Land: Land-Based Training is also provided for Lifeguards

Curry Coastal Pilot

The popular open water Junior Lifeguard Program is set to launch its fourth season on the Southern Oregon Coast, offering youth ages nine to seventeen vital ocean safety education and lifesaving skills. With the first session just over a month away, organizers are encouraging

interested participants to register soon. This year marks an exciting expansion for the program with the introduction of the Sunset Bay Session in Coos Bay, scheduled for June 28th to 30th. This three-day intensive program will provide instruction from certified open water lifeguards, focusing on ocean safety awareness, lifesaving techniques and enhancing open water, board, and paddling skills.

Thanks to generous grant funding from the Southern Oregon Workforce Investment Board, and a small grant from the Oregon State Marine Board, this special Sunset Bay session will be offered free of charge to all registrants.

The Junior Lifeguard program's core mission is to equip young people with a deeper understanding of their open water environments, provide them with the skills

to recreate safely and foster pathways within the maritime field. Activities include open water swimming, paddle boarding, body surfing, surfing, kayaking, snorkeling and self-rescue techniques. Environmental respect is cultivated through lectures on aquatic topics, while self-respect is built through

Know Before You Go: Understanding and Surviving Dangerous Rip Currents

Rip Current: A narrow, darker gap between areas of breaking waves is one sign of a rip current.

By LINDA LEE
Curry Coastal Pilot

Coastal communities are urging beachgoers to educate themselves about rip currents, a powerful and often misunderstood ocean hazard responsible for the vast majority of life-guard rescues.

Rip currents are channelized

currents of water flowing away from shore, typically forming in breaks in sandbars or near structures like jetties and piers. While often mistaken for undertows or riptides, these terms are incorrect; rip currents pull swimmers away from the shore, not under the water.

These currents can be deceptively fast, averaging one to two

feet per second, but capable of accelerating to a staggering eight feet per second, a speed faster than an Olympic swimmer.

They vary in size, from narrow channels to over fifty yards wide and their reach can extend from just beyond the breaking waves to hundreds of yards offshore. Even the strongest swimmers can be swept away.

Knowing how to identify a rip current before entering the water can be a lifesaver. Key indicators include: A narrow gap of darker, seemingly calmer water between areas of breaking waves and whitewater; a channel of churning, choppy water; A noticeable difference in water color or a line of foam, seaweed, or debris moving steadily

seaward. Prevention and awareness are paramount. Before heading to the beach, check the latest National Weather Service forecast for local beach conditions. Upon arrival, always inquire with lifeguards about rip currents and other potential hazards.

Port Orford gets state grant for visitor center project

JEREMY C. RUARK

Oregon Heritage, a division of Oregon Parks and Recreation Department, has awarded 35 matching grants worth over \$10,600,000 to Oregon Main Street Network organizations across the state, including Port Orford, for building projects that will strengthen local economies.

The projects range from façade improvement to basic facilities and housing with awards ranging from \$17,900-\$400,000.

Oregon Heritage Grants and Outreach Coordinator Kuri Gill said the Port Orford grant is for \$41,481 with a match grant amount of \$19,381. The funding is to complete structural repair and revitalization of the Port Orford Visitor Center at 520 Jefferson Street in Port Orford.

"The department funded Oregon Main Street Revitalization Grant (OMSRG) applications that best conveyed the

ability to stimulate private investment and local economic development, fit within the community's long-range plan for downtown vitality, and community need, Gill said. "Several projects will address a variety of preservation needs to increase the viability of spaces for existing businesses or opportunities for new businesses."

Other funded south coast projects are located in Gold Beach and North Bend.

The local organizations participating in the Oregon Main Street Network developed plans based on community input to prioritize needs and solutions for the commercial district and city. The funds brought to the community by the local organizations through this grant will provide significant economic development impacts.

LETTER TO THE EDITOR

Honor America's Freedom

The longer and warmer days bring more traveling. Freedom comes with following laws.

When 16 in 1992, I was hit by a drunken driver. Medical care and therapy in the Bay Area and Central Valley made up half of my teenage life. After three decades, I communicate with a deep tone, read lips, cannot drive and I walk unsteadily.

Look at the results for Independence Day Weekend Maximum Enforcement Period for 2023 and 2024: CHP made 1,224 DUI arrests in 2023 and made 1,336 DUI arrests in 2024. Drivers, please make DUI arrests come down this year.

Californians, please follow laws. Anyone's independence can be ruined if you drive drunk. Many holidays are coming. Memories of a crash, injuries or even death caused from drunken driving will haunt your future.

Foods and drinks are part of the fun. Taking US-101 to head home from a festivity? Planning to drink? Go ahead, but don't forget to have a sober person drive you if you become drunk. This certainly shows your pride for freedom and people will admire your safety. Freedom and safety go hand in hand.

