

Transcript, CFV Victory Fund robocall with Republican Rep. Stephen Humphrey, R-Ault.

Hi. This is state representative Steve Humphrey. I am concerned about the race for House District 27. Family values are important to me and Representative Brianna Titone's policies make me deeply concerned about protecting my family.

Representative Titone is a transsexual state representative who wants to force a radical sexual agenda on every Coloradan. Titone supports policies that force your wives and daughters to share bathrooms with biological men who identify as female. Titone also supports taxpayer-funded sex change treatments for children, even before puberty.

Titone is just too dangerous for Colorado families.
