Green light for HS sports

Members of the Crystal River football team run onto the field before a home game last season. On Tuesday, Aug. 25, 2020, the Citrus County School Board approved a recommendation by county athletic director Jonny Bishop to begin fall athletic practices Sept. 7, with Sept. 17 as the first date games may be played. The first football Friday will be Sept. 25. High school sports have not been played in Florida since mid-March due to the COVID-19 pandemic.

Officials set timeline for COVID-19 impacted season

Citrus County public high school athletes and sports fans now have the answers they have been waiting for.

According to assistant superintendent and county athletic director Jonny Bishop, there are two questions he has heard the most regarding the fall sports season in the county.

"We want to focus on two things today," he told the Citrus County School Board at a workshop Tuesday, Aug 25, 2020, in Inverness. "Our student-athletes, our coaches, our parents, our communities, they have two questions — when are you going to get started and are they going to have a chance to win a state championship?"

In an impassioned speech to begin the meeting, Bishop spoke about the importance of high school athletics on many levels.

"Athletics is far-reaching in our society and our local community. Athletics plays a critical role in the development of many of our students," he said. "Athletics affords many of our students an opportunity they can't get anywhere else. Athletics serves as one of our most effective drop-out prevention programs and it serves as a motivation for higher academic achievements for those participants.

Board joins Zoom, OKs insurance rate changes

Before buying a Zoom subscription for the Citrus County School District, education officials discussed how teachers and students should appear — if at all — while using the video-conferencing service for an online class.

Citrus County School Board members voted 5-0 during a special meeting Tuesday, Aug. 25, 2020, to buy the $32,250 annual membership using funds provided by the CARES Act.

This equates to $25 per user, compared to the normal rate of $199, said Kathy Androski, district director of educational technology.

Androski said Zoom will help classrooms accommodate distanced learning or virtual schooling since it allows many users to participate, even if they have a weak WiFi signal.

Board member Doug Dodd said he has an issue with students and teachers turning off their computer cameras and blacking out their screen during a Zoom video session.

"Isn't the purpose of the Zoom meeting supposed to have some face-to face interaction?" he said. "It's just irritating when the person isn't there."

Androski said some classes black out their screens or mute their mic audio so there are fewer distractions.

County OKs more pandemic help grants

MIKE WRIGHT
Staff writer

Here comes round two of the Citrus County CARES Act grant program, with commissioners agreeing Tuesday to spread the help wider.

The next batch of the grant program, which is Sept. 1-30, will include funds to help individuals struggling to pay rent or utilities, provide relief for retail stores run by nonprofits, and a second bite at the apple for bars and restaurants that are still either closed by government order or restricted to 50% capacity.

The county received $6.5 million in federal funds for the program, aimed at businesses and individuals who cannot pay their bills due to government shutdowns during the pandemic.

About $2.2 million was provided in $7,500 grants during the first round to businesses ordered closed or restricted.

Many of those grants were awarded to bars and restaurants, which are still affected. Bars remain closed by state government order and restaurants remain at 50% capacity. The second round provides more funds for those businesses.

Commissioners and County Administrator Randy Oliver also learned during the first round that many businesses or independent contractors that were affected by the pandemic shutdown did not qualify for a grant because they were not current on business taxes.

The next round includes those businesses, at a

Councilwoman's son was killed in car wreck on Monday

BUSTER THOMPSON

After expressing condolences to their colleague for the loss of her son, Crystal River City Council members agreed to put pressure on state road officials for a safer stretch of U.S. 19 into the city.

Councilman Ken Brown introduced the proposal at the end of council's meeting the evening of Monday, Aug. 24, 2020, a day after Carson Guy, 19-year-old son of Councilwoman Cindi Guy, died in a three-vehicle crash on the highway near the intersection with Indian Woods Path.

"I'd like the city ... to go to the (Florida Department of Transportation) and say ... what can we do to it less dangerous?" Brown told council, which was missing Cindi Guy's presence Monday on the

"At a time when uncertainty looms large, athletics will undoubtedly bring our students, our coaches, our parents, our community a sense of normalcy we have been seeking since the second week of March."

Bishop recommended to the board for fall athletic practices to begin Sept. 7, with Sept. 17 as the first date competitions may be held and Sept. 25 as the first night for varsity football games. He also recommended for the school district to opt into the state series, so the three schools can compete for state titles, and to make it mandatory for student-athletes to read and sign a COVID-19 consent form. After approximately one hour of discussion, the meeting ended with the board's approval.

The Florida High School Athletic Association (FHSAA) Board of Directors met Aug. 14, 2020, in Gainesville to decide the fate for fall sports in the state.

The board voted 11-5 to support Executive Director George Tomyn's recommendation for fall practices beginning Aug. 24, with a first regular-season game date of Sept. 4. School districts weren't obligated to begin practices on that date; it's just the earliest they could.

Jonny Bishop, along with athletic directors from the three public schools — Larry Bishop of Citrus High, Bobby Verlato of Crystal River and Ron Allan of Lecanto — have had discussions for months about how to safely reopen athletics for the students after things were shut down in mid-March due to the COVID-19 pandemic. Those discussions also involved the public schools from Hernando County, which are members of the Gulf Coast Eight Conference with the trio from Citrus.

"They are committed to Citrus County," Jonny Bishop said of the Hernando County schools. "It is my recommendation that we remain committed to them. That relationship affords our student-athletes options. And in times where we are left with very little things we can control, options are always good."

The schedules for all fall sports have been built and will only involve competitions between the public schools in the two counties. Some seasons will be shorter than others in order to be able to compete in the various postseasons, which have staggered starts throughout the fall.

"I'm very confident we have a viable schedule for each of our fall sports," Jonny Bishop said. "I'm very confident Hernando County is going to do everything within their power to maintain our relationship.

"We're going to make sure we have protocols in place. We're going to make sure our athletic directors hold our coaches accountable to follow every guideline that we have."

The Sept. 7 start date works with Hernando County, which doesn't bring students back to school until Aug. 31, while Citrus County began school late last week.

With a start date now set, there are many other things to consider and focus on finding answers for, Jonny Bishop said. Among those are how many fans will be allowed at games, how tickets will be sold and taken at the gates, social distancing, the safety of concession workers and officials, and protocols for locker rooms, restrooms and the press box, just to name a few.

"We have a lot of unknowns ahead of us," board member Thomas Kennedy said. "This is going to be fluid. Every time I would say 'But what about this Mr. (Ron) Allan?' and he'd say 'I share those same concerns, but our students need this.' And you're right, our students need this, so let's figure out a way through this."

Board member Doug Dodd — who is also on the FHSAA Board of Directors — added, "What we need to do as a district, we need to look at the ways to mitigate the risk, we need to make the opportunities available for parents and students to participate and we need to remind parents that if they don't feel comfortable with their child playing a sport, they don't have to play the sport."

Another board member, Sandy Counts, said the eyes of the schools will be on the athletic teams.

"There's other people in the schools looking at you guys and we wish you all the success," she said. "Because athletics feeds over to our band competitions, our chorus competitions, all the things that function at the schools. And everybody is going to be watching."

About the only sticking point about the recommended plan during the meeting was when Dodd questioned whether Seven Rivers Christian — which started practices Monday, Aug. 24 — would be allowed to compete against the other county schools.

The schedules for the public schools are going to be against each other and Hernando County public schools only for several reasons — the shorter length of the fall seasons making it very hard to add more teams and also bringing fewer teams into the "bubble" to limit possible exposure to COVID-19. Seven Rivers has its own schedules and is playing teams outside of the two counties, it was noted.

BOARD

Continued from Page A1

Assistant School Superintendent Mike Mullen said the Citrus County Education Association will have concerns with teachers being forced to have their cameras on.

"We can tell them that's what the board wants," he told Dodd, adding officials with the teachers union and school district will negotiate when it mulls over agreement terms for online schooling.

Dodd said he's fine with teachers shutting off cameras or muting mics if students need to focus, but there should be limitations.

■ Board members were OK with a 0.5% premium bump to the school district's employee health insurance program for 2021 to help cover expected increases in medical costs and claims.

Board members will make a formal vote on Sept. 8, before the enrollment period for the My Health Onsite program opens from Oct. 12-30.

Assistant School Superintendent Jonny Bishop and Risk Management Director Steve Baumer presented the rate boost.

They said the premium increase was partly based on the $5.7 million in claims filed between January and June 2020, $1.1 million more than what claimants filed for the first six months of 2019.

"We saw more claims related to illnesses, possibly COVID," Baumer said about 2020's first half, adding prescription payments also made up most claims.

Baumer said more members enrolled with My Health Onsite for 2020, bringing in more revenue for the program but allowing for more claims to be made in the future.

Issuing the premium increase, which would be less than the annual 10% industry average nationwide, would lower the risk of My Health Onsite from being underfunded with an affordable premium for its members.

Depending on the plan and if the board provides a matching contribution, a member could see a cost difference of between $0 and $4.94 being taken from paychecks, Baumer said.

Dodd asked if the district could forego the premium increase since the $6 million general fund balance has been growing and could offset claim expenses if needed.

Baumer and Bishop said just a few "catastrophic claims" could cost the district if members didn't contribute more.

■ School Superintendent Sandra "Sam" Himmel swore in two guardians — armed employees who will be stationed at campuses to neutralize armed assailants.

This brings the district's total guardian count to nine, with two alternates.

Guardian Charlie Cunningham has 21 years of experience with the Ottawa County Sheriff's Office and Danbury Police Department.

Ruben Rivera became a guardian after working with at-risk teens, serving in the U.S. Army and providing private security. He's also an active member of the Florida Army National Guard.

Over the summer, Cunningham and Rivera went through 144 hours of state-mandated training conducted by the Citrus County Sheriff's Office, before undergoing an additional 200 hours of training provided by the school district.

"Both of these guys add to the wealth of experience we have in our guardian program as a whole," district School Safety Specialist and Police Chief Buddy Grant said. "We're just very happy to have them."

It's hERe.

Inverness makes repairs along Forest Drive

FRED HIERS
Staff writer

The City of Inverness is repairing about 1,000 feet of swale along Forest Drive as debris filled in the section meant to keep the heavily used road clear of standing water.

City Manager Eric Williams said the city is using its own public works employees and equipment for the job. Williams said the weather will be the determining factor as to when the job is complete.

The city is buying enough sod for the 1,000-foot-long stretch and the company supplying that will lay the grass, he said. The area being repaired is between North Independence Highway and State Road 44.

Williams said the city routinely cleans out swales from city roads and each road varies based on the buildup. Some road swales need cleaning every 20 years. Others half that time, he said.

The repair is part of the city's stormwater project. Williams began the city's swale program in 2013 when he began working for Inverness.

Williams said it's important to get the water off the road because it will eventually seep into the foundation and under the asphalt and undermine the surface, which includes creating potholes.

Williams said the work hasn't impacted traffic.

