc.; Flow VOIP LLC; Globe Tech Solutions; Higher Response Marketing, Inc.; HK KwaiFong Group Limited; Infinity SIP LLC; Lexico Telecom LTD / Lextel LTD; Mexico IP Phones LLC; Nexusphere VOIP LLC; Pleadex LLC; Quantum Link VOIP LLC; Ringnition; SK Teleco LLC Sky; Pulse VOIP; Stacy Newsome LNCC LCC; Telnextrix LLC; Terra Voip; TheVisionConnect; Tiera Enterprises LLC; Voip Torque; and Whisl Telecom, LLC/Telconus/Telcon US/Telcon Voice.

In 2022, 51 attorneys general joined forces to create the Anti-Robocall Litigation Task Force led by North Carolina Attorney General Jeff Jackson, Indiana Attorney General Todd Rokita and Ohio Attorney General Dave Yost. The Task Force investigates and takes legal action against companies responsible for significant volumes of illegal and fraudulent robocall traffic routed into and across the United States.
