A COMPLIMENTARY PUBLICATION OF THE WHITE SALMON ENTERPRISE, THE DALLES CHRONICLE AND THE HOOD RIVER NEWS

Thanks for being great neighbors.

Your gifts strengthen all of us.

Like you, we're blessed to live and work in the beautiful Columbia Gorge. And like you, we support people, programs and projects that work to make life better here.

Along the way we make friends, think collaboratively, work through challenges and celebrate together when we help local people be healthier, stronger, safer and happier.

We love working with our neighbors and creating healthier communities, together.

End your year with a warm heart when you make a charitable contribution to your favorite organization. Your gift will make us all stronger.

HOOD RIVER 4-H

– PROGRAM OVERVIEW –

The 4-H Program empowers kids with the skills they need for life through positive youth development experiences, engaging their head, heart, hands, and health. Youth are taught using hands-on and integrated approaches that help them connect knowledge, skills, subjects, and resources for practical applications in the real world. 4-H also helps youth build healthy relationships with themselves, their peers, and multiple generations of diverse mentors from across Hood River County.

From afterschool clubs and workshops to community service projects and day camps, youth are offered a wide range of learning experiences in positive environments. 4-H learning is unique because youth are provided the opportunity to develop their own pathway to learning and leadership. Youth identify their own interests and passions, while adult mentors help them design their path from a breath of topics such as healthy living, sciences, creative arts, community food systems, animal stewardship, and much more. Adult mentors enhance learning experiences with skills that are critical for youth well-being and success, as well as their community's future, including:

- » Resiliency
- » Citizenship
- » Leadership
- » Career-building Skills
- » Life-skills & Healthy Living

– GIVING OPPORTUNITIES –

Volunteering

Cash Donations

4-H is an OSU Extension Service program and funded by your property tax dollars in combination with support from state and federal funds, grants, donations and fees. All donations – large and small – are vital to strengthening the 4-H program. All Community Partners are greatly valued in the many ways they provide support. Cash donations go to the 4-H Association for specific workshops, youth camp and college scholarships, and program equipment as well as materials.

MID-COLUMBIA SENIOR CENTER

– PROGRAM OVERVIEW –

The Mid-Columbia Senior Center is a 501(c)3 nonprofit that has been operating at its current location on the corner of 10th and Cherry Heights since 1987. We are a self-governing, community-based organization that recognizes the assets and strengths of older adults and offers opportunities and supports to live healthy and meaningful lives. The activities at the Center are open to anyone and most activities are offered on a donation basis to ensure no one is denied services because of income.

The Center leases space to and works closely with Meals-on-Wheels, another local non-profit, which offers a delicious and nutritious dinner at noon, Monday through Friday, as well as delivering meals to those who find it difficult to prepare their own meals. For more information about Meals-on-Wheels you can call them at 541-298-8333.

Knowing that it takes a whole community to support all older adults, the Center has partnered with local agencies including the Area Agency on Aging, Aging and People with Disabilities, The Dalles Art Center, MCMC and Mid-Columbia Community Action Program.

The Center operates on a shoe string budget, \$122,000, and depends on the generous support of the community. It receives very little from government (less than 1%) with the majority of its revenue coming from bingo, memberships, Nu-2-U Shop, rent and the many small and large donations.

COLUMBIA GORGE DYSLEXIA

– PROGRAM OVERVIEW –

We envision a community where dyslexic children thrive in and outside the classroom.

By giving parents and educators proper training in dyslexia they will be empowered to discern dyslexia warning signs and use appropriate accommodation that can change the life of dyslexic children.

We understand that our current education model is burdened and not yet capable of utilizing evidence and research-based remediation programs specific for students who show signs of dyslexia. CGDF hopes to lighten the financial load by providing resources for early screening, teacher training, access to appropriate assistive technologies and tutoring scholarships. We believe the Columbia River Gorge can be a shining example of a community that nourishes its children to reach their greatest potential.

Dyslexia is a language-based learning difference. It refers to a cluster of symptoms that result in difficulties with specific language skills, especially word decoding, reading comprehension and or reading fluency. Dyslexia can be mild or severe.

Dyslexia affects the brain. Specifically, it affects the part of the brain where the sounds are put together to form words and where words are broken down into sounds.

Learning Differences are not related to IQ. They do not affect how INTELLIGENT a person is.

MISSION & VISION

The WSVEF is a 501 C3 dedicated to enhancing the quality of public education within our community by creating a stable source of supplemental funding for curriculum enhancement, modernization and innovation in our schools, and investment in our teachers.

At least 25% of every donation goes to the WSVEF's endowment fund, which will allow for continued grant funding and support of our schools into the future.

Sponsored by

WHITE SALMON VALLEY EDUCATION FOUNDATION

– PROGRAM OVERVIEW –

Our schools are our priority. We've supplied more \$3.6 million dollars to over 150 programs in our school district since 2006.

DIRECT GIVING:

Each year the WSVEF distributes at least \$40,000 in grants from community-raised funds to White Salmon's school and teachers. The grants have provided important enhancements, tools and trainings across all subject areas and grades.

GRANT WRITING:

We've accessed more than \$2.9 Million in grant funds, generating a 50-to-1 return on investment for our external grant writing efforts on behalf of the District. Grants we have written for our schools have provided after school programs, technological equipment, professional development, field trips, outdoor schools, robotics, musical instruments, and much more.

COLLEGE AND CAREER DAYS:

Over the last four years we've coordinated the College and Career Days at Columbia High School, providing our students opportunities to meet with representatives from local and regional colleges and hear from dynamic leaders and professionals in our community.

– GIVING OPPORTUNITIES –

Government budgets fall far short of covering the costs of educating and preparing today's children for tomorrow's world. It is more critical than ever that our community help students get the education they need to become productive, successful citizens. Here are a few ways you can help:

Fundraising Events

The Gorge Grape Escape, held in October each year, is our main fundraiser. It's an evening of fun and inspiration – all to benefit schools. We welcome your participation as an attendee, event underwriter or table sponsor. Please contact us to find out how you can participate.