Board backs basketball court funds

Commissioners approve Hernando park renovation

MATTHEW BECK/Chronicle file

Members of the Beyond Limits Athletics team the Hustlers run through drills at Alexander Park in Hernando in this June 2019 file photo. The county commission agreed to help fund new surface and baskets for the court. Improvements are expected to begin in the next seven weeks, according to officials.

MIKE WRIGHT
Staff writer

It's hoops time in Hernando, thanks to community efforts and backing Tuesday by Citrus County commissioners.

The board enthusiastically voted to provide $6,831 toward the purchase of a special court surface and two acrylic backboards at the Alexander Park basketball court in Hernando.

Hernando native Devonte White, a 2010 Citrus High School graduate who just received his doctorate from Texas Southern University in Houston, led the effort to raise money for the basketball court that meant so much to him and his friends growing up.

"I wanted to come back and give back to my community," White told county commissioners.

White was able to raise funds through a 3-on-3 basketball tournament at Citrus High, and with a donation from the Citrus County Hospital Board. The remainder came from county funds.

The proposal is for a complete renovation of the court, goals, nets and rims, at a cost of $18,826. That also includes installing a new, safe, low-maintenance, shock-absorbing tile on top of the original concrete court.

Board Chairman Brian Coleman said he's been working with White and community leaders since February 2019 to bring the project to fruition.

Work on the courts will start once materials arrive, expected in the next seven weeks, officials said.

Extreme heat may stick

At least one more day of heat advisory, high temps

MICHAEL D. BATES
Staff writer

Citrus County may have dodged twin storms in the Gulf of Mexico this week but it didn't escape soaring temperatures that prompted the National Weather Service to issue a heat advisory for a second consecutive day Tuesday, Aug. 25, 2020.

That advisory was in effect from noon to 6 p.m., with peak heat indexes between 107 to 100 degrees.

Extreme heat is being felt throughout southwest and central Florida. Residents are urged to take care because hot temperatures, combined with high humidity, can cause illness.

NWS meteorologist John McMichael said there's a good chance another heat advisory may be issued Wednesday.

Hurricane Laura and (now-downgraded) Tropical Storm Marco contributed to the heat because they caused high pressure to sit over the area and that, combined with high humidity, is suppressing the heat and keeping it low to the ground.

It's also called "sinking air," McMichael said.

"Once we get to Thursday and Friday, the center of high pressure shifts south," he said.

It will still be hot but not unbearably so, he said.

The heat is not only hard on the body. It's also affecting energy bills. And with more people at home these days because of COVID-19, they are cranking up the air conditioning.

"Extreme temperatures during Florida summers already drive higher energy use because our air conditioning systems are the biggest energy users in the home," said Catherine Stempien, state president of Duke Energy Florida. "With COVID-19, customers are spending more time at home and using more energy not only to cool their homes, but also to power their electronics, lights and appliances."

Dukes offers the following money-saving tips:

- Use ceiling fans and set them to rotate counterclockwise.
- Keep blinds, curtains and shades closed during the hottest part of the day.
- Set thermostat to a comfortable level — perhaps 78 degrees when home and 80 when away.
- Have the air conditioning system serviced and change the air filter each month.
- Install attic insulation rated R-30 and seal attic leaks.
- Turn off computers and TVs when not in use.
- Unplug phones or other electronic devices once fully charged.
- Replace old light bulbs with energy-saving LEDs and turn off lights when not in use.

Rap at auction: Biggie's crown and Tupac Shakur letters

NEW YORK — Rivals in life, the rappers **Notorious B.I.G.** and **Tupac Shakur** are being united for an auction at Sotheby's, the first-ever dedicated hip-hop auction at a major international auction house.

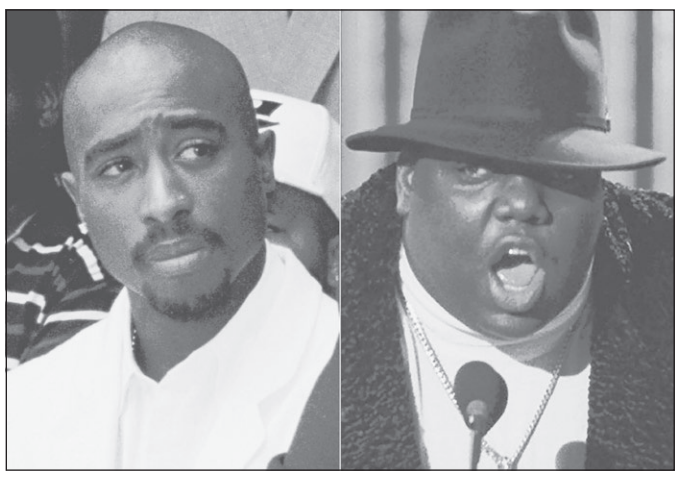
Bidders will be able to vie for the crown worn and signed by the Notorious B.I.G. during a 1997 photo shoot held three days before he was killed in Los Angeles. They'll also get to bid on an archive of 22 autographed love letters written by Shakur at the age of 15-17 to a high school sweetheart.

The auction will be held Sept. 15 and features over 120 hip-hop-related lots. The items can be viewed in person — reservations are required during the pandemic — at Sotheby's in New York City and the exhibition will also be available to the public online via its digital gallery.

"The impact of hip-hop is everywhere — sneakers, clothing, jewelry, art, music. I wanted to have a sale that really recognized how massive that impact really is," said **Cassandra Hatton**, the Sotheby's senior specialist who organized the sale.

The estimates for the headlining lots — $200,000 to $300,000 for the crown and $60,000 to $80,000 for the letters — are low, with the hope that the auction house can attract first-time bidders and show it is not just a stuffy place for multi-million-dollar watches and paintings.

Onetime friends who became rivals in a hype-fueled war between the East and West Coast rap scenes, Shakur and the Notorious B.I.G. — also known as **Biggie Smalls** — were gunned down within months of each other. Both crimes remain unsolved.



Associated Press

Tupac Shakur, left, attends a voter registration event in South Central Los Angeles on Aug. 15, 1996, left, and Notorious B.I.G., right, winner of best rap artist and rap single of the year, appears at the Billboard Music Awards in New York on Dec. 6, 1995. The late rappers are being united for an auction at Sotheby's, the first-ever dedicated hip-hop auction at a major international auction house.

The crown has been in photographer **Barron Claiborne's** possession since he captured Biggie for the cover of Rap Pages magazine. Claiborne had provided the prop, hoping to portray Biggie as the king of New York. **Sean "Diddy" Combs**, owner of Biggie's label Bad Boy Entertainment, was with the rapper on the photo shoot.

"I've seen the crown. Everybody's seen the crown. It's so famous. It's so iconic. When I was first thinking of doing this sale, I thought, 'Wouldn't it be great to track that crown down?'" Hatton said. "I've sold all sorts of wild things. But this is a little different."

Shakur's letters — many on lined stationary pages with neat hand-lettered script — were written in 1987 and 1988 to **Kathy Loy**, a fellow student at the Baltimore School for the Arts. The 42 pages chronicle their approximately two-month long romance, including a letter of regret for breaking up sent a year later. Loy provided the letters for auction.

"I'll always be there for you," Shakur wrote to her in one. In a poem, we writes: "Everything is so beautiful/since I fell in love." The trove also reveal his friendship with fellow student **Jada Pinkett Smith**, who he mentions in one letter: "Jada told me she can see how much I love you."

What interested Hatton most is the tone of the letters. Unlike Shakur's tough public persona, the letters reveal a "sweet, poetic, sensitive young man."

"There are definitely moments that made me blush reading the letters — he is a 16-year-old boy after all," she added. "But he is very respectful. He advocates for clear communication and boundaries and wants to define relationships."

Frankie Johnson Moran

CRYSTAL RIVER

Frankie Rollins was born on September 20, 1928 in Harrison County West Virginia. Life in coal country was hard, but somehow that never kept Frankie's light from shining bright. She loved life and honestly believed the whole world loved her, and more often than not, it did. Frankie was vibrant and passionate, never walking into a room unnoticed.

Frankie Johnson Moran

Frankie married James "Jimmy" Kidd of Clarksburg, WV at a young age and together they had a daughter, Terri Lynn. Things didn't work out for Frankie and Jimmy, so they divorced. A few years later Frankie married Harry Newton Johnson, also of Clarksburg. After the war, Frankie and Harry moved from West Virginia to Michigan where Harry became a schoolteacher. At 41, Frankie went back to college and also became a schoolteacher, a profession she loved. In Michigan they raised Terri and had four children together: Jamie, Thomas "Tom", Kelly, and Andrew "Andy." After 25 years, Frankie and Harry grew apart and went their separate ways. Frankie then married Ernest "Ernie" Moran who dedicated himself to her completely, valiantly stepping up to help her raise four teenagers.

When the children were gone, Frankie and Ernie moved from Michigan to Crystal River, Florida in 1992 where they became active members in their church community, First Baptist Church of Crystal River. Frankie also volunteered at Citrus Memorial Hospital, served as a member of the Citrus County Sheriff's Office Volunteer Unit, was an avid Red Hatter, and enjoyed participating in charity fashion shows.

After 28 years of marriage and a long illness, Ernie left this earthly plane. Shortly afterwards, Frankie began to slip into the grip of dementia. Her passing, though sorrowful, also brings great joy as we know she has been released from the illness that depleted her.

Frankie was preceded in death by husbands, Harry N. Johnson and Ernest M. Moran, her brothers Jack H. Rollins and Ted H. Rollins, and her granddaughter, Amy M. Colie. She is survived by her brother, Mack Rollins and his wife Margie; her children: Terri Shaw and her husband Mike, Jamie Cooper and her husband Ward, Tom Johnson and his wife Jeanie, Kelly Williams, and Andy Johnson; her grandchildren: Robert Colie, Christy Danyluck, Paris Wengert and her husband Brandon, Daniel Johnson and his wife Salome, Jennifer Adler and her husband Julian, Brandon Tyler Williams, Emmanuel Johnson, Adelicia Johnson, Eloise Johnson, Ambrose Johnson, Morgan Johnson, Tseitel Cooper, and Ezekiel Cooper; and her great-grandchildren: Ronnie Wengert, Brendan Danyluck, Davinia Wengert, Alex Zych, Alex Danylcuck, and Jackson Phelps.

Family will receive friends for visitation from 2-4PM, Thursday, August 27, 2020 at Brown Funeral Home & Crematory in Lecanto, FL. Funeral service will be held at 11AM, Friday, August 28, 2020 at Brown Funeral Home followed by burial at the Florida National Cemetery in Bushnell, FL.

The family requests that in lieu of flowers, please consider a tribute donation to the Alzheimer's Association.

dais. "It's totally unimaginable, losing a child."

City Manager Ken Frink will follow council's consensus and address a letter to transportation officials for their attention.

Before the meeting began in-person and online, Mayor Joe Meek led a moment of silence.

