

# MoDOT, Boone County work together to clear snowy roads

Boone County Public Works will have employees and equipment ready to begin clearing the 800 + miles of county roads. For a major snow/ice event, 48 drivers are scheduled to work 12-hour shifts. The equipment includes 16 dump trucks, five one-ton trucks and eight graders.

## MoDOT

- **Priority One:** All interstates and higher volume highways.
- **Priority Two:** Lower-volume state numbered or lettered routes.
- **Priority Three:** After the storm, if necessary, workers will clean up accumulation on shoulders, bridge edges and interchanges during normal working hours.

## Boone County

- **Main priority:** Clearing the roads that serve critical facilities and provide access between state highways and communities.
- **Second Priority:** Main roads of subdivisions will be cleared as long as roads are free of parked or abandoned cars.
- **Third Priority:** Cul-de-sacs will be cleared after higher volume roads are cleared.