Individual Donations

You may contribute to the WSVEF online at www.wsvef.org with a credit card, or send a check to PO Box 2231, White Salmon, WA 98672. All donations are tax-deductible to the fullest extent of the law.

Corporate Giving Opportunities

We are happy to facilitate matched donations, employee giving or payroll deductions through your company. Please contact us so we can help you benefit our schools.

Planned Giving

A planned gift is a major gift made during your lifetime, or as part of your overall estate plan. Donations of stock or securities as advised by your tax professional are also welcomed.

Volunteer

The Foundation offers many volunteer opportunities for those interested in supporting educational enrichment for our students. Whether it's serving on the board, or helping with one of our fundraisers, committees or events, we will help find the opportunity that's right for you.

MISSION & VISION

HAVEN's mission is to "provide safe and supportive services to those affected by interpersonal and sexual violence by empowering survivors and our community through advocacy, education, and prevention."

HAVEN is the only nonprofit community-based organization providing comprehensive services to victims of sexual assault, domestic violence, dating violence, stalking and trafficking in Wasco, Sherman, Gilliam, and Wheeler Counties. HAVEN also provides services to surrounding communities along the Columbia River Gorge and the Confederated Tribes of Warm Springs Reservation. The organization began in 1981 with a very small group of concerned citizens. One of the first services HAVEN offered was a 24-hour crisis-line, which continues today as vital part of our on-going safety net.

Sponsored by

HAVEN from Domestic and Sexual Violence

HAVEN FROM DOMESTIC AND SEXUAL VIOLENCE

- PROGRAM OVERVIEW -

The current configuration of services offered by HAVEN includes: 24-hour crisis line and crisis response; emergency shelter; emergency financial assistance; help filing for crime victims' compensation and protection orders; advocacy with the medical, civil, and criminal justice systems; and individual and group counseling. All of these services are provided bilingually/biculturally for Spanish speakers. In addition to direct services, HAVEN offers rape prevention education and healthy teen relationship curriculum for K-12 schools throughout our region, training for allied professionals, and informational presentations to community groups.

HAVEN uses an "empowerment approach" that places change agency with the survivors, to help them plan for safety, develop self-efficacy, and recover from abuse. This approach is grounded in the belief that victims of violence should have access to information, education, and other necessary social and economic support to make informed decisions that best reflect their interests and needs. We know that survivors are the best experts on their lives and HAVEN provides survivor-centered services that recognize and build on their inherent strengths and resiliencies. Our philosophy and our process disrupt self-blaming beliefs and encourage survivors to recognize their coping skills, their ability to adapt to difficult circumstances, their problem-solving skills, their ability to seek safety for themselves and their children, and their ability to recover from the trauma of abuse.

- GIVING OPPORTUNITIES -

Help us meet our goal of a 120 new donors to the 120 Campaign. It's easy, it's automatic, and even \$10 a month can make a major impact for survivors. We also have needs for larger repeating financial gifts or one time donations.

HELPING HANDS AGAINST VIOLENCE

– PROGRAM OVERVIEW –

What Helping Hands does:

Our advocates help survivors of sexual violence find safety.

This is one survivor's story of how an advocate can help:

It seemed like everyone in the community knew—and liked—my spouse. So many times, I heard how lucky I was to have him in my life. Not because he was well-to-do. Not because he was smart. But because he was so charming.

No one knew how desperate the children and I had become. Hidden under the veil of our beautiful house and my husband's good job, we lived in quiet terror.

It took me years. But finally I went to Helping Hands. I didn't know how they could help, but a friend said they could.

They listened.

They believed.

They told me I could be safe.

Finally, there was hope.

I knew—thanks to my advocate—I took my first step toward safety.

– GIVING OPPORTUNITIES –

- Learn to listen without judgment.
- Donate to protect survivors who are fleeing an abusive situation.

YOUTH EMPOWERMENT SHELTER

– PROGRAM OVERVIEW –

There are many factors that contribute to a youth becoming 'homeless.' Factors of economic hardship, changing family structures, substance abuse, missing or separated parents, mental health issues, values clashes, and other situations that make 'home' complicated and can trigger a situation that is too complex or fragile to manage. It doesn't really matter what the 'reason,' a youth away from their family is in a very precarious position, vulnerable to many forms of danger.

Y.E.S. is licensed by DHS as a child caring agency, and staff are trained to provide support that addresses the needs of youth in a manner that empowers them to move toward adulthood with confidence. We work closely with the network of community service agencies in our area to find strategic interventions that address the issues contributing to the homeless situations. We often see hope come alive in these youth who then develop a vision for a path forward.

Cancer Resource Centers

Help patients and families with the resources and the support they need to 24 hours a day, 365 days a year.

Patient Lodging:

Getting the best care sometimes means cancer patients must travel away from home. This can place an extra emotional and financial burden on patients and caregivers. The American Cancer Society is trying to make this situation easier through Hope Lodge and our Hotel Partners Program.

Reach to Recovery

If you have breast cancer, you may want to talk to someone who knows what you're feeling – someone who has "been there." Through our Reach To Recovery program, we can match you with a volunteer who will talk with you about coping with your breast cancer diagnosis and treatment.

Road to Recovery

Every day cancer patients need a ride to treatment, but some may not have a way to get there. The American Cancer Society Road To Recovery program provides transportation to and from treatment for people with cancer who do not have a ride or are unable to drive themselves.

Surprisingly, part of our business plan is about changing lives.

As your local gas company, we have a responsibility to provide natural gas safely and reliably. But as a member of the community, our responsibilities go far deeper. For thousands of people in need we provide assistance that helps them to have more productive lives. Our philosophy of giving stems from the understanding that when we help the individual, our community is stronger.