"Our hearts break for her and her family; we are praying for her," Meek said of Cindi Guy. "We are unified in her hurt and her pain, and we want her to know we love her and support her fully."

Vice Mayor Robert Holmes also gave an invocation for Guy.

"We pray especially for one of our own ... We hope You wrap your loving arms around Cindi, the family, and all involved," he said. "Give them healing and comfort as best as they can take."

Brown said he wants to figure out how a motorist could travel the wrong way on U.S. 19 north of the city, which is what led a 66-year-old Clearwater woman to collide with Carson Guy.

"And what can be done to prevent a tragedy like this in the future," Brown said.

Brown said there's no "wrong-way" signage or reflectors to warn drivers who might get confused on which lane they're on.

Local Tom Gotterup, who nearly had a similar head-on collision on that dark stretch of U.S. 19, said there needs to be more lighting and law enforcement patrols.

■ To decide what action city officials can pursue, City Attorney Robert Batsel Jr. will research the histories of two properties council agreed Monday are eyesores in the city along U.S. 19.

Those lots, owned by different owners, are the Crystal River Shopping Mall and the adjacent former Village Inn.

"They are a black eye on our town and it gives us a bad impression when it couldn't be further from the truth," said Meek, who brought the matter up to council. "They insult us ... every single day by the state of their buildings."

Batsel said he will explore the parcels' mortgages, liens and potential code issues to determine the city's best course of action to either have the buildings repaired or demolished.

Council also:

■ Voted for Meek to authorize the final Crystal River Riverwalk easement agreement for a city boardwalk to run through several private properties along the eastern and northern shores of Cedar Cove in King's Bay, from The Crab Plant to Cracker's Bar & Grill.

■ Gave Frink and city staff kudos for a good full week of requiring paddlecraft rental businesses to launch customers out of Kings Bay Park, instead of the popular Hunter Springs Park.

"It's a very good start," Brown said. "I don't think anybody would say it's perfect."

Stocks shook off a slow start and pushed gradually higher in the afternoon, taking the S&P 500 to another record high. The modest moves followed mixed data on the economy, including a report that showed consumer confidence unexpectedly dropped this month.

Stocks wobble way to new record

Associated Press

NEW YORK — Stocks were mixed on Wall Street Tuesday, but gains were strong enough for tech companies and other pockets of the market to carry the S&P 500 to its fourth straight gain and another record high.

The benchmark index rose 12.34, or 0.4%, to 3,443.62, even though slightly more stocks within it sank than rose. The Dow Jones Industrial Average fell 60.02, or 0.2%, to 28,248.44, and the Nasdaq composite rose 86.75, or 0.8%, to 11,466.47.

The modest moves followed some more mixed data reports on the economy. One showed that consumer confidence unexpectedly dropped this month, contrary to economists' forecast for a strengthening. Another said sales of new homes accelerated faster than economists expected last month. They fit in with a general slowing of the economy recently, following its plummet into recession earlier this year and subsequent, initial burst off the bottom.

Earlier in the morning, most stocks on Wall Street had been edging higher after the United States and China said they held constructive talks as they negotiate how to implement their "Phase 1" deal, which set a truce in their trade war.

"We had three days of record highs" for the S&P 500 earlier in the past week, said Adam Taback, chief investment officer for Wells Fargo Private Wealth Management. "It's not surprising to see some resistance here."

The market has been making a lot of small moves recently on snippets of news about the virus, developments on a potential vaccine for it and other concerns. But the economy is still hurting, with airlines running at a fraction of their capacities and restaurants still mostly empty.

"That's not an economy that's back to normal," said Tom Hainlin, national investment strategist at U.S. Bank Wealth Management. "Ultimately, the economy doesn't fully reopen until we get a vaccine or a therapeutic," he said.

For the moment, though, he said, "People are willing to see that the world's cup is slightly half-full right now."

Adding to the cup was an announcement from the U.S. Trade Representative that "both sides see progress" following trade talks between the world's two largest economies. China's Ministry of Commerce said the two sides discussed strengthening coordination of their economic policies, though it gave no details.

Business BRIEF

American Airlines plans 19,000 furloughs, layoffs

DALLAS — American Airlines said Tuesday it will cut more than 40,000 jobs, including 19,000 through furloughs and layoffs, in October as it struggles with a sharp downturn in travel because of the pandemic.

American executives said the furloughs can only be avoided if the federal government gives airlines another $25 billion.

The airline said 23,500 employees have accepted buyouts, retired early or taken long-term leaves of absence, but that was not enough to avoid involuntary cuts. The furloughs of union workers and layoffs of management staff announced Tuesday will fall heaviest on flight attendants, with 8,100 being terminated in October.

American began the year with about 140,000 employees but expects fewer than 100,000 to remain in October.

U.S. air travel plunged 95% by April, a few weeks after the first significant coronavirus outbreaks in the United States. Passenger traffic has recovered slightly since then but remains down 70% from a year ago, and carriers say they need fewer workers.

American's announcement comes one day after Delta Air Lines said it will furlough 1,941 pilots in October unless it reaches a cost-cutting deal with the pilots' union.

In March, passenger airlines got $25 billion from the government to save jobs for six months, and American was the biggest beneficiary, receiving $5.8 billion. The money, and an accompanying ban on furloughs, expire after Sept. 30, although airlines and their labor unions are lobbying Congress for another $25 billion and a six-month reprieve from job cuts.

When the federal relief was approved, "it was assumed that by Sept. 30, the virus would be under control and demand for air travel would have returned. That is obviously not the case," American CEO Doug Parker and President Robert Isom said in a letter to employees on Tuesday.

American plans to fly less than half its usual schedule — and only one-fourth of its lucrative international service — in the fourth quarter. The airline, based in Fort Worth, Texas, announced last week that it will pull out of 15 smaller U.S. cities in October, a move that was seen as a warning shot to Washington that it should approve more money for airline payrolls.

Airlines were the only industry to get special treatment in a $2.2 trillion virus-relief measure approved in March. There is broad support in Congress for extending that help, but it is stalled by a breakdown in negotiations between the White House and congressional Democrats.

Many AP preseason All-Americans not playing

11 members of first team won't suit up

Ralph D. Russo
AP college football writer

Penn State linebacker Micah Parsons and Oregon tackle Penei Sewell are among 11 players selected to The Associated Press preseason All-America first team who are not slated to play this fall.

The team was selected by 47 AP poll voters, who were asked to consider all Division I players — even those who had already opted out of the season or whose teams had postponed football.

The results show just how much star power will be missing from this pandemic-altered college football season. Twelve second-team All-Americans will also not play in the fall, including quarterback Justin Fields from defending Big Ten champion and preseason No. 2 Ohio State.

The Big Ten, Pac-12, Mid-American and Mountain West conferences have decided to try to play football in the second semester. As of now, Fields has given no indication that he won't be with the Buckeyes if they do. Same goes for Sewell, the Outland Trophy winner and potential top-five NFL draft pick, and Oregon teammate Kayvon Thibodeaux, a sophomore defensive end.

Parsons is among a handful of stars who have said they are gone for good, opting out of the season to concentrate on preparing for the draft. Along with Parsons, Purdue's Rondale Moore, selected as an all-purpose player, Miami defensive end Gregory Rousseau and Pittsburgh defensive tackle Jaylen Twyman were first-team All-America opt outs.

The All-Americans who will play this season include Clemson quarterback Trevor Lawrence, Oklahoma State running back Chuba Hubbard and LSU receiver Ja'Marr Chase.

See Page A10 for complete list of the AP preseason All-America teams.

Still perfect in overtime

Palat's OT goal lifts Lightning over Bruins 4-3

Associated Press

TORONTO — Ondrej Palat scored at 4:40 of overtime to give the Tampa Bay Lightning a 4-3 win over the Boston Bruins on Tuesday night, evening their Eastern Conference semifinal series at one game apiece.

Reigning Vezina Trophy winner Andrei Vasilevskiy had 22 saves and became Tampa Bay's all-time playoff leader with 22 wins as the Lightning improved to 4-0 in overtimes games this postseason.

Game 3 of the best-of-seven matchup is Wednesday night in Toronto.

FRANK GUNN/The Canadian Press

Tampa Bay left wing Ondrej Palat (18) celebrates Tuesday with teammates Braydon Coburn (55), Patrick Maroon (14) and Yanni Gourde (37) after scoring the winning goal against Boston during overtime of an NHL Stanley Cup Eastern Conference playoff game in Toronto, Ontario.

Blake Coleman had two goals and Nikita Kucherov also scored for Tampa Bay. Kucherov tied it 2-2 with 4 1/2 minutes left in the second period, and Coleman's second of the game put the Lightning ahead with 9:20 left in the third.

Brad Marchand's second goal of the night, off a nifty feed from Sean Kuraly, tied it 3-3 with just under 4 minutes to go in regulation.

The Lightning outshot the Bruins 40-25, including 9-1 in overtime.

Nick Ritchie also scored for the Bruins, and Jaroslav Halak finished with 36 saves.

David Pastrnak, the league's leading scorer during the regular season, had the primary assist on Marchand's power-play goal at 14:33 of the second period. He picked up another assist on the goal that tied it in the third.

The Lightning, who trailed 3-0 before scoring in Game 1, had a goal by Barclay Goodrow disallowed in the opening period when the Bruins successfully challenged that Tampa Bay's Brayden Point was offside seconds before the apparent score that would have have erased Boston's early 1-0 lead.

Instead of dwelling on the reversal, the Lightning kept working until Coleman's diving shot off a feed from Zach Bogosian made it 1-1 at 12:42 of the opening period. It remained tied after Marchand scored for Boston and Nikita Kucherov countered for Tampa Bay within a 55-second span of the second period.

The loss stopped Boston's four-game winning streak since starting goalie Tuukka Rask opted out of the playoffs.

NOTES: The Lightning played without D Ryan McDonagh, who was injured during the third period of Game 1. Coach Jon Cooper inserted both Braydon Coburn and Luke Schenn into the lineup, electing to go with seven defensemen and 11 forwards. Neither Coburn nor Schenn had appeared in the team's first nine playoff games. ... Boston's David Krejci's career-best playoff point streak (three goals, seven assists, 10 points) ended at seven games. It was the team's longest since Patrice Bergeron had a seven-game streak in 2014. ... The Lightning have gone seven consecutive games without a power-play goal, going 0-for-15 during the stretch. They were 0-for-2 Tuesday night and are 2-for-20 this postseason.

ST. PETERSBURG — Tyler Glasnow finished with a flurry after giving up an early home run.

Glasnow struck out a career-high 13 over seven innings and the AL East-leading Tampa Bay Rays beat the Baltimore Orioles 4-2 on Tuesday night.

"Electric stuff," Rays manager Kevin Cash said.

Glasnow (1-1) fanned nine of his final 10 batters using a mix of on-target fastballs and curveballs. The 6-foot-8 right-hander allowed two runs, five hits and one walk.

