

How does MU administrator pay compare to MU hourly employee pay?

The following graphs show the difference between the average MU administrator pay and the average pay for different hourly positions at MU. The people below the graphs show how many workers in that position equal the pay of one MU administrator. Average pay for hourly workers was calculated by averaging the hourly rate for each type of job and then calculating annual pay assuming an employee would work 40 hours a week for 50 weeks a year.

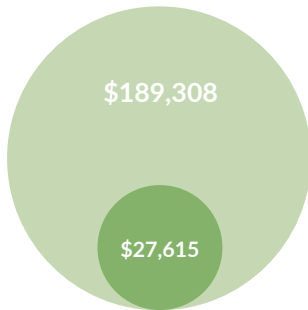

Custodians

One administrator equals