– PROGRAM OVERVIEW –

For many years there has been a desire to see children and teens in the Mid-Columbia reach their greatest potential through a community youth center. This facility has been designed to serve the entire community with the emphasis on children and family.

Children and teenagers alike will be able to choose from a variety of activities including sports, music, art, drama, computers, and learning life skills.

The *Gorge Youth Center* will be more than just a place to hangout but will be designed to develop youth into well rounded adults, creating opportunities to enrich every aspect of their lives;

Physically - with sports and recreation activities in the gymnasium and fieldhouse while providing healthy meals and a garden.

Intellectually - through after-school programs assisting with homework, computer and multimedia labs through the arts and leadership development and job training, along with assisting them to become goal oriented in their lives.

Emotionally - by building relationships with caring adults to mentor them through temptations or problems, and through onsite counselors.

Spiritually - through faith-based groups.

The Gorge Youth Center will provide a much-needed outlet and place for so many in our community. Your gifts connect you to the ownership and value of what we can create together. Be a part of YOUR Youth Center. Please join us and be a vested part of impacting young lives.

Today there are a large number of children and teenagers growing up in abusive or neglectful situations or in single parent homes where they are alone for several hours each week. The youth center will quite literally be the closest thing to a home and/or family a lot of these children and teens will experience during their adolescence. By significantly expanding the number of opportunities students are able to be surrounded by affirming role models pouring into them, the greater the positive impact the Gorge Youth Center will have on their lives.

– PROGRAM OVERVIEW –

We're the only Gorge-based non-profit dedicated entirely to connecting youth with the outdoors. In 2019, our supporters:

- Engaged 583 students in our SECRETS program, which is two months of weekly visits with each class as well as a full day field trip to a local natural area.
- Created after school outdoor experiences for 88 youth, encouraging creativity, mindfulness, and recreation in the outdoors.
- Sponsored three sessions of outdoor school for 182 kids in Klickitat County.
- Provided \$15,000 in scholarships for 41 students to enroll in our summer program. Watch this video <https://www.youtube.com/watch?v=nkIH9VX9s8o> on our YouTube channel – ColumbiaGorgeEcology.
- Updated our vision (top), mission (on reverse side), name (will go into effect in January), and our goals.
- Prepared to deliver two new programs next year! A non-residential outdoor school for kids that don't attend the residential one, and the other program is focused on a connection with rivers, through river travel!

We're also looking forward to 2021, which will mark 25 years of our programs connecting with youth!

DIVERSITY STUDIO

– PROGRAM OVERVIEW –

Diversity Studio was launched in 2017, founded by Toni Sheppard, a personal support worker for members of the special needs community. The program was born out of a deficit of activities available and affordable to our clientele, many of whom are on a fixed income or are reliant on state assistance.

Diversity Studio is currently divided into three classes: arts and crafts class has been the longest running and provides a variety of materials and processes for making art, including painting with water colors and acrylics, as well as pottery, usually with a seasonal flavor. These classes follow a general -outline, but artists are encouraged to experiment and follow their inspiration.

Our second class is the John Owre Memorial Garden, so named for our departed friend and artist, which recently concluded its first season providing gardening activities for our artists who can learn about growing food, as well as produce for those same artists and their families. At Diversity Studio, we believe in the importance of healthy, locally sourced foods for everyone regardless of income.

Our third class is dance, which is the most recent addition to Diversity Studio and is taught by professional dancer Nika Kermani. We believe in the power of movement for our health and happiness.

– GIVING OPPORTUNITIES –

VOLUNTEERING

Volunteers are a commodity we desperately need. Come teach a class, lend your knowledge to our artists. Not sure you want to teach or help make art? We need people who want to help us with our website, fundraising, transportation and many other things that help a nonprofit run smoothly. We are always looking for people to come and be apart of our community. Our Artists are apart of your community and once you meet them you realize how much they bring to the table!

DONATIONS

We are always in need of art supplies and money for art supplies. We are always looking for new materials and projects to give the Artists. So please if you have anything you want to donate contact us and we will let you know if we can use it!

THE BARN

Diversity is lucky enough to have a space to operate in but it needs help! We are looking for some local support to build and insulate a room in our barn to provide classes to our community in, a place where we have more control of when and what is available to us.

With this space comes so much potential growth and stability! We can have our art supplies stored safely and always available. Have a steady schedule and even hours of operation to offer to many students who maybe can't come to certain classes. There is nothing bigger on our to do list then this building, it could change the program in so many ways all for the better!

ONE COMMUNITY HEALTH

– PROGRAM OVERVIEW –

One Community Health is the Columbia River Gorge's nonprofit community and migrant health center. We provide an integrated approach to medical, dental and behavioral health care, plus offer substance use disorder treatment and health education that supports total wellness.

Families turn to us time and time again for everything from obstetrics to pediatric care, youth dental prevention and treatment programs, and our School-Based Health Center, now available to all students living in Hood River County School District. Patients come to us not just for their acute needs but to thrive through whole-person health.

We began in 1986 as La Clínica del Cariño, a clinic for migrant farmworkers and their families. Over the years, One Community Health has responded to our community's needs by expanding our mission and services. Thanks to our improved access to care and the loyalty of our talented staff, we are growing our impact and reach. In addition, we enroll and assist more people in Medicaid than any other organization in The Gorge.

Today, celebrating more than 30 years of service, we are grateful as well as proud to offer affordable, high-quality care to all people living in Hood River, Wasco, Skamania and Klickitat Counties.

