Google Partnership

Whiteboard Media is now a certified Google Partner. The badge shows that certain employees at our company have demonstrated high-level Google Ads expertise by passing rigorous assessments through the Academy for Ads. The badge also shows that our digital team has met Google Ads spend requirements, delivered significant company and client revenue growth, and expanded our client base to a level that Google finds noteworthy.

Testimonials

"Thank you for all of your additional support and partnership this year. We definitely saw increased participation, and The Bulletin's support was a key reason.

This fest was indeed one of our best festivals yet – if not the best. The whole event has an undeniable impact and benefit to this community. This community thanks you."

Todd Looby | Director | BendFilm

"HUGE thanks to you and the team again. You took the stress out of promoting an adventure like this, and made it really easy for me to see the value in your work.

I'm looking forward to our next project!"

Brent Baker | Marketing & Business Development Manager | EarthCruiser

Our Reach

The world!

We understand that not everyone online is relevant to your business. Whiteboard Media's goal is to capture the right consumers, on the right platform, at exactly the right moment. What truly matters is that they're in the market for what you offer – even if they don't know it yet.

*Based on monthly users

What to Expect

1. It's About YOU

We meet with **you** to listen to the story of **your** business and discover the goals **you** seek to reach.

2. Research + Build

After extensive research into your audience and market, we build a customized strategy that reflects your business goals.

3. Analyze + Refine

Throughout the life of your campaign, we analyze its performance and refine our strategic efforts.

