Associate Director

Message from our leadership

WAGAP launched our Whole Family Approach journey in 2024, joining a national movement to better serve caregivers and children together. This two-year initiative is transforming the way we work—strengthening our internal systems so we can more efficiently and effectively support families on their path to social and economic mobility. Guided by the voices of our community, we are committed to continuous growth and innovation, building programs that truly reflect what families need and ask for.

2024 highlights include:

- Establishing a Civic Engagement department dedicated to empowering community members to drive local and regional change.
- Opening Stevenson's Family Resource Center with skill-building and supportive services for caregivers and children.
- Improving outcomes for those in emergency shelter by extending their time, increasing case management supports, and focusing on successful and sustained transition to permanent housing options.

Jennifer Pauletto,
2024 Executive Director