– GIVING OPPORTUNITIES –

Gifts enable us to provide care for local people such as:

» Robert:* It was a scorching hot day in the Gorge when Robert showed up for his appointment—eight hours early. Homeless, skin parched from the sun, and suffering from incredible sores and pain, Robert simply hoped he might be seen sooner than his scheduled time. The team at OCH jumped into action, not just tending to his immediate medical needs but taking extra steps to restore some semblance of dignity to the patient's endangered sense of self. We sponge-bathed his body. Trimmed his beard. Cut his nails. And then, staff pulled cash from their own pockets to buy him basic clothes and food before we all said goodbye. Upon leaving our care, he thanked us, saying he felt like a human again.

» Bill: A local carpenter without health insurance, Bill hadn't seen a doctor in eight years when he decided to make an appointment for a painful sore on his nose. After receiving a diagnosis of basal cell cancer, OCH staff helped him get medical insurance and the life-saving treatment he needed.

» Natalia: School was never easy for Natalia, who had struggled with a lisp for as long as she and her parents could remember. Her classmates poked fun at her. And Natalia's teacher reprimanded her when she couldn't talk quite right. Our dental team immediately recognized her challenge: Natalia was tongue-tied. Through a simple dental procedure, OCH addressed the long-overlooked issue, instantly freeing the young girl from both her physical challenge and emotional pain. At her checkup, Natalia just smiled and smiled, happy to simply stick her tongue up to her teeth—and talk without a lisp. Her father, also all grins, told us that at last, Natalia was happy to go to school.

MISSION

Introducing adolescents to Jesus Christ and helping them grow in their faith, in the context of a caring, unconditional, adult relationship.

GOALS

Every adolescent will have a caring adult in their life who will walk through the ups and downs of life with them and give them the opportunity to meet Jesus Christ and follow Him. Our activities are open to all members of the community regardless of their religious beliefs.

COLUMBIA GORGE YOUNG LIFE

– PROGRAM OVERVIEW –

Young Life is a world-wide, world-class organization for adolescents. Our staff and volunteers enter the world of kids, focusing on what matters to them – fun, adventure, friendship and a sense of significance. In doing so, we earn the privilege of talking to them about something that we believe matters most of all – the truth about God and His love for them.

Columbia Gorge Young Life serves Hood River and several other communities in the Mid-Columbia region. We have 1 full-time paid staff member, 1 part-time office administrator, and over 30 adult volunteers and leaders reaching several hundred teenagers. We provide healthy, creative fun through weekly “club” meetings and seasonal camping opportunities/outings with leaders who make kids feel accepted.

– GIVING OPPORTUNITIES –

Young Life is a non-profit organization, funded through the donations of individuals, foundations and businesses. The overwhelming majority of funding for Young Life ministry comes from individuals who want to make a difference in the lives of kids in their communities. Many of our supporters were involved in Young Life as kids or know someone whose life has been significantly impacted by Young Life ministry.

Corporate Giving

Opportunities/Sponsorships:

Young Life has created an annual community-wide Father Daughter Dance each February to give fathers a chance to invest in their relationship with their daughters. All profits from the Father/ Daughter dance go to sending local kids to Young Life summer camp at the Washington Family Ranch in Antelope, Oregon. These funds especially help kids who wouldn't normally be able to attend summer camp or who have never previously experienced camping.

Volunteers

We are always looking for adult volunteers who want to enter the world of adolescents and establish sincere relationships with kids by meeting them on their “turf.” Through words, deeds, fun, and most importantly, through modeling trust, respect and responsibility, these adults earn the right to be heard and walk alongside teens through the issues of adolescence.

MISSION & VISION

MISSION STATEMENT

Hood River Soaring is an Oregon 501(c)(3) non-profit organization dedicated to promoting the art and science of soaring by making the sport more accessible to all including special outreach to youth

VISION/GOALS

We help young people discover their potential. You never know what you can do until you learn to fly!

Our aviation program for youth teaches new scientific and athletic skills, and offers important lessons of responsibility, mental discipline, self-confidence, and mature decision-making.

Sponsored by

HOOD RIVER SOARING

– PROGRAM OVERVIEW –

The heart of Hood River Soaring is our commitment to youth. To become a certified glider pilot is a tremendous accomplishment that fosters maturity and self-discipline. Many who begin as glider pilots advance to a career in professional aviation. Most importantly, when young people learn to fly, their self-confidence grows exponentially.

A child can begin learning to fly at any age and may earn the privilege to fly solo in a glider at the age of 14. At Hood River Soaring we accept students starting at age 13. They begin their practical lessons on the airfield assisting as ground crew under the supervision of qualified instructors. Once they prove themselves to be attentive and capable of responsible decision making, they can advance to aerial instruction.

Many young people who have the ambition to fly lack the financial resources to make it happen. Hood River Soaring was founded in 2016 and thanks to the generosity of our donors, we have already established a Youth Program that offers financial assistance through Work-Study plans and Scholarships so that our young members may realize their dreams. We are expanding our outreach to youth with growing community support.

TAKING CARE OF OUR GORGE COMMUNITIES

At Crestline Construction we believe in giving back to the communities where we do business. This is why every August we proudly sponsor Skyline Foundation's annual Skyline Scramble golf tournament. Over the last 5 years, our investment in this tournament has helped raised more than \$110,000. These proceeds have supported Skyline's Breast Health Program, the purchase of a 3D mammography machine, health care education scholarships and many other programs.

Skyline has a long history in the Gorge – caring for generations of families. Through philanthropic partnerships and support, it's able to create a lasting impact that saves lives, advances health care and positively affects the health of our region.

HOOD RIVER ADOPT A DOG

– PROGRAM OVERVIEW –

Since 2009 Hood River Adopt A Dog, a local non-profit and no kill program, has provided the care, feeding, medical treatment and adoption services for the lost, surrendered and abandoned dogs in the Gorge at the Hukari Animal Shelter in Odell, Oregon.