"I feel like I got a little better as the game went on," Glasnow said. "I definitely feel like the adjustments I made, like later in the fourth, the fifth, sixth and seventh were probably the best I felt in a real long time. Very encouraging."

Hunter Renfroe and Manuel Margot hit back-to-back homers for the Rays, who have won eight of 10.

Edgar García got the final two outs with a runner on second, claiming his first career save. He replaced Jalen Beeks, who left with a forearm-elbow area injury.

The Rays have eight pitchers on the injured list.

The Orioles, who lost for just the second time in 10 road games, got a homer from Renato Núñez.

"We had a tough time with Glasnow," Baltimore manager Brandon Hyde said. "He was really on his game tonight. When you face a starter like that and he has the 97, 98 (mph) working and a hammer of a breaking ball, it makes it tough on you offensively. We had a tough time getting a rally together or making a whole lot of contact off Glasnow."

Baltimore's Anthony Santander had his 18-game hitting streak end after going 0 for 4. He hit .329 (25-for-76) with eight homer and 20 RBIs during the streak.

After Renfroe hit a two-run drive, two pitches later Margot made it 3-1 in the second on his homer off Tommy Milone (1-4).

Renfroe had been hitless in his previous 12 at-bats.

The Rays went up 4-2 on Ji-Man Choi's sacrifice fly in the sixth.

(7) The provisions of this amendment are severable. If any of the provisions of this amendment shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any remaining provisions of this amendment. (8) a. A person who establishes a new homestead as of January ~~1, 2009, or January 1 of any subsequent year~~ and who has received a homestead exemption pursuant to Section 6 of this Article as of January 1 of any ~~either~~ of the three ~~two~~ years immediately preceding the establishment of the new homestead is entitled to have the new homestead assessed at less than just value. ~~If this revision is approved in January of 2008, a person who establishes a new homestead as of January 1, 2008, is entitled to have the new homestead assessed at less than just value only if that person received a homestead exemption on January 1, 2007.~~ The assessed value of the newly established homestead shall be determined as follows: 1. If the just value of the new homestead is greater than or equal to the just value of the prior homestead as of January 1 of the year in which the prior homestead was abandoned, the assessed value of the new homestead shall be the just value of the new homestead minus an amount equal to the lesser of $500,000 or the difference between the just value and the assessed value of the prior homestead as of January 1 of the year in which the prior homestead was abandoned. Thereafter, the homestead shall be assessed as provided in this subsection. 2. If the just value of the new homestead is less than the just value of the prior homestead as of January 1 of the year in which the prior homestead was abandoned, the assessed value of 98 the new homestead shall be equal to the just value of the new homestead divided by the just value of the prior homestead and multiplied by the assessed value of the prior homestead. However, if the difference between the just value of the new homestead and the assessed value of the new homestead calculated pursuant to this sub-subparagraph is greater than $500,000, the assessed value of the new homestead shall be increased so that the difference between the just value and the assessed value equals $500,000. Thereafter, the homestead shall be assessed as provided in this subsection. b. By general law and subject to conditions specified therein, the legislature shall provide for application of this paragraph to property owned by more than one person.
(e) The legislature may, by general law, for assessment purposes and subject to the provisions of this subsection, allow counties and municipalities to authorize by ordinance that historic property may be assessed solely on the basis of character or use. Such character or use assessment shall apply only to the jurisdiction adopting the ordinance. The requirements for eligible properties must be specified by general law.
(f) A county may, in the manner prescribed by general law, provide for a reduction in the assessed value of homestead property to the extent of any increase in the assessed value of that property which results from the construction or reconstruction of the property for the purpose of providing living quarters for one or more natural or adoptive grandparents or parents of the owner of the property or of the owner's spouse if at least one of the grandparents or parents for whom the living quarters are provided is 62 years of age or older. Such a reduction may not exceed the lesser of the following: (1) The increase in assessed value resulting from construction or reconstruction of the property.
(2) Twenty percent of the total assessed value of the property as improved.
(g) For all levies other than school district levies, assessments of residential real property, as defined by general law, which contains nine units or fewer and which is not subject to the assessment limitations set forth in subsections (a) through (d) shall change only as provided in this subsection.
(1) Assessments subject to this subsection shall be changed annually on the date of assessment provided by law; but those changes in assessments shall not exceed ten percent (10%) of the assessment for the prior year.
(2) No assessment shall exceed just value.
(3) After a change of ownership or control, as defined by general law, including any change of ownership of a legal entity that owns the property, such property shall be assessed at just value as of the next assessment date. Thereafter, such property shall be assessed as provided in this subsection.
(4) Changes, additions, reductions, or improvements to such property shall be assessed as provided for by general law; however, after the adjustment for any change, addition, reduction, or improvement, the property shall be assessed as provided in this subsection.
(h) For all levies other than school district levies, assessments of real property that is not subject to the assessment limitations set forth in subsections (a) through (d) and (g) shall change only as provided in this subsection.
(1) Assessments subject to this subsection shall be changed annually on the date of assessment provided by law; but those changes in assessments shall not exceed ten percent (10%) of the assessment for the prior year.
(2) No assessment shall exceed just value.
(3) The legislature must provide that such property shall be assessed at just value as of the next assessment date after a qualifying improvement, as defined by general law, is made to such property. Thereafter, such property shall be assessed as provided in this subsection.

No. 6
Constitutional Amendment
Article VII, Section 6 and Article XII

ARTICLE VII Finance and Taxation SECTION 6. Homestead exemptions.—
(a) Every person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, or another legally or naturally dependent upon the owner, shall be exempt from taxation thereon, except assessments for special benefits, up to the assessed valuation of twenty-five thousand dollars and, for all levies other than school district levies, on the assessed valuation greater than fifty thousand 1 dollars and up to seventy-five thousand dollars, upon establishment of right thereto in the manner prescribed by law. The real estate may be held by legal or equitable title, by the entireties, jointly, in common, as a condominium, or indirectly by stock ownership or membership representing the owner's or member's proprietary interest in a corporation owning a fee or a leasehold initially in excess of ninety-eight years. The exemption shall not apply with respect to any assessment roll until such roll is first determined to be in compliance with the provisions of section 4 by a state agency designated by general law. This exemption is repealed on the effective date of any amendment to this Article which provides for the assessment of homestead property at less than just value.
(b) Not more than one exemption shall be allowed any individual or family unit or with respect to any residential unit. No exemption shall exceed the value of the real estate assessable to the owner or, in case of ownership through stock or membership in a corporation, the value of the proportion which the interest in the corporation bears to the assessed value of the property.
(c) By general law and subject to conditions specified therein, the Legislature may provide to renters, who are permanent residents, ad valorem tax relief on all ad valorem tax levies. Such ad valorem tax relief shall be in the form and amount established by general law.
(d) The legislature may, by general law, allow counties or municipalities, for the purpose of their respective tax levies and subject to the provisions of general law, to grant either or both of the following additional homestead tax exemptions:
(1) An exemption not exceeding fifty thousand dollars to a person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, who has attained age sixty-five, and whose household income, as defined by general law, does not exceed twenty thousand dollars; or
(2) An exemption equal to the assessed value of the property to a person who has the legal or equitable title to real estate with a just value less than two hundred and fifty thousand dollars, as determined in the first tax year that the owner applies and is eligible for the exemption, and who has maintained thereon the permanent residence of the owner for not less than twenty-five years, who has attained age sixty-five, and whose household income does not exceed the income limitation prescribed in paragraph (1). The general law must allow counties and municipalities to grant these additional exemptions, within the limits prescribed in this subsection, by ordinance adopted in the manner prescribed by general law, and must provide for the periodic adjustment of the income limitation prescribed in this subsection for changes in the cost of living.
(e)(1) Each veteran who is age 65 or older who is partially or totally permanently disabled shall receive a discount from the amount of the ad valorem tax otherwise owed on homestead property the veteran owns and resides in if the disability was combat related and the veteran was honorably discharged upon separation from military service. The discount shall be in a percentage equal to the percentage of the veteran's permanent, service-connected disability as determined by the United States Department of Veterans Affairs. To qualify for the discount granted by this paragraph ~~subsection,~~ an applicant must submit to the county property appraiser, by March 1, an official letter from the United States Department of Veterans Affairs stating the percentage of the veteran's service-connected disability and such evidence that reasonably identifies the disability as combat related and a copy of the veteran's honorable discharge. If the property appraiser denies the request for a discount, the appraiser must notify the applicant in writing of the reasons for the denial, and the veteran may reapply. The Legislature may, by general law, waive the annual application requirement in subsequent years.
(2) If a veteran who receives the discount described in paragraph (1) predeceases his or her spouse, and if, upon the death of the veteran, the surviving spouse holds the legal or beneficial title to the homestead property and permanently resides thereon, the discount carries over to the surviving spouse until he or she remarries or sells or otherwise disposes of the homestead property. If the surviving spouse sells or otherwise disposes of the property, a discount not to exceed the dollar amount granted from the most recent ad valorem tax roll may be transferred to the surviving spouse's new homestead property, if used as his or her permanent residence and he or she has not remarried.
(3) This subsection is self-executing and does not require implementing legislation.
(f) By general law and subject to conditions and limitations specified therein, the Legislature may provide ad valorem tax relief equal to the total amount or a portion of the ad valorem tax otherwise owed on homestead property to:
(1) The surviving spouse of a veteran who died from service-connected causes while on active duty as a member of the United States Armed Forces.
(2) The surviving spouse of a first responder who died in the line of duty.
(3) A first responder who is totally and permanently disabled as a result of an injury or injuries sustained in the line of duty. Causal connection between a disability and service in the line of duty shall not be presumed but must be determined as provided by general law. For purposes of this paragraph, the term "disability" does not include a chronic condition or chronic disease, unless the injury sustained in the line of duty was the sole cause of the chronic condition or chronic disease. As used in this subsection and as further defined by general law, the term "first responder" means a law enforcement officer, a correctional officer, a firefighter, an emergency medical technician, or a paramedic, and the term "in the line of duty" means arising out of and in the actual performance of duty required by employment as a first responder.

ARTICLE XII, SCHEDULE
Ad valorem tax discount for surviving spouses of certain permanently disabled veterans.—The amendment to Section 6 of Article VII, relating to the ad valorem tax discount for spouses 144 of certain deceased veterans who had permanent, combat-related disabilities, and this section shall take effect January 1, 2021.

University of Miami quarantines hall after outbreak

ADRIANA GOMEZ LICON
Associated Press

MIAMI — Dorm-room parties are being blamed for a coronavirus outbreak at the University of Miami, where some students who tested positive have been relocated into isolation rooms and two entire floors of a residential tower are under quarantine.

Other students have been kicked out of residence halls and suspended for not following public health directives, said Dr. Julio Frenk, the university's president.

