Who's in charge? Planned TPMC hierarchy requires collaboration from all four UM System campuses

The Translational Precision Medicine Complex is meant to bring together the UM System's core strengths in medical research — in cancer, neural and vascular — and take advantage of the research capabilities already on the four campuses.

UMKC Chancellor

Tom George

UMSI

UMSL Chancellor

Chris Maples

Missouri S&T Interim Chancellor

Mun Choi

UM System President

Alexander Cartwright

MU Chancellor

External Advisory Board

Choi and Cartwright will also oversee a TPMC project manager, a position yet to be filled.

Elizabeth
