Mizzou weighs athletics costs

Mizzou Athletics had a significant economic impact on Boone County and beyond in 2025, but changes to collegiate athletics also meant the program needed extra support from the university. In addition to a deficit the previous fiscal year, there was a $9 million deficit in 2025, both accounted for by internal loans from the university. Mizzou Athletics generated 3,928 jobs and $26.7 million in tax revenue in 2025.