4. Report + Optimize

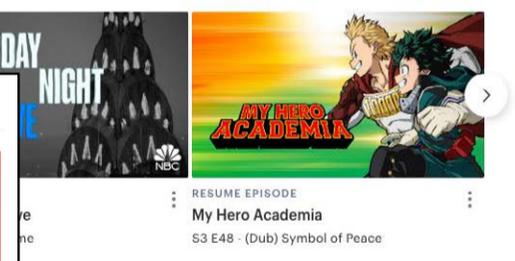

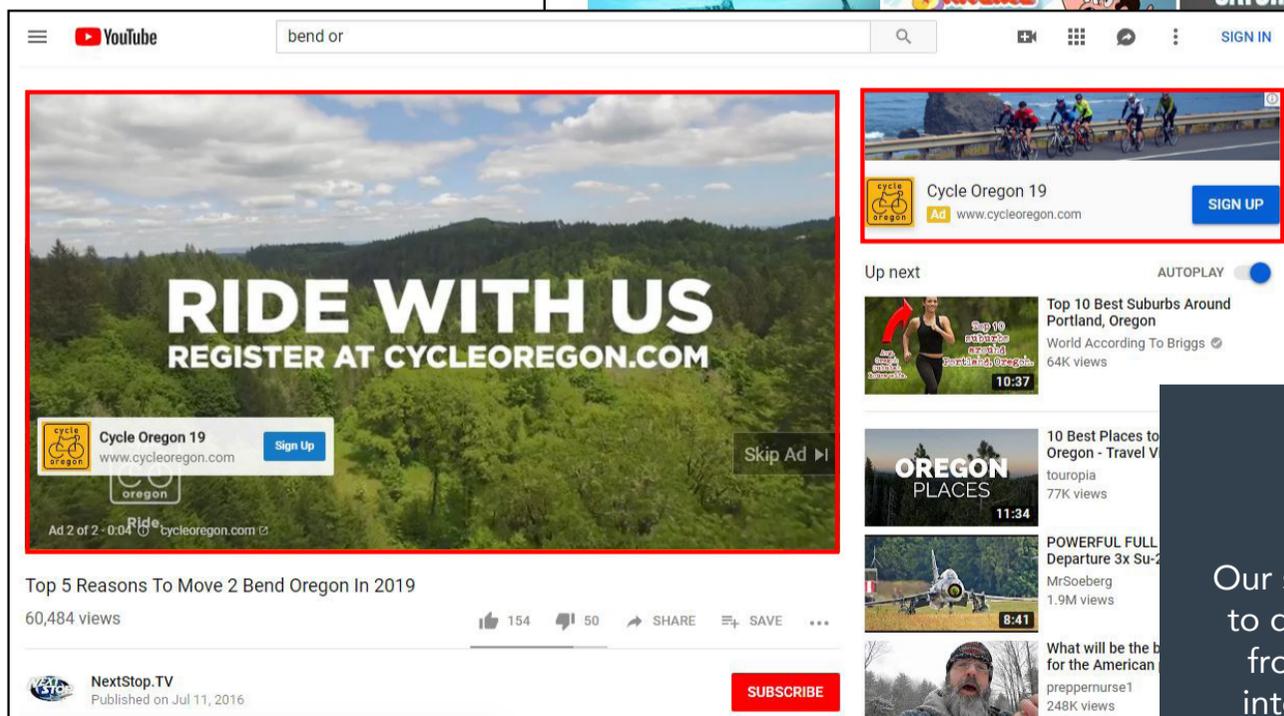

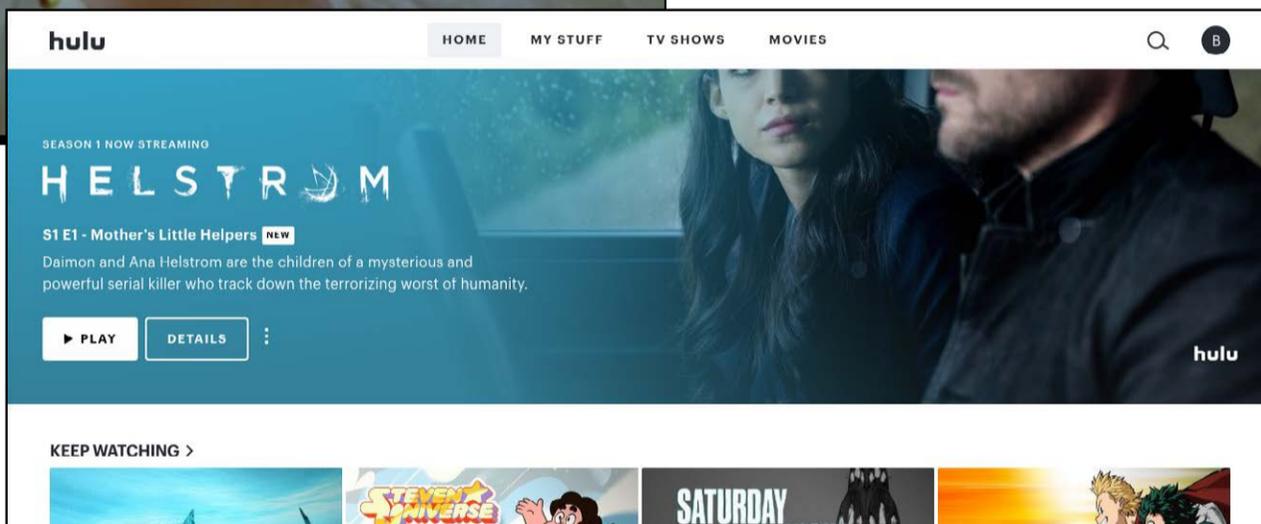

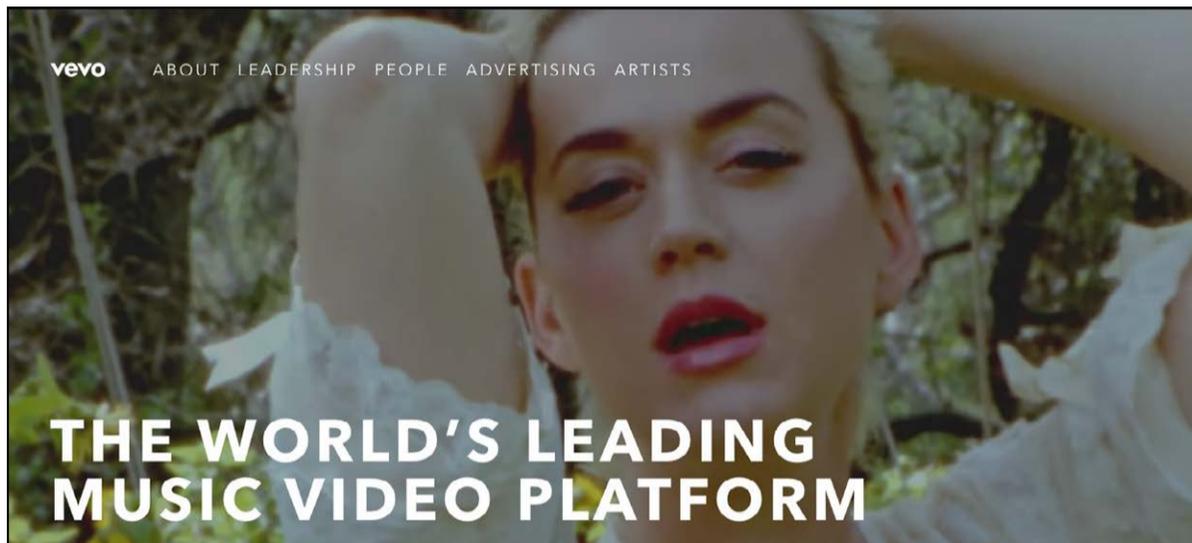

We report results and insights, then optimize daily based on what we've learned.

Streaming Options

Our streaming OTT/CTV advertising campaigns place your video ads at the start of videos watched by a targeted audience of potential customers.

