-  West Intermediate School

GUIDING PRINCIPLES

- The attendance area should anticipate future growth of neighborhoods. A walkable and bikeable school is important, but may not always be possible.
- The board recognizes the power of a school to create community. Accessibility for families is important (volunteering and attending school functions are easier when the school is near)
- The attendance area seeks to reflect the composition of the Columbia Public School community.
- Consider time students spend on a bus and distance traveled to and from school.
- Consider attendance areas boundary lines that follow natural/manmade boundaries.
- Consider a transfer policy that allows 8th graders to remain at their previous school and policies that allow siblings to remain.

Key Points before we go into the Options

- All data reflects “live-in” or resident population in each area.
- The capacity for Jefferson is set at 450 in the charts, but the real capacity is 650. This is to allow for approximately 200 lottery seats.
- The projected enrollment at high school is predicted to exceed the overall capacity, so we are not going to be able to get all high schools under 100%, we are striving for balance between the schools.
- There is also additional capacity at the Career Center and Douglas HS.

Key Points before we go into the Options

- As we review these options, keep in mind that we are here to make changes based on your community feedback.
- These options are NOT packages that community members are voting for, they will be for feedback.
- Components of options be combined, or edited based on feedback before going to the Board for discussion & action.

BALANCED SOCIO-ECONOMIC MAP

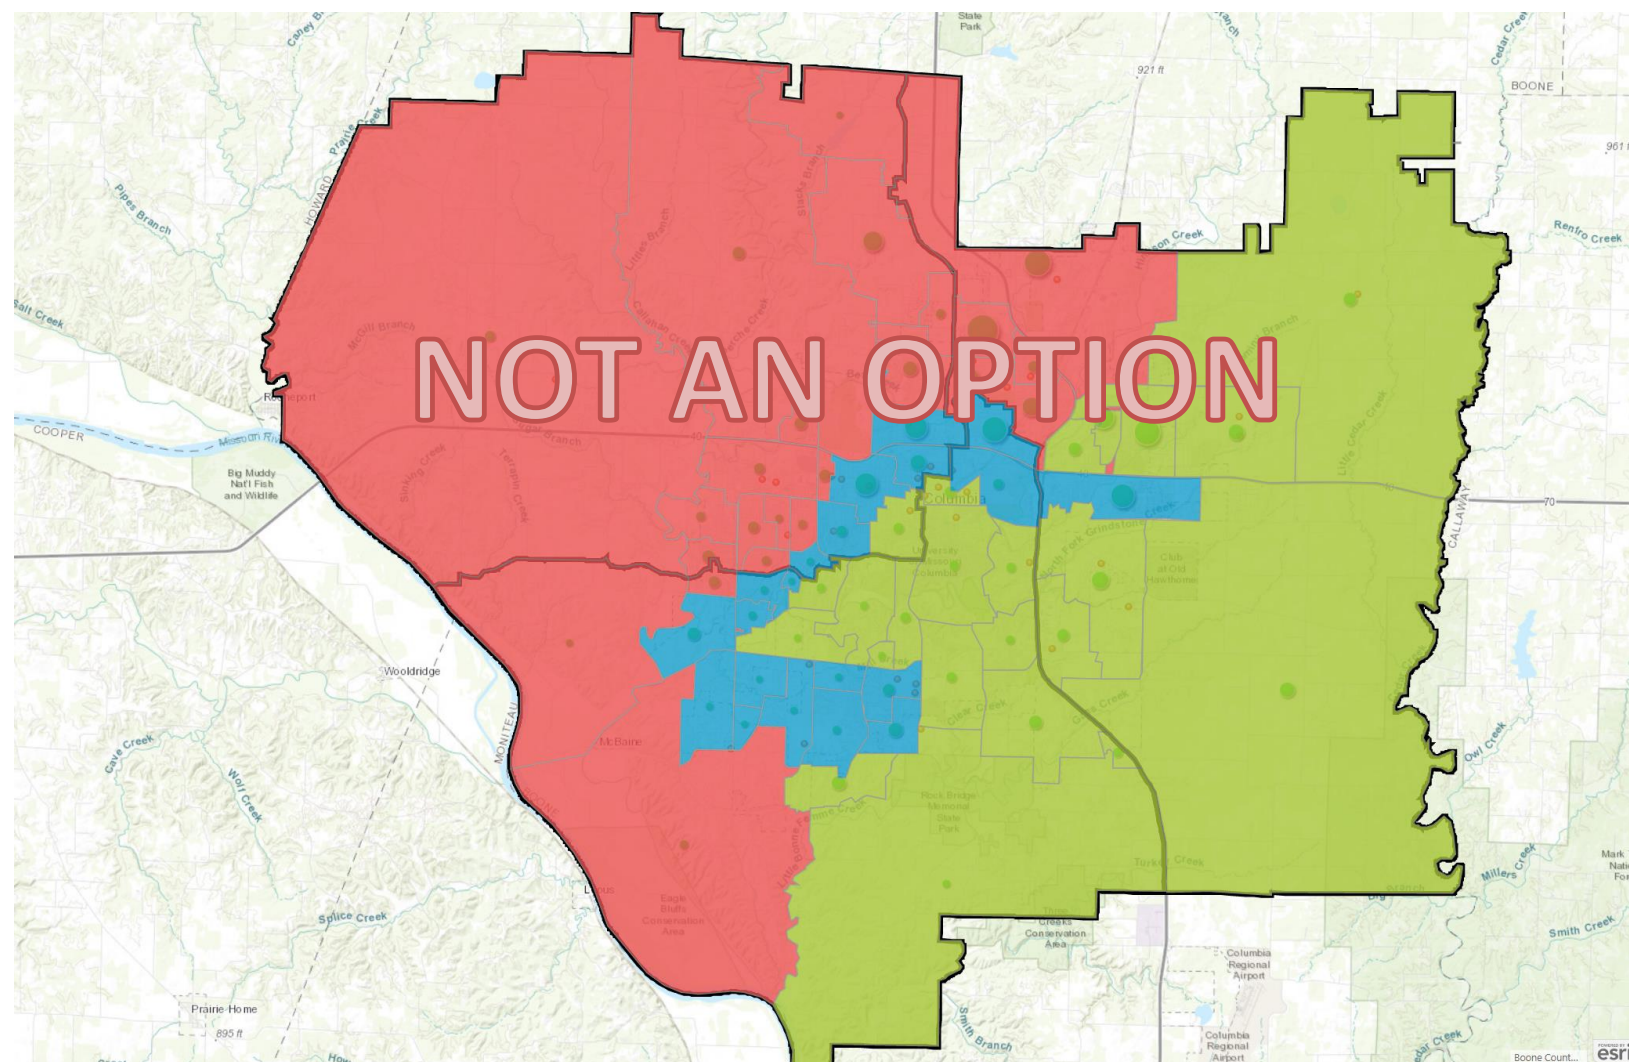

Hypothetical boundary scenario that gets as close to perfect balance in free & reduced lunch percentage at all high schools.