Our staff and volunteers work tirelessly to make this amazing work happen, providing over 9,000 hours of care each year. From our loving network of foster families, to the twice daily shelter visits from our caring volunteers along with our talented and dedicated staff, who work 365 days a year, we strive to make sure each dog leaves our program in better shape than when they arrived at the shelter.

With funds raised by Hood River Adopt A Dog, all adopted dogs are spayed/neutered, vaccinated, microchipped and, all too often, are provided urgent medical care made necessary. We rely on donations, small grants, fundraisers and minimal adoption fees to do this work. In return for their care, our dogs “pay it forward” by bringing fun and love to their new families!

Sponsored by

HABITAT FOR HUMANITY

- PROGRAM OVERVIEW -

As the Gap between wages and affordable housing continues to grow here in the Gorge, more low-income families than ever are in need of a decent place to live.

Columbia Gorge Habitat for Humanity provides home ownership opportunities to families of 25%-60% of the median household income level in Klickitat, Hood River and Wasco counties.

Partnering with the community, our volunteers build simple, decent homes for our partner families. Habitat for Humanity is not a handout program—it is a “hand up” program, helping deserving families realize their dream of home ownership and breaking the cycle of poverty.

Every family we partner with invests hundreds of hours of “sweat equity” working alongside volunteers to help build their home. When construction is complete, every family pays an affordable mortgage. Their mortgage payments are recycled back into our Habitat building fund to help build additional homes for families in need.

- GIVING OPPORTUNITIES -

Volunteer

Whether you're a student, working professional, or senior, we have rewarding volunteer positions that fit anyone's schedule. Experience is not necessary to volunteer as we provide all needed training. Projects you can help us with:

Construction - Individuals and groups are needed to build homes and help do critical home repairs which help keep families in existing homes. Construction experience is appreciated but not necessary.

ReStore - The volunteers who help us at the ReStore are as diverse as the opportunities. Join us in receiving donations, sorting and pricing materials, building displays, assisting customers, and cleaning and organizing aisles. Every day is a little different, and everything you do to help is important.

Office assistance-Help us by answering phones, assisting with special projects, designing materials, fundraising and volunteer management.

Sponsorship

We especially need sponsors to help us expand our programs. Donate to fully or partially sponsor a Habitat home or project. Sponsor all or part of an affiliate fundraising or recognition event.

Donations

Donations of cash, pledges of support over time—every donation counts whether small or large. Donations provide the base of support for Habitat. Land donations or the opportunity to buy property at a reduced price are very welcome.

Donations of building materials and professional services make it possible to build affordable homes for families in need.

UNITED WAY OF THE COLUMBIA GORGE

– PROGRAM OVERVIEW –

The United Way of the Columbia Gorge is a non-profit organization that is changing thousands of lives in our community by funding a diverse group of local programs that serve basic human needs and foster healthy independence. When you give to the United Way, your contribution supports the entire community — serving many age groups and demographics.

Here's how it works: local non-profit agencies throughout the Gorge need financial support beyond their own annual fundraising efforts to keep their programs running and provide children and adults the services they desperately need. Each year, any non-profit human service program from Hood River, Klickitat, Sherman, Skamania and Wasco Counties with a two year operating history is welcome to apply for United Way funding.* Applicants undergo a rigorous screening and interview process to demonstrate how their program will directly help people living in the Gorge.

A team of volunteer Gorge residents representing the five counties selects funding recipients based on stringent standards in governance, ethics, financial management and efficient/effective program operations. Each funded program must also provide detailed reporting on how funding was used with outcome results. Since our inception in 2006, we have invested over \$2.5 million into our Gorge community. In 2019, the United Way of the Gorge allocated \$251,000 to 33 local programs.

– GIVING OPPORTUNITIES –

With over 50 volunteers throughout the Gorge, the money we allocate to local agencies is all raised by local people — neighbors helping neighbors. We are proud to say that 100% of the money donated directly by individuals, and through employee payroll deductions, gets channeled to local non-profit programs, as our sponsorship/event income covers all overhead costs.

MISSION & VISION

FISH's mission is "to help alleviate hunger by distributing food regularly and on an emergency basis, regardless of gender, race, religion, or sexual orientation in a friendly, instant, sympathetic, helpful, and confidential manner."

Sponsored by

FISH FOOD BANK

– PROGRAM OVERVIEW –

FISH Food Bank started in 1969 when a small group of community members noticed that their neighbors didn't seem to have enough to eat. They gathered some food and discreetly left it for the neighbors. They did the same thing the next week, and the next, and the next... and they haven't stopped since.

FISH Food Bank's primary purpose is to provide food for the hungry in Hood River County. FISH operates three distribution sites in the county – Hood River, Parkdale, and Cascade Locks, with the Hood River location serving as the primary distribution and warehouse site. Last year, FISH provided food for over 1,200 different families, feeding over 4,000 different individuals, with 38% of them being children. This translates into a monthly average 400+ families/individuals including children, seniors, working moms and dads, and others living below the federal poverty level. To receive food at the FISH Food Bank sites, individuals must meet financial and residential qualifications.

Last year, FISH received nearly 200,000 pounds of donated food from local individuals, farms, and businesses. In addition, FISH uses monetary donations to purchase around 150,000 lbs of food from the Oregon Food Bank, Rosauers, Safeway, and Columbia Food Service. All together 350,000 lbs of food is distributed to individuals and families of Hood River County.

– GIVING OPPORTUNITIES –

FISH Food Bank is thankful to be able to obtain USDA food and other donated food for our clients through our partnership with Oregon Food Bank and Columbia Gorge Food Bank.

For more than 50 years, FISH has survived on the generosity of this community for both food and operating expenses. FISH is continually in need of donations of food and volunteers. Specific foods we can use include the following: any nonperishable foods (such as tuna, canned soup, stew or chili), cooking oil, foods high in nutrients (such as canned vegetables and fruit), or whole grain foods.

