The American GI Forum of the United States Condemns the US Capitol Violence

The American GI Forum of the United States (AGIF-US) condemns the violence at the US Capitol by the domestic terrorists on Wednesday, January 6, 2021, and supports a thorough investigation. This organization supports the US Department of Justice and Congress to investigate the negligence and dereliction of duty by the US Capitol Police Leadership protecting the US Congress while conducting the Presidential Certification. It led to some people being killed or injured, and also resulting in destruction at the US Capitol.

The AGIF-US also supports an investigation of all individuals and factions who either incited the riot or participated in the domestic terrorist attack on our US Capitol and prosecute these individuals to the fullest extent. We must have equal justice under the law. We look forward to working with our elected leaders to strengthen our democracy, push for anti-racism, fight for social justice, and better serve our veterans and their families.

The American GI Forum of the United States is a Congressionally chartered civic organization that exists to support veterans and their families in all aspects of life. We take seriously our oath to defend the Constitution of the United States and to protect our democracy. God Bless the United States of America.
