

MSHSAA's championship factor

The Championship Factor, which began in the fall of 2020, placed all MSHSAA member schools in classes based on enrollment. After that, it allows schools to go up a class based on post-season success.

**+1
point**

= Winning a district championship

**+2
points**

= Finishing third or fourth place in the state tournament

**+3
points**

= Finishing second in the state tournament

**+4
points**

= Winning a state championship

**0-2
points**

= School stays in the same class based on raw enrollment

**3-7
points**

= School moves up one class from raw enrollment placement

**8+
points**

= School moves up two classes from raw enrollment placement

At the end of six seasons, points are added up to decide which classes programs should join. Points are not added up cumulatively as a season progresses and are different for each sport.