The university's dashboard says 156 people have tested positive in the university system. Most are students; 69 of them have been placed in isolation and another 94 under quarantine in the past seven days. The positivity rate is slightly above 5%.

"It would have been unrealistic to assume that there would be no cases of COVID-19 in our campus," Frenk said in a video message.

Frenk said a pattern of infection emerged at one of the residence halls. In response, everyone who tested positive was moved into isolation, and those who were potentially exposed to the virus have been ordered to stay in their rooms.

Similar challenges are being addressed at other colleges in Florida, where the Department of Public Health reported 4,545 COVID-19 hospitalizations Tuesday, along with about 2,600 new virus cases.

The University of Tampa begins classes Wednesday, but it has already temporarily suspended some students who participated in a large gathering at a residence hall as they were moving in. Florida A&M University is imposing curfews for residential students.

Frenk, who was the dean at Harvard University's school of public health after serving as an executive in the World Health Organization and as Mexico's health minister, said he's closely following reports of other universities, such as Notre Dame, where outbreaks have forced a return to online instruction after reopening.

"Adapting and responding to changing circumstances remain the order of the day," Frenk said.

Miami-Dade County still has in place restrictions banning gatherings of 50 people or more and indoor dining. The county mayor said he was meeting university officials to discuss other measures to make sure students follow public health rules.

"This is what young people do," said county mayor Carlos Gimenez. "This is concerning to me. This is how we started. Some time ago, we saw the spike in young people and we need to curtail as much of that as possible."

Gimenez spoke about the university cases as he announced he will again allow indoor dining at restaurants at a 50% capacity starting next Monday. He said positivity rate and hospitalizations have declined significantly in the state's worst-hit county.

Gimenez warned that businesses still need to follow orders including keeping doors and windows open in establishments that have them. The air-conditioning must remain on, and not put on automatic.

The mayor will also order for people to keep their masks on if they are not eating or drinking.

"This does not mean this is over by a long shot," Gimenez said in an online news conference.

Meanwhile, the mayor of one of the county's largest municipalities told reporters at a news conference earlier Tuesday that his city officers will already stop enforcing the ban on indoor dining before Monday, when the ban is set to be lifted.

"I cannot continue to do something I find wrong," Hialeah Mayor Carlos Hernandez said.

(d) A las personas con derecho a la exención del pago de impuestos a la propiedad constituida en bien de familia conforme al Sección 6 de este Artículo se las evaluará su bien de familia al justo valor vigente al 1° de enero del año posterior a la fecha en que esta reforma entre en vigencia. Esta evaluación solo cambiará según lo dispuesto en este inciso.
(1) Las evaluaciones sujetas a este inciso se modificarán anualmente el 1 de enero de cada año sin que tales modificaciones excedan el monto menor de los enumerados a continuación:
a. Tres por ciento (3%) de la evaluación del año anterior
b. El cambio porcentual en el Índice de Precios al Consumidor en las ciudades, el Costo Promedio Urbano de EE.UU., todos los ítems 1967=100, o informes subsiguientes para el año calendario anterior según lo informado por el Ministerio de Trabajo de los Estados Unidos y el organismo de Estadísticas Laborales.
(2) Ninguna evaluación excederá el valor justo.
(3) Con posterioridad a cualquier cambio de dominio, conforme lo establecido por la ley general, la propiedad constituida en bien de familia será evaluada al justo valor vigente al 1 de enero del año posterior, salvo que se apliquen las disposiciones del párrafo (8). A partir de entonces, la propiedad constituida en bien de familia será evaluada conforme las disposiciones establecidas en este inciso.
(4) La nueva propiedad constituida en bien de familia se evaluará según el justo valor vigente al 1 de enero del año posterior a la constitución del bien de familia, salvo que se apliquen las disposiciones del párrafo (8). Esa evaluación solo podrá modificarse según lo dispuesto en este inciso.

(7) Las disposiciones de esta reforma podrán ser consideradas en forma separada. En caso de que cualquiera de las disposiciones de esta reforma sea declarada inconstitucional por un tribunal competente, la decisión de tal tribunal no afectará ni limitará las restantes disposiciones de esta reforma

1. Si el justo valor de la propiedad recientemente constituida en bien de familia es mayor o igual al justo valor de la propiedad anterior constituida en bien de familia al 1 de enero del año en que la propiedad anterior fuera destituida, el valor de la propiedad recientemente constituida en bien de familia será igual al justo valor del nuevo bien de familia menos un monto equivalente al menor monto entre $ 500.000 y la diferencia entre el justo valor y el valor determinado del bien de familia anterior al 1 de enero del año en que el bien de familia anterior fuera destituido. A partir de entonces, la propiedad constituida en bien de familia será evaluada conforme las disposiciones establecidas en este inciso.
2. Sin embargo, en caso de que la diferencia entre el justo valor del nuevo bien de familia y el valor determinado del nuevo bien de familia calculado conforme este párrafo, sea mayor a $ 500.000, el valor determinado del nuevo bien de familia será incrementado de manera tal que la diferencia entre el justo valor y el valor determinado sea igual a $ 500.000. (1) Las evaluaciones alcanzadas por este inciso se modificarán anualmente en la fecha de evaluación establecida por la ley; a condición de que tales modificaciones en las evaluaciones no superen el diez por ciento (10%) de la evaluación del año anterior.
(2) Ninguna evaluación excederá el valor justo.

Núm. 6
Enmienda Constitucional
Artículo VII, Sección 6 y Artículo XII

Artículo VII Finanzas y Tributación, Sección 6. Exenciones fiscales para la vivienda constituida como bien de familia.--
(a) Toda persona que tenga el título legal o equitativo de bienes inmuebles y mantenga allí la residencia permanente del propietario, u otra persona legal o naturalmente dependiente del propietario, estará exenta de impuestos al respecto, excepto las evaluaciones de beneficios especiales, hasta la tasación de veinticinco mil dólares y, para todas las obligaciones distintas a las obligaciones del distrito escolar, en la valuación tasada mayor de cincuenta mil dólares y hasta setenta y cinco mil dólares, una vez establecido el derecho a los mismos en la forma prescrita por ley. La titularidad sobre los bienes raíces podrá ser legal o equitativa, mancomunada, solidaria, en común, como condominio, o indirectamente mediante la tenencia de acciones o la participación que representen el derecho de propiedad del propietario o socio en una sociedad que tenga el dominio o los derechos de arrendamiento que inicialmente superen noventa y ocho años. La exención no se aplicará respecto a ningún registro de tasación hasta que primero un organismo estatal designado por la ley general determine que dicho registro cumple las disposiciones de la sección 4. Esta exención se revocará en la fecha de entrada en vigencia de cualquier enmienda a este Artículo que disponga la tasación de la propiedad constituida como bien de familia a un valor inferior al valor justo.
(b) No se le permitirá más de una exención a ninguna persona o unidad familiar respecto a ninguna unidad residencial. Ninguna exención superará el valor de los bienes raíces tasables al propietario o, en caso de dominio mediante acciones o participación en una sociedad, el valor de la proporción que devengue la participación en la sociedad sobre valor tasado del inmueble.
(c) De conformidad con la ley general y con sujeción a las condiciones que se especifican en la misma, el Poder Legislativo podrá entregarles a los arrendatarios que sean residentes permanentes una desgravación fiscal ad valorem sobre todas las obligaciones fiscales ad valorem. Dicha desgravación fiscal ad valorem se establecerá de la forma y en el monto que disponga la ley general.
(d) El poder legislativo podrá, de conformidad con la ley general, permitirles a los condados o municipios, para efectos de sus gravámenes fiscales respectivos y con sujeción a las disposiciones de la ley general, conceder cualquiera de las siguientes exenciones fiscales adicionales para la propiedad constituida como bien de familia o ambas:
(1) Una exención que no supere cincuenta mil dólares para una persona que tenga titularidad legal o equitativa sobre bienes raíces y mantenga en los mismos la residencia permanente del propietario, que haya cumplido la edad de sesenta y cinco años, y cuyos ingresos del hogar, según lo define la ley general, no superen veinticinco mil dólares; o
(2) Una exención equivalente al valor tasado del inmueble para una persona que tenga titularidad legal o equitativa sobre los bienes raíces con un valor justo inferior a doscientos cincuenta mil dólares, según se determine en el primer ejercicio fiscal que aplique el propietario y que cumpla los requisitos para la exención, y que haya mantenido en los mismos la residencia permanente del propietario durante al menos veinticinco años, que haya cumplido la edad de sesenta y cinco años, y cuyos ingresos del hogar no superen la limitación sobre ingresos que se prescribe en el párrrafo(1).
La ley general debe permitirles a los condados y municipios conceder dichas exenciones adicionales, dentro de los límites que se prescriben en este inciso, mediante una ordenanza que se adopte de la manera que lo prescribe la ley general, y debe disponer el ajuste periódico de la limitación sobre ingresos que se prescribe en este inciso respecto a los cambios en el costo de vida.
(e)(1) Cada veterano que tenga 65 años o más y que se encuentre completa o parcialmente discapacitado recibirá un descuento del monto del impuesto ad valorem que se adeude sobre la vivienda familiar que posea el veterano y donde el mismo resida si la discapacidad hubiera sido causada por el combate y el veterano hubiera sido dado de baja con honor tras retirarse del servicio militar. El descuento se expresará en un porcentaje equivalente al porcentaje de la discapacidad permanente vinculada al servicio del veterano, según lo determine el Departamento de Asuntos de los Veteranos de los Estados Unidos. Para calificar para el descuento otorgado por el párrrafo ~~inciso,~~ el solicitante debe presentar al tasador de propiedades del condado, antes del 1 de marzo, una carta oficial del Departamento de Asuntos de los Veteranos de los Estados Unidos que indique el porcentaje de discapacidad relacionada con el servicio del veterano como relacionado con el combate y una copia de la baja honorable del veterano. Si el tasador inmobiliario rechaza la solicitud de descuento, el tasador debe notificarle al solicitante por escrito los motivos del rechazo y el veterano podrá volver a realizar la solicitud. El Poder Legislativo podrá, de conformidad con la ley general, desistir del requerimiento anual de solicitudes en los años posteriores.
(2) Si un veterano que recibe el descuento descrito en el párrrafo (1) antecede a su cónyuge, y si, al fallecer el veterano, el cónyuge sobreviviente posee el título legal o beneficioso de la propiedad constituida como bien de familia y reside permanentemente en ella, el descuento se transfiere al cónyuge sobreviviente hasta que él o ella se vuelva a casar, venda o de otra manera disponga de la propiedad. Si el cónyuge sobreviviente vende o de otra manera dispone de la propiedad, un descuento que no exceda el monto en dólares otorgado por la lista de impuestos ad valorem más reciente puede transferirse a la nueva propiedad constituida como bien de familia del cónyuge sobreviviente, si se utiliza como su residencia permanente y él o ella no se ha vuelto a casar.
(3) Este inciso tiene efecto inmediato y no necesita legislación de implementación.
(f) De conformidad con la ley general y con sujeción a las condiciones y limitaciones que se especifican en la misma, el Poder Legislativo podrá entregarle una desgravación fiscal ad valorem equivalente al monto total o una parte del impuesto ad valorem que se adeude sobre la vivienda constituida como bien de familia a:
(1) El cónyuge sobreviviente de un veterano que haya muerto durante su servicio activo en calidad de miembro de las Fuerzas Armadas de los Estados Unidos.
(2) El cónyuge sobreviviente de un primer interviniente que haya muerto en acto de servicio.
(3) Un primer interviniente que se encuentre completa y permanentemente discapacitado a causa de una lesión o lesiones que haya sufrido en acto de servicio. La conexión causal entre una discapacidad y el acto de servicio no debe presumirse, sino que determinarse según lo dispone la ley general. Para efectos de este apartado, el término "discapacidad" no incluye una afección crónica o enfermedad crónica, a menos que la lesión que se haya sufrido en acto de servicio hubiera sido la única causa de la afección crónica y la enfermedad crónica. Según se usa en este inciso y según lo defina más extensamente la ley general, el término "primer interviniente" hace referencia una autoridad encargada de hacer cumplir la ley, un oficial correccional, un bombero, un técnico médico de emergencia o un paramédico, y el término "en servicio activo" significa que surge a raíz del desempeño real del servicio que sea necesario en virtud del trabajo como primer interviniente.

