Great day racing to be had by all! Now that the cats out of the bag on the new training facility with a fun filled day all the racers and family went up to look at the new [WatkinsTrainingFacility/WTFcrew](#) proving grounds! Facility to be finished in the next couple of weeks before the 1st event!

Lots of blood, sweat and tears to be had to get this far! Anders was the 1st truggy on the track to test it out with Richard being the 1st turn Marshall!

There will be of course R/C racing and training, pit area with tables, onsite power and water, tire wash station, nitro car warm up area, nitro pit lane, stadium lighting and more!

Stay turned and watch for updates!