Curry County Faces Insurance Concerns Amid Rising Premiums, Eyes Solutions for Social Security Bar

By LINDA LEE
Curry Coastal Pilot

Curry County officials are grappling with significant increases in insurance premiums and concerns about the adequacy of risk assessments, according to discussions during a recent meeting. The county, insured through City County Insurance Services (CIS), faces a gigantic number for its annual insurance costs.

Commissioner Patrick Hollinger highlighted a recent seventeen percent premium increase, substantially higher than in previ-

ous years. This prompted him to draft an email to CIS legal counsel and board of trustees, pointing out shortcomings in their services.

"Their presentation, and their claim of services, fell very short of what they provide here," Hollinger stated, referring to a presentation given by CIS.

An initial email led to a meeting between CIS legal counsel, Commissioner Hollinger and Councillor Ted Fitzgerald, marking the beginning of a new relationship and greater transparency regarding

CIS reports; however, a subsequent risk assessment presentation by a CIS law enforcement consultant was described as "very superficial" and lacking depth.

Hollinger drafted another email outlining shortcomings in the sheriff's office, jail and road patrol, requesting a full new risk assessment. He also emphasized the importance of adhering to existing policies to limit liability and potentially lower insurance costs in the future.

Fitzgerald added that the Please see **INSURANCE** Page 4

RIP CURRENTS Know your options

Rip currents are powerful currents of water moving away from shore. They can sweep even the strongest swimmer away from shore. If at all possible, swim near a lifeguard.

Rip Currents

From page 1

"Knowing how to swim is fundamental," said Curry County Aquatic Safety Officer Luke Martinez. "Never swim alone, and if you have any doubt

about conditions, don't go out. Always swim near a lifeguard."

Statistics from the United States Lifesaving Association (USLA) underscore the effectiveness of lifeguards stating, the chance of drowning

at a beach protected by lifeguards is an astonishing one in eighteen million; in fact, rip currents account for more than eighty percent of rescues performed by surf beach lifeguards. If you find yourself caught in a rip current, the

most crucial advice is to relax and avoid fighting the current directly.

It's important to know that one shouldn't swim against the current. This will quickly lead to exhaustion. Swim parallel to the shoreline to escape the current's pull, or angle

your swim towards breaking waves, then towards the beach.

One can also float or tread water if the current appears to circulate back towards shore and draw attention to yourself. If you feel unable to reach shore, yell and wave for assistance immediately.

Knowing safety along the shores is the best way to avoid dangerous situations. Remember to never turn your back on the ocean and if unsure of the water conditions, don't go in.

State Grant

From page 1

Sheri Stuart said. "They take the collective efforts coordinated by local main street organizations to achieve a community's vision based on short- and long-term goals. The OMSRG is an important tool to help strengthen local economies by activating underused spaces while preserving and leveraging a community's heritage."

BACKGROUND

Since its creation by the Oregon Legislature in 2015, the Oregon Main Street Revitalization Grant has supported building projects to stimulate economic vitality in 59 communities. The local Main Street

organizations administer the application and grant processes for the local property owners. These organizations brought between \$53,000 to \$900,000 to their communities through the life of the program, which awarded grants in 2017, 2019, 2022 and 2023. For example, the City of Reedsport has improved 10 properties and has six more in progress over multiple grant cycles which represents a significant investment downtown.

The grant program was created during the 2015 legislative session and placed with the Oregon State Historic Preservation Office. The legislation established a permanent fund for the Oregon Main Street Revitalization Grant, with an initial infusion

of funds from the sale of lottery bonds. If funded by the 2025 state legislature, there will be future grant rounds in the 25-27 biennium. The funds must be used to award grants to participating Oregon Main Street Network organizations to acquire, rehabilitate or construct buildings to facilitate community revitalization. The program also requires that at least 50 percent of the funds go to rural communities as defined in the bill.

Obituary

Doris Jean Henderson

December 10, 1933 - June 4, 2025

Our Mom, Doris Jean Henderson, born December 10, 1933, passed into our Savior's arms on June 4, 2025, at 2:55 p.m. She raised an army. An army for Christ! Every single Sunday morning, the first intonation of the rest of our week was present in the song we sung to herald in the rest of the week: "Onward Christian Soldiers...going off to war... with the cross of Jesus, going on before."

Indoctrination in all eight of her children's young lives, our mom pointed all of us in the direction she fervently believed in. Week after week, year after year, leading us to what she

thought of as her calling: following the ways of Christ.

We may have lost our general, but the message she gave each of us is in us forever. We are strong because of her leadership, benevolent because she taught us to follow the teachings of Jesus, and united because she taught us how to love. So we say thank you to our Lord for giving us a mother so wise, so pure and so devoted to her children and her church.

