Senior Nutrition Program to Transition from Glenn County Office of Education to Glenn County Health and Human Services/Community Action Department

Glenn County, CA — The Glenn County Office of Education (GCOE) and the County of Glenn are working together to ensure a seamless transition of the Senior Nutrition Program's administration from GCOE to the County's Community Action Department.

This transition will not affect the continuation of the Senior Nutrition Program, and both agencies are committed to preserving uninterrupted service for all participants.

"We understand how vital the Senior Nutrition Program is to our community," said Glenn County Superintendent Ryan Bentz. "There are no plans to discontinue meal services. Our shared priority is to continue delivering dependable, quality nutrition to the seniors who count on it every day."

The County of Glenn echoes this dedication. "We are honored to take on this important responsibility and will work closely with GCOE to ensure a smooth transition that keeps our seniors' well-being at the forefront," said Laura Hawkins, Director Glenn County Health and Human Services/Community Action Department.

Community members with questions are encouraged to contact Anthony Van Natta, Director of Senior Nutrition, at (530) 865-1136.

We sincerely thank the community for their trust and continued support as we move forward together in service to our senior residents.

Sincerely,

Ryan Bentz, Superintendent
Glenn County Office of Education

Laura Hawkins, Director
Glenn County Health and Human Services/Community Action Department