Artículo XII, ANEXO
Descuento fiscal ad valorem para cónyuges de ciertos veteranos fallecidos que tenían discapacidades permanentes. La enmienda a la Sección 6 del Artículo VII, relacionada con el descuento fiscal ad valorem para cónyuges de ciertos veteranos fallecidos que tenían discapacidades permanentes relacionadas con el combate y este artículo entrarán en vigor el 1 de enero de 2021.

HEALTH CARE

New emergency center expands options for patients in community

Last weekend, Bayfront Health Seven Rivers hospital opened a new freestanding emergency treatment center near Citrus Hills, increasing competition in this rapidly-growing area and offering additional emergency health options for residents.

The new $12.3 million facility with 12 examination rooms, ER physicians on site all the time and round-the clock lab and imaging services, will function as a department of the hospital, which is located on U.S. 19 north of Crystal River.

THE ISSUE:
Bayfront Seven Rivers opens new emergency department in Citrus Hills.

OUR OPINION:
An expansion of service in the center of the county.

The new facility will provide the same level of care as an emergency room located within a hospital, which may mean a shorter trip to an emergency room for residents in the middle of the county. Freestanding emergency rooms also typically have lower waiting times than emergency rooms located in hospitals.

It will also likely act as a source of new hospital inpatients for Bayfront Health Seven Rivers, since according to a study by the American College of Emergency Physicians, hospital emergency room visits lead to the admission of about 70% of the total patients admitted to hospitals. At Citrus Memorial Hospital, emergency room visits account for about 80% of the hospital's inpatient population.

This new emergency department in the middle of the county changes the hospital competitive situation in the county, since it is positioned in the fastest-growing portion of the county where many patients go to Citrus Memorial instead of to Bayfront Seven Rivers.

It should be clear that this new facility is an emergency department, not an urgent care facility. It has the staff and equipment set up to provide a higher level of treatment than the typical doctor's office or urgent care facility. Urgent care facilities are essentially doctor's offices with space for treatment, while this facility has staffing and equipment to offer the same services as an emergency room located inside a hospital.

This new facility offers additional services to residents in the middle of the county and expands the footprint of Bayfront Seven Rivers. In addition to offering additional medical service to county residents, by adding a competitor to the two existing hospital emergency rooms it can lead to improved service and reduced wait times at the other emergency rooms.

This Sound Off's about Alex (Williams' guest column Sunday, Aug. 16, 2020 on the Commentary Section B front page, titled), "Take a walk with me." Racism and being a racist is not limited to one race. Racism is also a form of hate. America has laws to protect people from racism hate, but the laws do not completely stop racism. Everyone makes choices. With the help of Alex's parents and other mentors, Alex is making good choices. Education starts at home with a parent or parents. Without this start, the road gets rougher, and without mentoring, it gets nearly impossible. The doors are open. Many have gone on without much help to fulfill their dreams. Their struggles are documented and can be seen by the way they live. The evil side of race relations is when racism is used for monetary and political gain or hateful revenge. Thanks, Alex, for sharing your walk. No one should be a victim of racism or hate.

Who's getting the money?

Would the paper please make a complete — and let me repeat that — complete list of who in our county got some of the $2 million CARES Act money that was given out by the government? We list everything else once in awhile. There's no reason why we can't list and find out who got that money. It sure would be nice.

Smith right to point out problem

To place the departure of Joanna Coutu on the back of Jimmie T. Smith is absurd. If Ms. Coutu was unable to weather criticism, maybe it is best she leaves. Let's be honest here, it is quite well known the county development group is slow to act and relishes in putting obstacles in a business plan. Smith was right in pointing this out. But from the Chronicle's perspective, it was "disgraceful."

We need performers who will do everything and anything to get this county moving. Coutu exemplifies the business unfriendly attitude we are so tired of in Citrus County. Let Marion County deal with her.

Thanks for supporting me

I would like to thank all those that recently voted for me for school board. Your words of encouragement kept me focused and were very much appreciated.

The experience was every bit as exhilarating as I had imagined. While campaigning, I met so many wonderful people in our county that truly understood the sacrifices that our elected officials carry to represent the taxpayers. I garnered close to 20% of the vote, but I view that as a victory for a rookie candidate. My mentors have told me when you fail, you fail forward. I have learned much with this endeavor. In an effort to be ready on day one, I did much research in the operations of our school system, its budget, data and priorities.

It is my hope that my ideas for innovation that resonated with so many of you, will not fall on deaf ears. Our students deserve the best, taught by the best. Regards to Ginger Bryant and Danielle Doty as they continue on in the school board race.

Rick Scott works for us, unlike Rubio

Recently U.S. Sen. Rick Scott stepped up and objected to Sen. Mike Lee's attempt to restart green cards for foreign workers, even while Americans are experiencing record unemployment. Lee tried to sneak the package through using unanimous consent, meaning if no one objected it passed. Mr. Scott objected, and we owe him our thanks for trying to help citizens to return to the workforce, when it is apparent Sen. Marco Rubio and others couldn't care less.

It has come to my attention the main Indian lobby is targeting Mr. Scott because they want more green cards for their workers, even though our countrymen have suffered devastating job losses.

You can help. Please email the lobbyists at immigrationvoice.org, or mail them at 1177 Branham Lane, San Jose, CA 95118. Let them know now is not the time to expand foreign worker programs in the United States.

It is time to speak up for our citizens and let Mr. Scott know we appreciate his efforts on our behalf.

Where are the candidates of color?

Of all the major candidates for Citrus County running this year, I see not one black person and not one Latino person listed. I see not one Democrat listed. Do black lives not matter in Citrus County? Does that mean all the Republican candidates are going to vote for Trump again after all his proven lies and confirmed ineptness he has shown in office? Seems rather biased and ignorant to me.

Hot Corner: COVID PRECAUTIONS

■ My comments about masks and the virus: I read the newspapers, watch television and listen to the radio. And each day, I keep hearing the same thing over and over. There were so many people being tested positive, so many people in the hospital and so many that have died. These reports give the same information each day. But I wonder why there are never any reports about if the people testing positive are practicing social distancing, washing hands more often, avoiding large crowds and staying home more often and, especially, were they faithfully wearing a mask? Why don't they tell us this fact to get a more positive answer whether the mask is really helping or just a guess? As of this day, there are more people wearing masks than there were before and there are more people testing positive than before the big push to wearing masks. Even the experts, like doctors, are not all agreeing that the mask is protection from the virus. Just tell us how many people that were wearing a mask are testing positive in the everyday reports.

■ I'm responding to (the Monday, Aug. 10, 2020) "Hot Corner: Coronavirus" where the person says, "No guts" in our county commissioners and that 58 new people tested positive and our commissioners are doing nothing about it. Really, 58 people out of how many thousands and thousands in Citrus County? That's not a very large number. Quit blaming the commissioners for not putting masks on just because that's what you want. That's not their right to tell you to wear a mask or not. It either comes from the governor or you don't wear one at all. Even if the governor said to wear a mask, people are not going to wear masks if they don't want to. So just get over it.

■ We have found one place in all of Citrus County in which all the CDC recommendations are followed and that is Sarah's Diner at the corner of (U.S.) 19 and (State Road) 44. They have strict 6-feet spacing, they demand only 50% occupancy and all the servers wear masks, all the cashiers wear masks, all the kitchen employees wear masks. Congratulations to them for being so careful of their customers.

■ I think the Chronicle should start publishing a list of the restaurants that are doing everything they can do to follow the CDC guidelines — mask wearing, social distancing, sanitary procedures. Breakfast Station in Beverly Hills, Sarah's in Crystal River, Biscuit Barn in Crystal River — all of those restaurants require masks to be worn by their help. It's important that people know which restaurants we could go to.

■ I'm calling about everybody complaining about the masks. I'm one of those that don't wear a mask because I have a hard time breathing. But if I go in a store and someone in the aisle or wherever is wearing a mask, I will not get near them. I stay away from them because I figure they are the ones that are very fearful. I don't stay on top of them. So people need to quit (complaining) about people not wearing a mask. Most people not wearing masks are smart enough to stay away from the people that are wearing the masks, because I know I am. I try to stay away from them. I don't go down the same aisle with them. If they're in the aisle, I wait 'til they've left the aisle. So this is just a suggestion. Either that or they need to have certain times of the day that people can go in the stores and strictly everybody in there can wear a mask and then those of us who have a hard time breathing can have a different time to go.

■ This is to all the flag-wavers out there saying how much they love America and then demand their rights to not wear a mask: It's so sad you don't love Americans as much as you proclaim your love for America.

Police: Man punched in the chest over social distancing

DAYTONA BEACH SHORES — A 75-year-old man who recently had heart surgery was punched in the chest and knocked to the ground after asking a woman to maintain social distancing in a Florida grocery store, police said.

The incident began Sunday evening as the man was checking out at a Publix store, Daytona Beach Shores police Capt. Mike Fowler said.

A woman cut in close behind him, and he asked her to follow the markings on the floor that noted the proper distance between customers, The Daytona Beach News-Journal reported.

According to a police report, a younger man who was with the woman but in a different check-out line, met the woman and left the store with her.

The older man had also left the store and was putting his groceries into his vehicle when another vehicle drove up and stopped, Fowler said. The man who was with the woman got out and hit him.

The victim told police that the man called him a name and accused him of holding up the line inside the store.

"He punches him and he falls to the ground and hits his head," Fowler said, adding that the attacker then stood over the man and threatened to kill him.