AND MORE!

Why us?

Our streaming advertising mission is to drive high rates of engagement from viewers who are genuinely interested in your business – but engagement alone isn't enough. We also map how people interact with your video ads and track the interactions that lead directly to sales.

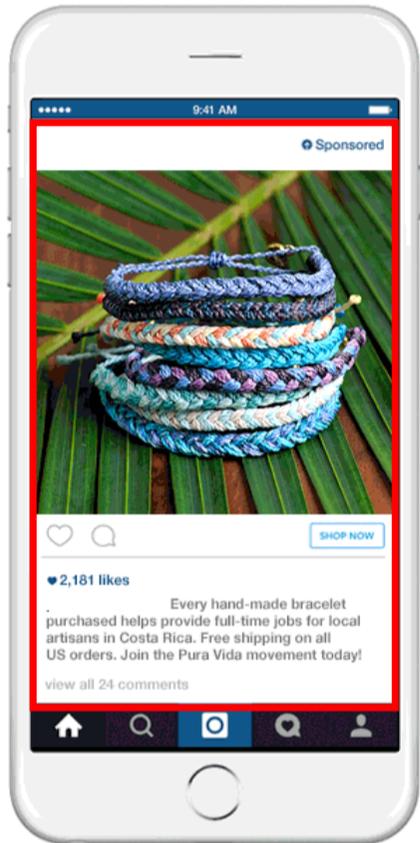

Youtube is the 2nd largest search Engine in the world!

