**First 100% off Grid vineyard and winery in the northwest  
You will see NO power lines in our valley.**

We set out to develop a 100% solar with generator backup, farm and vineyard. After lots of investigation, we have developed an all solar irrigation system with the use of gravity and solar. The buildings are also 100% solar, and the only time the generators are used is when 3-phase power is needed.

### **Working Farm - Thriving Vineyard**

Our family-owned, 500-acre farm and vineyard is a testament to our commitment to sustainable, solar-powered practices and nurturing the vibrant wildlife that thrives in our private valley. As purveyors of fine wines and grass-fed livestock, we embrace our farm-to-table philosophy and strive to cultivate a harmonious relationship with the land.

Our mission is to share the fruits of our labor with you, offering the finest wines Oregon has to offer while preserving the environment for future generations to enjoy. Join us at ShadowBuck Winery and experience the essence of our thriving farm and vineyard.

### **Our Wines**

Welcome to the ShadowBuck Winery, where every sip tells a story of Oregon's lush vineyards and our commitment to excellence. Our wines page is your gateway to a world of flavor and craftsmanship. From our signature Pinot Noir, with its elegant notes of cherry and spice, to our crisp Chardonnay, bursting with citrus and oak undertones, each bottle is a testament to our passion for winemaking.