Police said the man and woman left in a late-model Cadillac. Investigators are searching for the pair.

Police officer's wife dies after getting locked in SUV

MIAMI SHORES — A Florida police officer's wife died after becoming trapped in the back of his patrol vehicle for several hours during a hot afternoon, police said Monday.

Investigators are treating the death of Clara Paulino, 56, as an accident, the Miami Herald reported.

Aristides Paulino, 58, who works for the city of Miami, was asleep in the couple's Miami Shores home Friday afternoon after finishing a midnight shift, the Herald reported. Clara Paulino had climbed into the backseat of his marked SUV to find something when the doors somehow closed, and a self-locking mechanism engaged, officials said.

Temperatures reached over 90 degrees Fahrenhei as Paulino spent about four hours stuck inside the SUV until her family discovered her body, police. Investigators did not immediately say what Paulino had been looking for.

The SUV has a cage that separates the back seat from the front seat and has bars on the windows, Matthew Reyes, the vice president of the Miami Fraternal Order of Police, told NBC-6. He said the vehicle's doors lock and can only be opened from the outside.

Neighbor Daphne Stewart told WSVN it was not unusual to see Paulino get into her husband's police vehicle.

"I don't think anybody could imagine anything like that ever happening," Stewart said.

The case is being investigated by the Miami-Dade Police Department, which investigates all unnatural deaths in Miami Shores.

Eleven arrested at party thrown by banned fraternity

TALLAHASSEE — Eleven people were arrested Sunday in connection with a party hosted by a fraternity that was banned by Florida State University for hazing and alcohol violations earlier this year, campus police said.

Police arrested seven students affiliated with Alpha Tau Omega fraternity on charges of hosting an open house party where alcohol was served to minors, the Tallahassee Democrat reported. Four of those arrested were charged with underage possession of alcohol.

The arrests came as the university grapples with keeping students safe as they return to campus during the coronavirus pandemic.

Campus police said in a report that they saw two women leaving the party with drinks around 10:30 p.m. Sunday. Both were over 21 and told officers they'd gotten the drinks inside the fraternity house.

Police shut down the party, and noted there had been numerous large gathering other days last week.

The university found the fraternity responsible for incidents in the spring semester including hazing, physical violence or unwelcome force against a person, possession of alcohol, having alcohol or drugs present at new member activities and failure to comply.

Lawyer: Blake not likely to walk again after police shooting

KENOSHA, Wis. — The family attorney for a Black man shot by police in Kenosha, Wisconsin, said Tuesday he is paralyzed and it would "take a miracle" for him to walk again.

Attorney Ben Crump, speaking alongside family members of Jacob Blake, said the 29-year-old was in surgery after being shot on Sunday night multiple times.

Another family attorney said they would be filing a civil lawsuit against the police department over the shooting. Police have said little about what happened, other than that they were responding to a domestic dispute. The Wisconsin Department of Justice is investigating.

Hundreds of thousands flee US coast ahead of Laura

NEW ORLEANS — In the largest U.S. evacuation of the pandemic, more than half a million people were ordered to flee the Gulf Coast on Tuesday as Laura strengthened into a hurricane that forecasters said could slam Texas and Louisiana with ferocious winds, heavy flooding and the power to push seawater miles inland.

More than 385,000 residents were told to flee the Texas cities of Beaumont, Galveston and Port Arthur, and another 200,000 were ordered to leave low-lying Calcasieu Parish in southwestern Louisiana, where forecasters said as much as 13 feet of storm surge topped by waves could submerge whole communities.

The National Hurricane Center projected that Laura would draw energy from warm Gulf waters and become a Category 3 hurricane before making landfall late Wednesday or early Thursday, with winds of around 115 mph.

A first lady and a pardon

Day 2 at GOP convention

WASHINGTON — The people closest to President Donald Trump — his family — were starring on the second night of the Republican National Convention as the GOP worked to reintroduce the president to American voters in the midst of the campaign and pandemic.

First lady Melania Trump was delivering Tuesday evening's keynote address at the White House, while the president's daughter Tiffany and son Eric were to be featured, too. Trump himself played a significant role throughout the night.

The convention's planned humanizing focus on Trump's family was overshadowed at the outset by a controversy that led to one conservative activist being pulled from the program minutes before it began.

The first-term president is laboring to improve his standing in a 2020 presidential race he is currently losing. Most polls report that Democratic rival Joe Biden has a significant advantage in terms of raw support; the former vice president also leads on character issues such as trustworthiness and likability.

On Tuesday night, Trump used the trappings of his office to elevate his message: pardoning a convicted felon, featuring his chief diplomat who was on assignment in Israel, and using the White House Rose Garden for his wife's keynote address.

With Election Day just 10 weeks off and early voting beginning much sooner, Trump is under increasing pressure to reshape the contours of the campaign. But as he struggles to contain the pandemic and the related economic devastation, Republicans have yet to identify a consistent political message arguing for his reelection.

Associated Press

In this photo from Monday, Aug. 24, 2020, first lady Melania Trump speaks at an event celebrating the 100th anniversary of the 19th amendment which afforded the vote to women, at the White House in Washington. Mrs. Trump stepped into the spotlight Tuesday night, Aug. 25, 2020, to argue for a second term for her husband, President Donald Trump.

There was little mention of the pandemic through the first hour of the program, although it remains a dominant issue for voters this fall.

The COVID-19 death toll surged past 178,000 on Tuesday, by far the highest in the world, and there is no sign of slowing. The nation's unemployment rate still exceeds 10%, which is higher than it ever was during the Great Recession. And more than 100,000 businesses are feared closed forever.

At the same time, the White House seems to have abandoned efforts to negotiate another federal rescue package with Congress.

In a show of compassion, before Tuesday's program began Trump pardoned bank robber Jon Ponder, a Black man who has founded an organization that helps prisoners reintegrate into society.

"We live in a nation of second chances," Ponder said, standing alongside Trump.

Mary Ann Mendoza, an Arizona woman whose son, a police officer, was killed in 2014 in a car accident involving an immigrant in the country illegally, was pulled from the program minutes before the event began. She had directed her Twitter followers to a series of anti-Semitic, conspiratorial messages.

New virus cases decline in the US

CARLA K. JOHNSON AND ADAM GELLER
Associated Press

NEW YORK — The number of Americans newly diagnosed with the coronavirus is falling — a development experts say most likely reflects more mask-wearing but also insufficient testing — even as the disease continues to claim nearly 1,000 lives in the U.S. each day.

About 43,000 new cases are being reported daily across the country, down 21% from early August, according to data compiled by Johns Hopkins University. While the U.S., India and Brazil still have the highest numbers of new cases in the world, the downward trend is encouraging.

"It's profoundly hopeful news," said Dr. Monica Gandhi, an infectious-diseases expert at the University of California, San Francisco, who credits the American public's growing understanding of how the virus spreads, more mask-wearing and, possibly, an increasing level of immunity.

"Hopefully all those factors are coming into play to get this virus under control in this country that's really been battered by the pandemic," she said.

But insufficient testing is probably concealing the full extent of the crisis, said Dr. Jonathan Quick, who leads the pandemic response for the Rockefeller Foundation, which has recommended the U.S. test 4 million people a day by fall.

"We're grossly under-testing in some of the places that are still having high caseloads," Quick said, singling out Mississippi, Texas, Georgia and North Dakota as hot spots with high rates of positive test results.

Even at 43,000 new cases per day, the U.S. remains far above the numbers seen during the spring, when new daily cases peaked at about 34,000, he said.

"It's a good trend, but nowhere near what we need to be," Quick said of the recent decline.

The virus is blamed for more than 5.7 million confirmed infections and about 178,000 deaths in the U.S. Worldwide, the death toll is put at more than 810,000, with about 23.7 million cases.

Jeffrey Shaman, a public health expert at Columbia University, said he is skeptical enough people are immune to significantly slow the spread. But he agreed that changes in Americans' behavior could well be making a difference, recalling the impact that people's actions had in containing Ebola in West Africa several years ago.

"Ebola stopped for reasons we didn't anticipate at the time. It was so horrifying that people stopped touching each other," Shaman said. Something similar may be happening with the coronavirus, he said.

"I know I don't have nearly the number of contacts that I used to," Shaman said. "But if we relax that, if we get complacent, will we just see another outbreak?"

The decline in newly reported cases in the U.S. comes even as deaths from the virus remain alarmingly high. Over the past two weeks, officials have reported an average of 965 deaths a day from COVID-19, down from 1,051 a day in early August.

Pompeo in Sudan visit pushes normalizing ties with Israel

CAIRO — U.S. Secretary of State Mike Pompeo visited Sudan on Tuesday to push for normalizing ties with Israel, building on momentum from the recent historic agreement to establish relations between Israel and the United Arab Emirates.

The Sudanese transitional government said, however, that it does not have a mandate to establish diplomatic ties with Israel. It called on the Trump administration to not make the removal of Sudan from a U.S. list of state sponsors of terrorism contingent upon normalizing relations with Israel.

Swiss team claims 1st jump, free fall from solar plane

BERLIN — A Swiss team working to take a solar-powered plane to the edge of space says it has performed the first jump and free fall from an electric aircraft.

The SolarStratos team said its experimental plane took off from an airfield in western Switzerland with two people on board early Tuesday and climbed to 5,000 feet before its founder, Raphaël Domjan, jumped out of the aircraft.

It said Domjan remained in free fall for several hundred meters, reaching speeds of over 93 mph before releasing his parachute and landing safely.

The team's goal is to eventually fly the single-propeller aircraft studded with 237 square feet of solar panels into the stratosphere.

Use music to soothe the soul

Well, hello again! I'm still thinking and thinking about the children going back to school practicing social distancing, wearing their masks and using hand sanitizer.

I began to wander back in time again and how it used to be at school with our family and friends, and how much we took for granted that it would always be that way. Did we appreciate those days? Did we? Were we grateful for our teachers, our family and friends?

We could give hugs when we greeted our friends. We could dance the night away as the jukebox played. I remember the songs that touched my heart. One favorite was Eddie Fisher singing, "Whenever you are worried and you can't sleep, just count your blessings instead of sheep and you'll fall asleep counting your blessings."

There were nonsensical songs too in those happy days: "Jeremiah was a Bullfrog," "Purple People Eater," Chubby Checker and "The Twist," and Patti Page singing, "How Much is That Doggie in the Window." "Cruising Down the River on a Sunday Afternoon" was one of my favorites.

They say that music is a universal language. Wouldn't it be wonderful if people truly listened to the words of music and took them from their head into their heart during these times and began to be appreciative and thankful?

Yes, yes, we will still have our memories. I remember as a child, way before television, listening to classic children's stories read to us on the radio on Saturday mornings. I recall that the program was sponsored by Cream of Wheat Cereal Company. We heard 'Jack and the Beanstalk," "Cinderella," and mysteries. Remember "The Shadow Knows," and "The Fat Man" detective stories, a forerunner of "Dragnet" later. Remember, 'Just the facts, ma'am."