The Army mom unleashed upon this fragile world includes Diana J. Zellmer, Danny J. Lang, Donna J. Gervich, David J. Lang

(with Mom and Christ now as we speak), Denise J. Fugere-Thomas, Darryl J. Lang, Douglas J. Lang, and Dale J. Lang and all their respective spouses, children and grandchildren.

Curry County 4-H: Where Young Minds Grow and Futures Blossom

By LINDA LEE
Curry Coastal Pilot

Beyond the traditional classroom, a vibrant educational program is shaping the next generation of leaders, innovators and responsible citizens. The Curry County 4-H Youth Development program offers hands-on, non-formal learning experiences for youth aged five to nine-

teen, fostering essential life skills and knowledge through engaging activities.

Driven by dedicated 4-H educators, and a corps of trained adult volunteers from the local community, the program aims to empower young people to become productive, well-informed, self-reliant adults. All youth within the age range are welcome

to join, regardless of their interests or background.

Recently, members of the Curry County 4-H "It's a STATIC Thang" club tapped into their creative side during a hands-on pottery workshop hosted by Busy Bee Pottery in Gold Beach.

Led by local ceramic artist Kelly Beeson, the workshop introduced youth to the fundamentals

of pottery as an art form, shaping, sculpting and glazing clay to create their own expressive, one-of-a-kind pieces.

More than just a fun outing, the workshop gave 4-H youth a chance to develop their artistic skills and gain confidence through learning something new.

Each member, through the process of patience and care, realized what they were capable of creating with their own hands.

The club hopes to expand these opportunities by exploring other forms of expressive arts like jewelry making and woodworking in the future. Members are currently planning community fundraisers to help cover costs and make these experiences.

Curry County's 4-H Youth Development Program empowers local youth in grades K-12 to grow through hands-on learning in areas such as visual arts, animal science, leadership, science and technology and civic engagement. Whether a young person is passionate about agriculture, art, or

both, there's a place for them in 4-H.

4-H clubs in Curry County are designed to be self-directed, allowing participants to explore a wide array of project areas. From mastering the intricacies of animal science to delving into the exciting world of STEM, honing communication skills, or getting creative with cooking and art, there's something for everyone. Gardening and environmental science also provide avenues for youth to connect with the natural world and learn about sustainability.

Clubs typically hold meetings in the evenings and on weekends, at various locations throughout the county, accommodating busy schedules and making participation accessible. The 4-H year officially runs from October 1st to September 30th, offering a full year of learning and growth opportunities.

Curry County boasts a diverse range of 4-H clubs, each with its unique focus:

South Curry:

- Talk to the Hoof: Specializing in Large Livestock.
- Upper Chetco Ranchers: Focusing on Livestock, Foods, and Art.
- Brookings Livestock & Shooting Sports: Combining Livestock, Life Skills, Art, and Shooting Sports.
- South Coast Wranglers: Dedicated to Horse activities.
- Chetco Rippers: Exploring ATV skills.
- Central Curry:*
- Shoot Gold Archery: Centered around Archery.
- Rogue Ranchers: Offering a broad range of Small & Large Livestock, Art, and Leadership projects.

North Curry:

- Curry North Stars: Emphasizing Livestock, Life Skills, and Art.
- Rowdy Wranglers: Focusing on Livestock, Life Skills, and Art.

The work of Curry County 4-H youth, including their pottery, will be on display at the Curry County Fair, July 23rd to 26th at the Fairgrounds in Gold Beach. Visit the 4-H Exhibit Hall to witness the creativity, dedication and talent of our local youth.

Through these varied clubs and projects, the Curry County 4-H program is committed to providing a fun and enriching environment where young people can discover their passions, develop crucial skills and build a strong foundation for their futures.

Enrollment for the 2025 4-H year opens in October. To learn more about joining or volunteering with 4-H in Curry County, call the OSU Extension Office at: (541) 247-6672 Or visit: <https://extension.oregon-state.edu/curry/4h>

county is fiscally responsible for any inaccuracies in reporting and that the county will be monitoring the submittals.

The discussion also touched on the Oregon State Marine Board's biennial contract with the county. Concerns were raised about the integrity of reporting, given a recent investigation. Fitzgerald assured the board that his office and the finance department would be closely monitoring submittals and comparing time cards to ensure accuracy.

The board also discussed the marine patrol program's budget, noting

a significant reduction in funding from the Marine Board. Questions arose about how the sheriff's office would manage the shortfall and maintain service levels.

The board authorized Hollinger to review changes and finalize the agreement on their behalf, ensuring it aligns with the reduced funding and revised action plan.

In other news, Curry County is collaborating with state and city officials to address long-standing issues at the popular Social Security Bar, a public land area along the Chetco River, that has faced challenges with vandalism, environmental damage and unregulated use.