Donate

Food donations can be taken to the Hood River FISH site located at 1130 Tucker Road in Hood River every Monday, Wednesday, Friday, or Saturday from 8 a.m. – 12 p.m.

Donations can also be placed in the food box located in front of the Hood River Site. Food is also accepted at all sites during the time food is being distributed.

Monetary donations can be made to FISH Food Bank and mailed to 1767-12th St #147, Hood River, OR 97031. We also accept PayPal donations through our website at www.fish-food-bank.com.

Volunteer

Volunteer opportunities are available at all the FISH Food Bank sites – Hood River, Odell, Parkdale, and Cascade Locks. You can learn more by visiting our website or by calling Billie Stevens at the Hood River FISH site at 541-386-3474.

In 2020, FISH Food Bank will be opening a school pantry at Mid Valley School in Odell.

THRIVE HOOD RIVER

– PROGRAM OVERVIEW –

After 41 successful years, we have changed our
name from Hood River Valley Residents’ Com-
mittee to Thrive Hood River. The new name and
brand identity put instant focus on our vision: a
thriving community for all.

Founded in 1977, Thrive is a hyper-local
land-use organization focused on the livability of
the Hood River Valley. From the beginning, we
believed that wise land-use planning means taking
the long view, that we must plan for the future, not
just for today’s needs. We’ve worked for over four
decades to shape Hood River into the place it is
today by ensuring that farmland remains farmland,
growth happens at a sustainable pace, and that our
cities are shaped into ever more special places. As
Thrive enters its fifth decade, we aim to become
even more inclusive of our community, and we
invite current, new and future generations of all
cultures to join forces with us in making smart
choices to shape Hood River’s future.

In recent years, Thrive has served as a lead
organizer for Streets Alive! Hood River, we brought
national expert Dan Burden to Hood River to lead
the community in a walking audit of the Heights
neighborhood and business district and we worked
with the Hood River County School District on safe
routes to schools planning to get more kids walking
and biking to school. We also advocated for com-
mon-sense rules to curb the burgeoning growth of
vacation rentals in the rural parts of the county.

We’re proud to be entering our fourth
decade of protecting the place we all love. One
of the most profound and effective means of
sustaining us for the next 40 years is to con-
sider a gift to Thrive when you do your estate

a gift to Thrive allows you to leave a legacy
that supports our mission of protecting farms,

our beautiful county.

COLUMBIA GORGE CASA

– PROGRAM OVERVIEW –

This past year over 165 children in Wasco, Sherman and Hood River counties found themselves in foster care; removed from their homes because of parental substance abuse, criminal behavior, violence, mental health issues, and/or medical neglect.

Foster care is a rough road to walk down alone, but CASA volunteers walk with each child and act as a much-needed voice during this traumatic time. CASAs ensure that the child is receiving needed health, education, and social services by reporting their findings and recommendations to the judge and by working closely with DHS case workers, teachers, health-care providers, counselors, and foster parents. Finally, they advocate to ensure that the child's legal case progresses so that they are placed in a permanent, loving home as soon as possible. Perhaps most importantly, CASAs often serve as the only consistent adult for the child during their time in foster care – a time when little else is consistent.

Columbia Gorge CASA is the only program in Wasco, Hood River and Sherman counties authorized by the court to recruit, train and supervise community members to advocate for foster kids. This year, 56 CASA volunteers advocated for 130 children, but 35 children did not have a CASA because we did not have enough volunteers.

» Corporate Giving- Be like Hattenhauer Distributing and collaborate with CASA in a visible and meaningful way by sponsoring one of our fundraisers or develop a CASA employee match program.

WONDERWORKS CHILDREN'S MUSEUM

– PROGRAM OVERVIEW –

"Wonderworks offers a safe, educational,
creative and affordable space in the Gorge for
young children and their important adults to
explore and play together. We strive to spark
children's curiosity and imagination with unique
and frequently changing exhibits, such as Café,
Animal Hospital, and Post Office. Children can
make themselves at home in the Playhouse, put
on a show on our Big Stage, and create incredible
structures in the Block area.

A dedicated infant area near the front of
the building receives ample natural lighting
and is geared for our youngest visitors' comfort
and explorations.

We have an art area with some sort of sensory
material (playdough, slime, etc) as well as a
weekly craft that reflects children's interests,
community events and the seasons. We also pe-
riodically offer classes in science, art and music
for children. We collaborate with local groups
and agencies for playgroups and other special
activities. Wonderworks is a nut free facility."

Wonderworks New Home Project

Wonderworks is celebrating its second
year in our recently purchased building. We
received grants from Meyer Memorial Trust,
Ford Family Foundation and the Collins Foun-
dation to purchase the building from the Port
of The Dalles.

Our project is not finished yet though. In
2016, we finished paving our parking lot with
the generous support of Crestline Construc-
tion, and we continue to work on beautifica-
tion projects outdoors, such as the installation
of a Little Free Library built and donated
by Wahtonka Community School. With the
purchase of the building, Wonderworks now
qualifies for more grants to cover the remain-
ing costs. Any monetary donation or business
in-kind donation is greatly appreciated.

We help with all aspects of home needs and community life. We work with employers to make part-time positions available that are beneficial to both them and the employer. Our residential service offers 24-hour care in a group home setting. We also provide assistance to people in their own homes to live independently in safe and healthy environments.

Community engagement is an increasing priority and Opportunity Connections has responded by focusing on all aspects of interaction from outings and cultural activities to employment opportunities. Office Hours:
Monday - Friday 8am - 5pm

MISSION & VISION

Community Action changes people's lives, embodies the spirit of hope, improves communities and makes America a better place to live.

MCCAC provides energy, housing and weatherization assistance to low-income individuals and families residing in Wasco, Sherman, and Hood River counties.

