

LMMHS Community,

Unfortunately, this message is communicating an extremely difficult decision to you all. The fact is, this school deserves every moment of my attention, and I am unable to give it at this time.

This school and its remarkable faculty, staff, students, and community deserve a full-time presence. For this reason and others, I will take time to take care of my family and myself and request Dr. Gosselin and Mrs. Falkowski to reopen the principal search.

Similar to what I always tell any teacher or student in such situations, as hard as they are to live through, I have to take care of myself and my family before I can give Lenox what the school deserves.

I will be cheering your successes from afar and wish you all the best of happiness and fortune, now and always.

Sal
