

Healthcare that works for Iowans, not the middlemen.

Rob Sand will take on the special interests driving up our costs.

**The cost of health care in Iowa is out of control.
Rob Sand has a plan to change that.**

Rob will take on the corporate middlemen and put Iowans first:

- ✓ Cap the cost of lifesaving drugs like insulin.
- ✓ Undo the privatization of Medicaid so companies can't deny Iowans care.