Free & Reduced Lunch Percentages

Battle	54%	36%
Hickman	32%	36%
Rock Bridge	24%	34%
HS Total	35%	

Legend

-  Hickman Boundary

CLOSEST MIDDLE SCHOOL

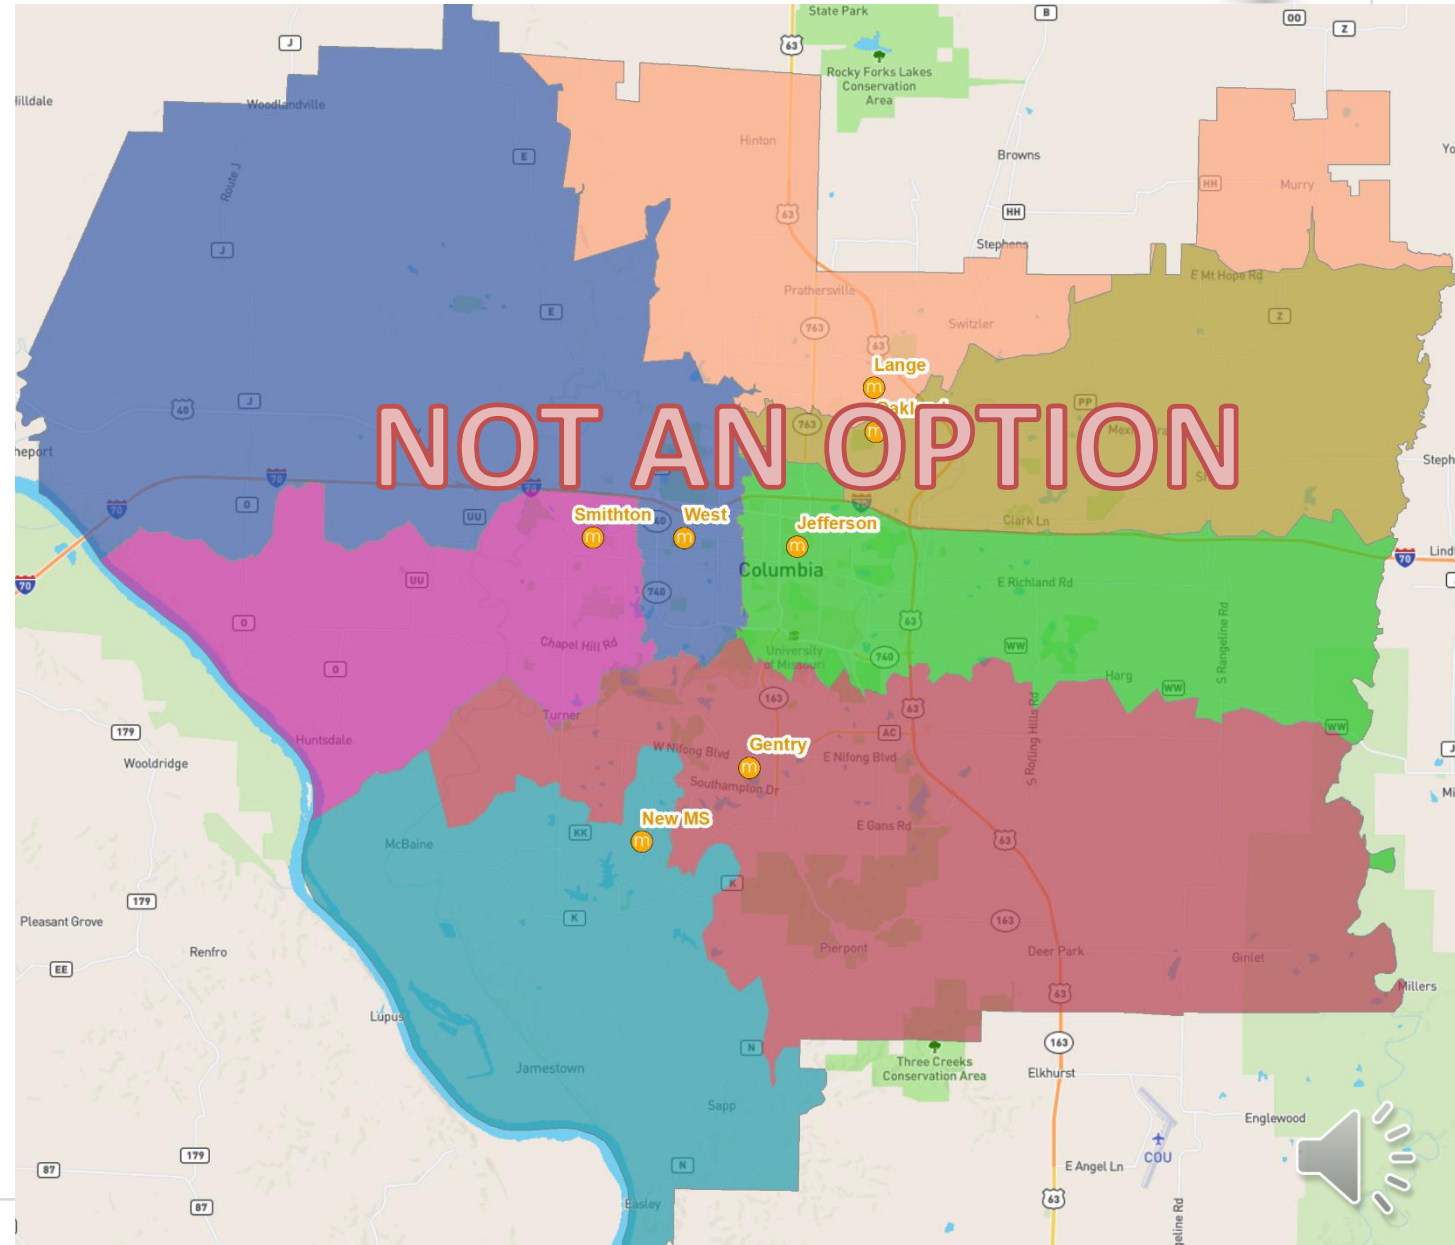

Hypothetical boundary scenario that draws boundaries to send all students to their geographically closest middle school (using road network and driving distance).

The table below reflects what the current utilization would be with these boundaries.

Middle School	Current		Closest School	
	Capacity 2020-21	Current Utilization	Enrollment	Utilization
Gentry	775	117%	784	101%
Jefferson	450	77%	594	132%
Lange	715	96%	453	63%
Oakland	600	81%	718	120%
Smithton	775	83%	627	81%
West	777	91%	566	73%
New MS	600	-	378	63%

