(Answers Monday)

Yesterday's Jumbles: CHAOS WHISK ELDEST ODDEST

Answer: After learning that Mr. Silverstein wrote kids books and hit songs, they were — "SHEL"-SHOCKED

Yesterday's Answer: Tina and Milo

## WONDERWORD

By DAVID OUELLET

HOW TO PLAY: All the words listed below appear in the puzzle — horizontally, vertically, diagonally and even backward. Find them, circle each letter of the word and strike it off the list. The leftover letters spell the WONDERWORD.

OUR NEW APP

Solution: 6 letters

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑤ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑥ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑦ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑧ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑨ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑩ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑪ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑫ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑬ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑭ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑮ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑯ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑰ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑱ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑲ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

⑳ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉑ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉒ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉓ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉔ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉕ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉖ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉗ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉘ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉙ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.

㉚ The numbers within the heavily

bordered boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.
