

Dear Santa

I've always wondered how do you like your job?

I think my behavior this year is good because I have help friends and family.

Some nice things I have done are listening and saying please and thank you and taking care of the pets.

Some naughty and thing I am working on are not stealing my brother phone and work on math and getting to school on time. something I need is socks and dresses.

Something I would like is better roller blades and sum supprises. Thank you for making people happy safe travels. Love

Xelivity