For more information about Mid-Columbia Community Action and the various programs it administers to help people change their lives, please contact: Jim Slusher, Executive Director, 312 E. 4th St. The Dalles, 541-298-5131 x206 or js@mccac.com. MCCAC is an equal opportunity provider.

Sponsored by

MID-COLUMBIA COMMUNITY ACTION COUNCIL, INC

– PROGRAM OVERVIEW –

MCCAC established in 1966 offers a variety of programs to low-income individuals and families in need of basic human services.

MCCAC offers several different Energy Assistance programs designed to offset the rising cost of home heating. Seniors and disabled families are given a first priority status. The Energy Assistance program opens to the general public Dec. 2nd.

Money saved on heating costs can be put toward other important bills such as; food, rent, medicine, transportation or even daycare.

MCCAC's Weatherization funds enable low-income families to receive free energy audits, energy education workshops and get their homes weatherized at no cost.

MCCAC's Housing programs can assist people who are literally homeless get off the streets and into permanent housing. The agency also has funds to provide rent assistance and eviction prevention.

MCCAC also administers an SSVF housing grant for Veterans who are facing housing or homeless situations.

– GIVING OPPORTUNITIES –

Donations

Donations to MCCAC's homeless/housing program as well as our energy assistance programs are our biggest challenge. Cash donations are needed and used for the housing and energy assistance programs in Wasco County, as well as in the other counties (Hood River; Sherman) MCCAC serves. But the lack of housing, especially "affordable attainable" housing, is the biggest barrier for most people. We often lack flexible funds to help to meet certain kinds of situations we have no funds to help.

OTHER CHALLENGES Private donations to MCCAC for its Housing and Energy Assistance programs are very welcome and extremely helpful. They can and do make a difference for people in need of housing or energy assistance.

To donate, make checks payable to MCCAC, PO Box 1969, The Dalles, OR. 97058. The agency also has a website at www.mccac.com and donations can be made through that website.

Many grants come with little administrative dollars to operate, so MCCAC also relies on private donations to help with the general operation of the agency.

We believe that giving begins at home. With deep roots in our community, we can help you find organizations addressing the causes you care about. We offer different kinds of funds, structured to make it easy to give back to the community. Our goal is to make your charitable giving as simple, flexible and effective as possible. From our funds, the Foundation has made grants to nonprofit groups totaling nearly \$2 million in grants since 2003.

Starting your own fund at the Gorge Community Foundation

At the Gorge Community Foundation, we connect people who want to make a difference with local organizations and nonprofits creating lasting change. By establishing a fund with the Gorge Community Foundation, you can establish your own legacy during your lifetime. You can give now and see the ways your contribution is making our communities better and stronger—now and for years to come. Whether you're interested in the environment, education, the arts, or helping those who lack basic needs, the Gorge Community Foundation can connect you to organizations addressing the causes you care about.

The Gorge Community Foundation provides donors with simple, flexible and effective ways

to respond to the needs of their local communities—and receive a tax advantage for doing so.

Community foundations are not just for wealthy families and individuals. There is no minimum amount to start a new fund; the only rule is that the fund must reach \$10,000 before grants can be made. Donors can also give gifts of stock or include the foundation in their estate planning. We multiply the impact of your investment by combining your contribution with those of other Gorge community members so the value of everyone's fund increases.

The most exciting way of giving through the Community Foundation is to start your own fund. A family fund is like having your own foundation, only with none of the work and all of the joy of making grants to worthwhile organizations. Please call or email us for more information.

GORGE TECHNOLOGY ALLIANCE

– PROGRAM OVERVIEW –

Since 2005, the GTA has worked to help start, grow, and sustain high-tech companies in the Gorge. Our regular events are a great forum for networking and bring intelligent individuals and businesses together for continued education/industry insights that benefit local businesses. The GTA also brings companies and partners together to address issues of importance to the tech sector. As a membership organization with about 120 members and sponsors, the GTA is the regionally-recognized link to the technology community.

Our events include a monthly Geek Lunch, the annual Gorge Tech Showcase and Gorge Innovators. We also offer an annual awards program that recognizes the Tech Leader of the Year and STEM Education Leader of the Year, with a \$1000 prize for the winning STEM educator's program.

As the founding organization behind the Gorge Women in STEM initiative, we support professional women working in science, tech, engineering, and math careers in the region and encourage the next generation of women.

Our website crgta.org offers a central location for tech job postings, or sign up for our mailing list (email jessica@crgta.org) to learn of events, job postings and other news for the Gorge's tech community.

The GTA also hosts events, loans out robotics equipment and contributes funds to support youth STEM education. The Giving Opportunities highlighted here provide more information.

– GIVING OPPORTUNITIES –

DONATIONS

The Gorge Tech Alliance relies on donations for our STEM education programs, including:

- » **Corwin Hardham Memorial Scholarship** supports the college dreams of local students pursuing STEM degrees. Donate to this fund through the Gorge Community Foundation.
- » **GTA's Robotics Fund** supports our loaner program with almost 50 robotics kits and laptops available to loan for free to schools and youth groups in the region. This fund also helps host robotics tournaments in the region and funds travel expenses for youth robotics teams that have advanced to distant competitions.
- » **GTA's STEM Educator Fund** is offered in partnership with the Gorge STEM Hub. Contributions support small grants to STEM educators in the region.

VOLUNTEERS

The Gorge Tech Alliance relies on volunteers for our STEM education programs, including:

- » **Robotics volunteers** are needed for one-day tournaments, or make an event a

bigger impact and be a coach! No robotics experience is needed for this fun and rewarding role. We are currently recruiting for volunteers for robotics tournaments in December, January and February. Learn more at gorgerobotics.org.