Facebook & Instagram Advertising

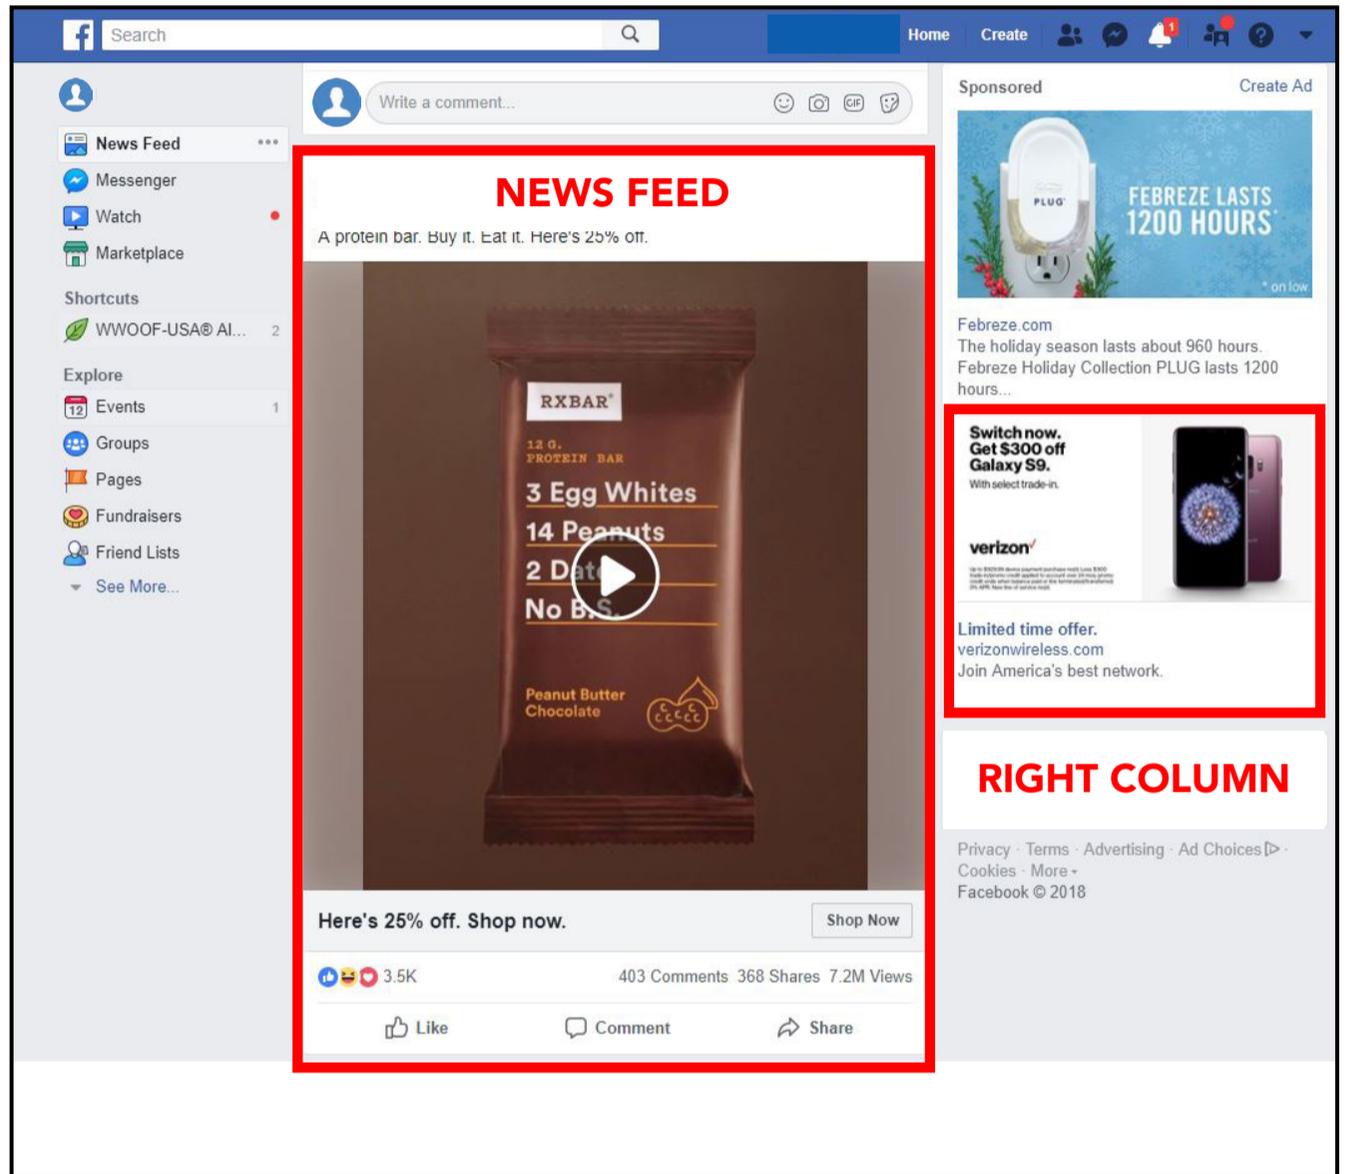

Billions of people around the world spend a large chunk of their day using social media. Your customers are among them. We put businesses in front of a relevant audience with strategic targeting based on factors such as age, interests and location.

