

Mayor Alumbaugh,

It is with regret that I too am forced to respond in this email chain to all included that there has been a misinterpretation on the administration in reading the Council President's email.

If you will review the email and pay particular attention to the second paragraph, Council President Fouce clearly states that she 'will follow up to confirm an alternative schedule'. It is the initial schedule presented to the administration months ago that has been canceled. This was done because you informed her by email communication that there would be no representation during the first scheduled meetings.

Council President Fouce took advantage of this cancelled week of budget meetings to attend the AIM conference in its entirety.

Thank you,
David Cain
Marion City Common Council
