

Says ...

Contractors... Make Sure You're Covered!

Successful contractors need insurance, but finding the right coverage can be time consuming. Well, look no further ... come to **NFP INSURANCE.**

We have designed a **Comprehensive Contractors Policy ...** an insurance policy customized to meet the needs of successful contractors.

It provides the basic coverage a contractor needs ...

**PROPERTY
GENERAL LIABILITY
BUSINESS INCOME**
.... along with optional coverages so you can customized the insurance policy to your needs, just as you provide the special touches that customized your work for your customers.

At this time of year, contractors are especially busy planning their work. Why not drop off your current policies at one of our offices to allow our agents to do a complete review of your present coverage and comparison to what we suggest you need ... or don't need. We will do a complete analysis and make an appointment with you when you have free time to discuss what we have in the way of broader and more comprehensive coverage with the best possible cost available. You have nothing to lose and everything to gain.

Contact Mike Fleurie in our St. Johnsbury office.