INSTAGRAM MOBILE FEED

NEWS FEED ON FACEBOOK MOBILE

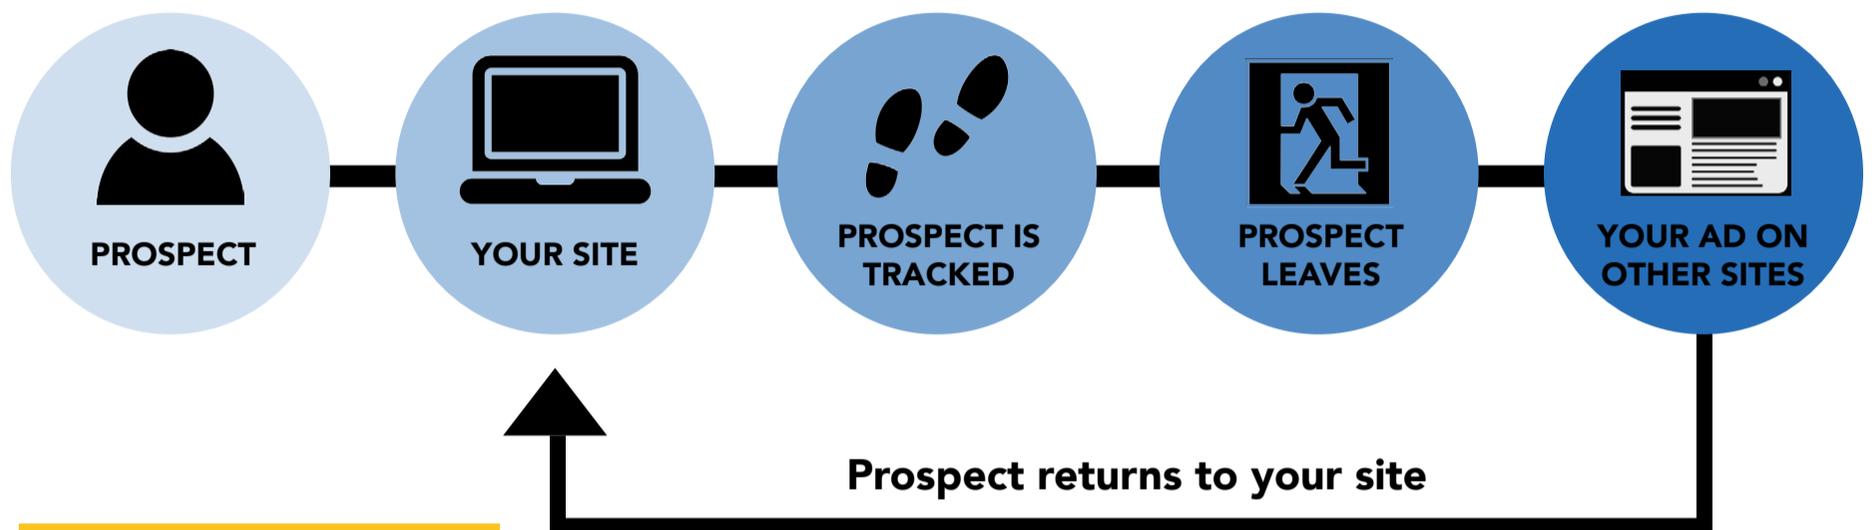

Global reach of over 2.2 billion monthly users on Facebook and 1 billion monthly users on Instagram.

Remarketing/Retargeting

Most people won't become an advocate for your brand after visiting your website once. Remarketing targets people who recently visited your site but left without making a purchase. We show them your ads on a subsequent site they visit, nudging them back in your direction. In this way, we can give your brand a more lasting impression in a person's mind.

Remarketing audiences have 2-3x ad CTR.

Source: Wordstream

Why Us?

We develop custom remarketing strategies that remind potential customers why they interacted with your brand in the first place: They're in the market for what you offer. But most consumers need a little extra convincing, so we create beautiful ads that focus on the features that set you apart from your competition. And by showcasing those ads across a variety of advertising platforms, we can reintroduce you to your newest customers as they make their way across the web.

Geofencing/Geotargeting

Social distancing is keeping people at home and all the more reliant on their phones, computers and TV screens — both to entertain themselves and to address their daily needs. Instead of going out to shop, they're doing their searching, browsing and ordering online for food, products and services of all kinds.

For businesses, that means an opportunity to get their message out and capture some of that online action.

There are some exceptional digital tools for doing that. A campaign delivered by "addressable geofencing" enables a business to target every home in a neighborhood and send a message to people on their mobile devices, computers and even TV screens.

Google Display

The Google Display Network is a cornerstone of digital advertising, reaching two million websites and 650,000 apps. Whiteboard Media harnesses the power of this network to deliver targeted ads to motivated consumers, measuring results and making educated adjustments in real-time wherever your audience is.