OPTIONS

OPTIONS

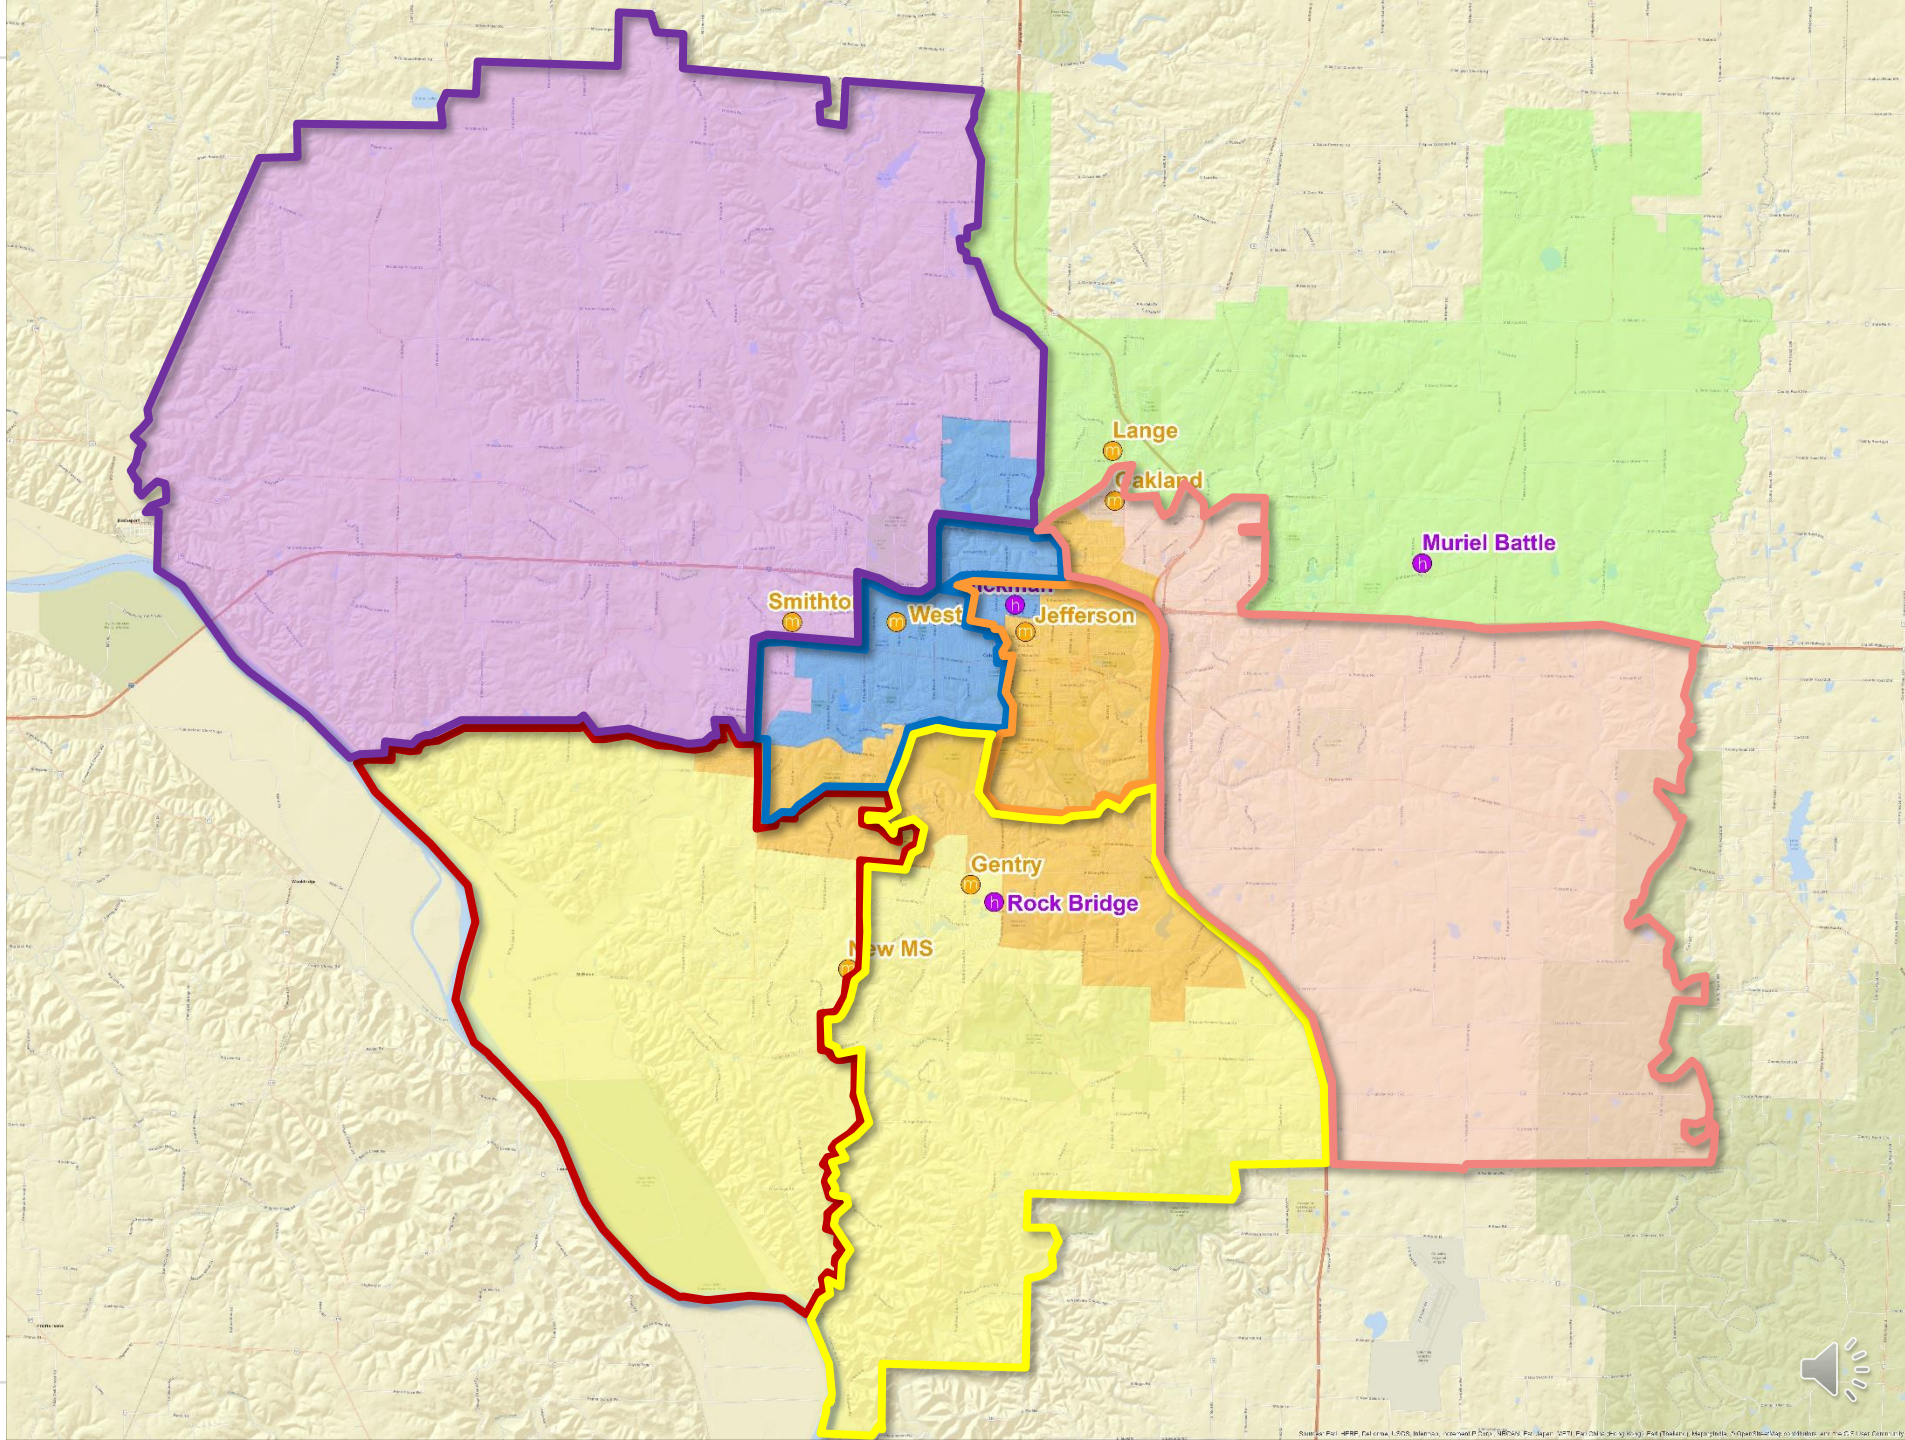

- 4 Options
- This is not a vote. We are looking for constructive detailed feedback about options.
- Not complete packages, options may be tweaked or blended together to form the final recommendations.
- The survey is designed to collect feedback around the options as a whole, and also their component parts
- There is a school locator available on the website which will return potential school zones by option based on an input address.

OPTION 1

MIDDLE SCHOOL

- 100% feeders are maintained
- Jefferson feeds into Hickman
- No changes to the Lange boundary
- Western portion of the Hickman – Rock Bridge boundary is maintained

Legend