- » **Wind Challenge volunteers** support a one-day annual competition in March that introduces middle- and high-school students to wind energy. Volunteers help guide students in the process of building and testing a table-top wind turbine. This event is held in partnership with Google and Columbia Gorge Community College. Learn more at windchallenge.org.
- » **STEM Career Day volunteers** support a one-day event annually in April. The GTA invites all 7th graders in the five-county region to learn about our amazing local STEM careers. Presenters are always needed! Contact jessica@crgta.org for more information.

Check out the Columbia Gorge STEM Hub listing for additional STEM volunteer opportunities.

Our Early Head Start program is designed to support pregnant moms and children 0-3 years old through our educational home visits or center-based care. Our Head Start program offers free preschool for children ages 3-5 concentrating on developing social and emotional skills, language and literacy, mathematics, and physical development. Oregon (Oregon PreK) and Washington (ECEAP) offer programs for children ages 3-5 years old similarly to Head Start.

All of the programs support the health and well-being of low-income families by providing free early learning, child health and nutrition, parent involvement and family support, and culturally responsive services. 100% Sustainable Oasis of Healthy Living

For the last ten years, Farm Stand in the Gorge has been an oasis of healthy living. Offering fresh ingredients, a community between customers and employees, and 100% sustainability, we are a beacon of health in the Columbia River Gorge. 100% sustainability means that Farm Stand recycles all waste- from your leftover food, the napkins you use, to every scrap of paper and plastic used in both the store and cafe. New to Farm Stand this year, we have begun the journey of going more plastic-free, starting in our produce department. We supply our community with entirely organic produce, supporting many local farmers. We want you to experience a utopia of sustainable, health-minded, and abundant living during your visits to Farm Stand in the Gorge. Our cafe features nine kombucha taps, some which are local, and a wide variety of fresh

delicious food able to satiate carnivores, vegetarians, and vegans. Our store is home to a coffee grinder, an array of specialty meats, cheeses, and extensive beer and wine options (hand-picked and tasted by our leadership team). Farm Stand is here to help the community, which is why we are an Azure Standard drop- so you can order online from Azure, and pick your goods up at Farm Stand. We are known for our healthy food options, but we are so much more than just that. We are about family, community, flexibility, innovation, and team work. We love and appreciate our beautiful home in the Columbia River Gorge, and we are proud to contribute to the healthy atmosphere that plays a role in every Gorge family. We want to thank everyone for being a part of this community we call home, we couldn't do it without you!

MISSION

Gorge Grown Food Network is working to build a resilient and inclusive regional food system that improves the health and well-being of our community. We envision a healthy, self-sufficient Columbia River Gorge where our food is produced with integrity and is valued, abundant and accessible to all.

Sponsored by

GORGE GROWN FOOD NETWORK

– PROGRAM OVERVIEW –

We work to address food insecurity, link local buyers and sellers, educate and empower community leaders and farmers, and support local food businesses.

Ending Hunger

1 in 3 in Gorge residents worry about running out of food, while 1 in 5 miss meals. Our Veggie Rx Program provides vouchers to community members experiencing hunger to purchase fresh produce from local farmers. We give SNAP (food stamp) shoppers an extra \$10 to spend at farmers markets. The Power of Produce (POP) Club gives youth shoppers \$2 to buy fruits or vegetables at market each week. Our Mobile Market brings fresh, locally grown produce to communities throughout the Gorge that typically don't have access. We gather volunteers to glean from farms and orchards with excess produce, then donate to those that need it most.

Growing the local economy

Gorge Grown helps support all 10 farmers markets in the Gorge, providing beginning farmers and entrepreneurs a place to thrive. Our food access programs ensure more local dollars go directly into the pockets of family farmers.

Working Together

Through collaborative work with farmers, makers, food banks, educators, nutrition specialists and health care providers, Gorge Grown Food Network aims to ensure that the local food system is inclusive, resilient and robust.

FORT DALLES MUSEUM

– PROGRAM OVERVIEW –

The Fort Dalles Museum gives insight into daily life in Oregon during the mid-1800s to the early 20th century. It's not simply a fort in the typical sense. Fort Dalles and the Anderson Homestead, instead, showcase two homes, a barn, sheds, tools, and personal items used by army officers living at the fort, and an area farming family. The museum is great for history buffs, kids, and families alike.

Fort Dalles Museum, in The Dalles, Oregon, is housed in the former Surgeon's Quarters; the only remaining officer's quarters of the 1856 Fort Dalles military complex. One of Oregon's oldest history museums, it first opened its doors in 1905.

A group of civic-minded pioneer women were instrumental in saving the building at the turn of the century. Through an act of Congress, it became the property of the Oregon Historical Society as they were a recognized non-profit organization. OHS authorized the ladies of the "Old Fort Dalles Historical Society" to open it as a museum in 1905.

– GIVING OPPORTUNITIES –

The Fort Dalles Museum/Anderson Homestead Foundation is a 501(c) 3 organization and all donations are tax-deductible.

THE DALLES LIONS CLUB

– PROGRAM OVERVIEW –

WHO ARE THE DALLES LIONS?

With over 90 years of service to our community, we are a diverse group of men and women from all walks of life working together for the betterment of our community. Each year, The Dalles Lions Club sponsors activities and fundraisers to support the needs of our community; both people and our city. Members of our club volunteer countless hours to provide eye glasses, hearing aids, cataract surgeries, diabetes awareness, support for the children's wing of the library, parks & recreation projects, community meals, and Quinton Street ball park. We are proud to be Lions!

WHAT WE DO

The focus of The Dalles Lion Club is related to sight conservation, hearing and speech conservation, diabetes awareness, youth outreach, international relations, and other programs that support the local communities where Lions live. Lions are also passionate about developing effective leadership skills in their members.

WHERE WE GO?

The Dalles Lion's Club visits schools, retirement centers, hospitals, civic auditoriums, homes, and other service clubs. In other words, any place there is a need.

MOST IMPORTANTLY...WE HAVE FUN.

– GIVING OPPORTUNITIES –