AIRPLANE DISASTER
U.S. Holds Back as More Countries Ground Boeing 737 Max 8s
Britain, France, Germany and Ireland joined other nations in grounding 737 Max 8 aircraft after the second deadly crash in recent months.
A notable exception among countries moving to take the planes out of service: the United States.

Why us?

Your customer base isn't just a faceless hoard of random consumers. It's a set of real people with specific needs and characteristics. That's why we dive deep into the process of getting to know them. With your input and a heap of our own research, we can pinpoint the best places online to show your ads – and the best people to show them to.

Google Search

The most popular search engine in the world, Google captures the vast majority of the world's online queries. Not occupying a prominent spot atop Google's search results page can be a major detriment to business growth. Fortunately, Whiteboard Media has developed in-depth strategies that can increase search engine visibility and capture targeted consumers.

Why us?

Our in-house team works diligently to make tailored adjustments to each Google Search campaign, maximizing ad performance in ways that translate to business growth. We optimize on the fly, channeling our efforts into the ads that are performing best.

Businesses make an average of \$2 in revenue for every \$1 they spend on Google Search Campaigns.

Native Content

A strong content strategy can have a profound impact on the digital presence of a business. No matter what industry you're in, your expertise can be translated into a powerful stream of content that gives lasting value to prospective customers. As high-quality content pollinates online, it boosts the discoverability of your business and positions you as an authority that can't be ignored.

Now imagine that you could place that content on one of EO Media's most popular daily news sites, in front of an audience of tens of thousands of engaged and intelligent readers. Game-changer, no? With a native content strategy from Whiteboard Media, that's exactly what you can do.

The screenshot shows a web browser displaying a news article on the Bend Bulletin website. The article is titled "A world away, in a nearby classroom" and is sponsored by Central Oregon Community College (COCC). The article text reads: "COCC broadens horizons with a passion for foreign languages and cultural studies". The main image shows a man at a table during a Chinese New Year event, reaching for a red balloon. A smaller image to the right features a smiling man with the text "More Education. Better Life." and the COCC logo. The page includes a navigation menu with categories like Local/State, Sports, Business, and Lifestyle, and a sidebar with a "READING LIST" of related articles.

Why Us?

Native content doesn't just come and go in a flash. It is positioned alongside breaking news and features, for a period of three days. Our creative team designs custom ads that run on your article page, driving readers to your website or social media pages.

After that, your content lives on our website indefinitely, where it will continue to be discovered due to our high search engine optimization ranking.

EO Media Websites

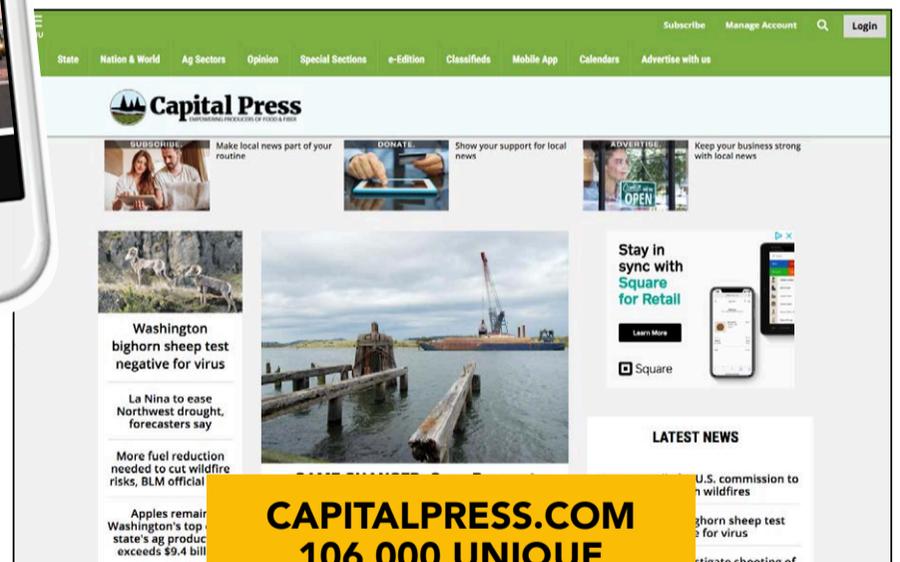

EO Media Group operates local news sites throughout Northern, Eastern and Central Oregon, recording millions of pageviews from over one million unique monthly visitors across all sites.