On my one-mile daily morning walk, I head out with my Walkman cassette player and listen to the songs of yesteryear: "The White Cliffs of Dover," "Give Me Five Minutes More," with Tex Beneke; "Serenade of Blue" with Glen Miller; Dinah Shore singing "You'd Be So Nice To Come Home To"; "Dancing in the Dark," with Artie Shaw; and my all-time favorite, "My Buddy," with that "swing and sway" Sammy Kaye Band.

Yes, music does soothe the soul in these continuing trying days for all of us. Memories and music — something to cherish and appreciate.

Until next time, be safe, be kind and feel blessed to be a blessing.

P.S. I'll always be grateful for John Bowman, who passed away Aug. 13. He was an amazing journalist with the Chronicle in the '80s. He was the one who invited me to become a member of the Chronicle family and my columns had their beginning.

Thanks to John and the Chronicle for the wonderful opportunity to share in my columns the joy of volunteering.

'Healthcare Hero' garden angel blesses ailing nursing home resident

Special to the Chronicle

Saturday mornings are generally spent with family, doing housework, or catching up on favorite TV shows, but this health care hero decided to come to Avante at Inverness and bless one of the residents who has taken care of a flower garden for the past two years.

Kimberly Rigalo, account executive of Mederi Caretenders, came in on a Saturday and completed a huge project, cleaning up the unkempt garden that Avante resident Daniel Jaimeson has been unable to work on due to illness.

"When I heard how important this garden was to Mr. Jaimeson and how it's been weighing on him that he hasn't been able to take care of it like he used to be able to, I felt the need to put my gardening gloves on and get to work," Rigalo said.

Rigalo was recently named the Chronicle's 2020 Healthcare Heroes Readers' Choice winner.

"With so much bad news coming from nursing homes, it's important to tell about the good things that are happening," said Georgette Bass, Avante at Inverness activities director. "She didn't tell anyone she was going to do this, she just did it, just to bring a little sunshine to one of our residents. To me, that's a healthcare hero."

Special to the Chronicle

On a recent Saturday, Kimberly Rigalo, account executive of Mederi Caretenders and the Chronicle's 2020 Healthcare Heroes Readers' Choice winner, quietly volunteered her time and gardening skills to care for a flower garden at Avante in Inverness nursing facility. The garden is normally tended by a resident who has been ill and unable to do it.

Historic Duval-Metz House kitchen restoration underway

Special to the Chronicle

When the Floral City Heritage Museum opens again to the public, guests will see an extensive exhibit about Citrus County's oldest home, the Duval-Metz House. It is located across Old Floral City Road from the museum and is undergoing restoration of the kitchen. Other exhibit panels tell the story of the home's construction, the lives of those who lived there and of the restoration that began in 2012.

This kerosene stove was used in the Historic Duval-Metz House well after electricity came to Floral City in 1913. It is featured in the kitchen exhibit panel of the current Rotating Exhibit Gallery at the Floral City Heritage Hall Museum. The kitchen of the house is one of the final steps of the restoration being accomplished at this time. Neither the house nor the museum are open currently to the public.

Pandemic speeds up repair of oldest house in Citrus County

FLORAL CITY HERITAGE COUNCIL

Due to the pandemic, the Floral City Heritage Council will not be gathering in person at this time. Floral City Heritage Hall Museum is not open for visitors.

Meanwhile, members of the council are carrying out the council's pledge to support the restoration of the Historic Duval-Metz House located across the street from the Heritage Museum. The last room to be restored is the kitchen. The kitchen was originally a separate building, as was common practice to reduce risks of catching the house on fire from wood-burning stoves. During the last century, the kitchen building was lifted from its original foundation and attached directly to the house.

The inside walls and ceiling of the Duval-Metz House kitchen have been removed, in readiness for the installation of new electric lines. The ceiling removal revealed the darkened wood from years and years of the wood-burning stove's smoke. The layout of the interior has been designed with windows placed in the south wall location as documented in early photographs. A brick facade on the west porch has been removed and is ready for the application of siding that matches the main house exterior and the original kitchen building. Flooring, lighting, and wall paint will be appropriate for the period.

The completed kitchen will be equipped to host catered events while maintaining the arrangement of an early 20th century kitchen. The final design includes a porcelain sink and drainboard, wood-burning cook stove, wooden icebox, and a Hoosier Cabinet.

Republicans Look Ahead

photo courtesy White House

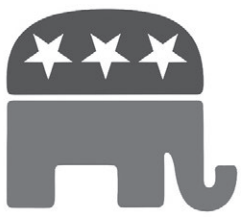
Mini Fact:
Groups of delegates from a state or territory are called a **delegation**.

Did you watch any of the Democratic National Convention last week? This week, Republicans are gathering in Charlotte, North Carolina, from Aug. 21-24. A planned celebration in Jacksonville, Florida, was canceled in late July because of concerns about COVID-19.

Let's learn more about the Republicans' plans.

Coming together

A **political party** (a group of people who have similar ideas about how our country should be run) holds a national meeting, called a **convention**, before a presidential election. At that meeting, representatives from each state, called **delegates**, announce which **candidate** they have chosen to run for president.



The elephant is the symbol of the Republican Party.

The candidate also may announce his or her choice for a **running mate**, who would become vice president if they are elected.

At the convention, members of the party also discuss the party's **platform**, or its ideas and goals about different issues facing the country.

The Republicans plan to hold party meetings and formally nominate President Donald J. Trump in Charlotte. Much of the party's business and activities may happen online, including events to celebrate President Trump's nomination.

Who's running?

President Trump is running for a second term as the leader of our country. Vice President Mike Pence is his running mate.

When a president competes for a second term, he is called an **incumbent**. According to the U.S. Constitution, presidents can serve for only two terms of four years each. If President Trump should win a second term, it will be his last as president.

About Charlotte

Charlotte is home to about 1 million people. It's the largest city in North Carolina.

Before settlement by Europeans, members of the Catawba tribe lived in the area. The city is nicknamed the Queen City after a German princess, Charlotte of Mecklenburg-Strelitz.

Many banks are headquartered in Charlotte, along with other large companies and NASCAR.

Republican roots

In 1854, the modern Republican Party was founded in the northern states by people who were against slavery. (The Democratic Party was formed in the early 1830s.)

The first Republican convention was held in Philadelphia in June 1856. About 600 delegates attended the meeting, and about 100 newspaper reporters covered the events there.

The party nominated John C. Fremont, a U.S. senator from California, for president.

Eco Note

More than 2 million wildebeest cross from Tanzania's Serengeti National Park to Kenya's Maasai Mara Game Reserve each year at this time. But this year, rangers set fire to some of the overgrown grasslands in their path to help with pasture regeneration. The smoke and fires have spooked the wildebeest, causing them to stop short of the Sand River, along the Kenya and Tanzania border.

PHILLIP ALDER
Newspaper Enterprise Assn.

This deal from the 1991 European Championships featured a defensive play that would have been overlooked by the vast majority of players.

In the auction, North made an aggressive jump to three no-trump.

West led a fourth-highest spade three; but I think it would have been better to lead the six, second-highest from a weak suit when the top two cards are not touching. East won with his ace and returned the spade 10.

If declarer could have peeked at West's hand, he would have played a heart to the ace and a heart to the nine, but he preferred to attack diamonds, leading a low one from his hand.

Against most defenders, this would have worked fine. East would have won the trick with the 10 and played his last spade to dummy's jack. Now a low diamond from the dummy would have allowed South to execute an avoidance play. If East played the jack, declarer would have won with his ace and led another diamond. Or if East put up his king, declarer would have played low. Either way, South would have established two more tricks in the suit and kept West off the lead.

However, Jan Nicolaisen from Denmark ruined declarer's plan: He won the third trick with his diamond king, before returning his last spade. After this defense, West had to gain the lead in either red suit and cash two spade tricks to defeat the contract.

Nicolaisen's play couldn't cost, because if declarer had the diamond ace-queen, he could have always finessed East out of his king on the next round of the suit.

Annie offers advice

Dear Annie: I am 68 years old and have been married to my husband for 44 years, and we have two children and three grandchildren. Our son has the three grandchildren, and he is close to the final decree of divorce from his wife of 13 years.

I have always tried to allow our children to live their lives. Our daughter is married and has a very successful career. Our son is successful in the music industry.

DEAR ANNIE

I knew there was trouble when I first met the woman who is our soon-to-be ex-daughter-in-law. The problem I saw at the time was the mother. I got a bad vibe from some of the comments she made the first time I met her but brushed it off as nervousness around new people. Fast-forward to a year later, when our son and daughter-in-law decided it was time to look for a house. She and her mother looked for houses and settled on one just eight minutes apart.

As time went on, it became evident that the mom was way too involved in the marriage and their home life. If there was any conflict or problem to work out, our daughter-in-law would run over to Mom's and spend the day.

Eventually, the situation proved too much for my son. His wife became controlling like her mother and would not allow him much interaction with the kids. He could not take it anymore, and to emphasize the point and try to impress upon her how serious the situation was, he left and got an apartment. They spent a year in counseling, ending with the therapist telling them they needed to separate. The wife said, "I just want him gone."

So now the divorce is happening.

The child visitation schedule was agreed upon in January. The situation has been a nightmare ever since. Our son shows up at the designated time and place to pick up the kids for his parenting time, and she refuses to allow them out of the house. She and her mother are there and make derogatory comments about our son in front of the children.

Our son has been recording the interactions, and I have listened to them and am heartbroken as to what is being said in front of the children. They are 12, 10 and 8 years old. Our son's lawyer just wants to keep things peaceful and avoids filing a contempt of court order even though the mom is in complete contempt of court. I have tried to be supportive of my son, but it is difficult to watch this.

The final straw was yesterday, our son's birthday, when he was supposed to have the kids from 9 a.m. to 9 p.m. However, he was willing to spend less time to be accommodating. He was going to pick them up and take them to a park for a picnic lunch for just a couple of hours. No go.

What should I do? I am very stressed about the welfare of the kids and knowing how the mom and her mother are discouraging the father-child relationship.
— **Stressed-out Grandma**

Dear Stressed-out Grandma: I am so sorry you have to witness this. It is so hard to see your son in pain and your grandchildren hurting. The father-child relationship is as important as the mother-child relationship, and it is a shame she is taking out her frustration with your son on your grandchildren. She does sound like a narcissist and very immature, and her mother sounds even worse. Sadly, there isn't much you can do except support your son and encourage him to maybe get a new lawyer.

The kids are getting to an age where they will have opinions of their own. If they find out that their mother was keeping them from their father, they will have a lot of resentment toward her. Once they turn 18, my guess is they will turn back to your son. But let's hope a good attorney can help your son and grandchildren now. The attorney should also be fighting for you and your husband to be able to spend time with your grandchildren. Best of luck.