Current discussions reveal a concerted effort to find short-term solutions and preserve public access.

Fitzgerald, reported on a recent meeting with representatives from the Department of State Lands (DSL) and Brookings City Manager Tim Rundel. DSL officials conducted a thorough site visit, assessing everything from high water lines to evidence of refuse dumping and riparian damage.

"They spent all day, took a lot of notes, and they're still working on that," Fitzgerald stated. "They know that it's time sensitive."

One immediate proposed solution involves updating the main sign at the bar, which is currently

covered in graffiti and difficult to read. While ownership of the sign is unclear, DSL is willing to contribute funds and time to improve its legibility and appearance.

To combat future vandalism, the City of Brookings has committed to installing cameras on the property, with one specifically aimed at the sign. Fitzgerald believes this will deter vandalism and create a record of individuals entering and exiting the bar, aiding in potential law enforcement follow-up.

"I'm really hopeful that by working together here, all three of us, the county, the city and DSL," Fitzgerald said. "I think, we are going to be able to come

up with a situation that affords use by everybody in a regulated manner."

It was stressed that without such collaboration, DSL's ultimate remedy would be to block access to the entire bar, an outcome no one desires.

The complex issue of property lines, tied to the river's high-water mark, remains a long-term chal-

lenge; however, the current focus is on establishing regulated use. The county's lease on the bar can only be effectively enforced once monitoring capabilities are in place.

Commissioner Jay Trost, who has been involved with the Social Security Bar issue for some time, expressed optimism about the current progress.

NOTICE OF PUBLIC HEARING DEL NORTE COUNTY PLANNING COMMISSION

NOTICE IS HEREBY GIVEN that the Planning Commission of the County of Del Norte will hold a public hearing to consider the requests listed below. All persons are invited to appear and be heard. Comments may be submitted in writing at, or prior to, the hearing. Those wishing to be notified of the final action must submit a written request. Appeals must be filed with the Clerk of the Board of Supervisors by July 14, 2025. If you challenge the decision of the Planning Commission in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Planning Commission at, or prior to, the public hearing. The following project(s) are located within the California Coastal Zone:

DATE OF HEARING: July 2, 2025
TIME OF HEARING: 6:00 p.m.
PLACE OF HEARING: 981 H Street, Suite 100, Crescent City, CA 95531
*** Coastal Development Permit for a geotechnical investigation within the Last Chance Grade Permanent Restoration project area. Caltrans Northern Region has proposed drilling 2 horizontal bore holes along Highway 101, within the Caltrans right of way at Last Chance Grade. The borings would extend roughly 300 and 2,000 linear feet, respectively. The intent is to collect data on subsurface conditions at these locations, filling identified gaps in the geologic model of the Last Chance Grade landslide complex. - CDP2503C - APN 126-090-005 and 127-040-004, located on US Hwy 101 at post miles 14.6 and 15.7, Del Norte County.

*** Coastal Development Permit for a new residence on Gilbert Way in Smith River. The applicant has proposed building a new residence within the California Coastal Zone. Building plans indicate a 3,666 sq. ft., two story residence with attached 462 sq. ft. garage and laundry area. The maximum height of the home is indicated as 25 feet. A geotechnical study and a sewage disposal evaluation were incorporated into the project, and conditions of approval include a 30 ft. setback from the top of the coastal bluff. Zoning for the parcel is One Family Residence, with a Building Site, Coastal Access, and Coastal Hazard Combining District R-1-B6-C(A)(H). The General Plan Land Use designation is Rural Neighborhood with 6,000 sq. ft. lot density. - B38404C - APN 101-082-008 located at 16300 Gilbert Way, Smith River, CA 95567.

*** Minor Subdivision Amendment to a previously approved 2-parcel subdivision of a 6.28 acre parcel located at 500 Bachelor Road. Original access was to be from Bachelor Road via a new road along the northern property boundary. The revised proposal designates primary access from Devol Court, a County-maintained road, using two acquired parcels and an existing easement to meet the County's Private Rural Road Standards.

The original Bachelor Road alignment will remain as an available legal access to the parcels. The parcel is zone Rural Residential and Agriculture three-acre minimum lot size (RRA-3) and has a General Plan Land Use designation of Rural Residential - one dwelling unit per three acres (RR 1/3). - MS2301C - APN 105-191-008 located at 500 Bachelor Rd. Crescent City, CA 95531.
*** Grading Permit to address unpermitted grading activities on an oceanfront 1.05-acre parcel located at 12580 S. Indian Road. The property is currently approved for development

under a Coastal Development Permit and Building Permit for a new residence. As a condition of approval, no development or land disturbance was permitted within 100 feet of the coastal bluff to avoid concentrating drainage near the bluff face. Subsequent site inspection revealed drainage improvements had been installed within this restricted area. The after-the-fact grading permit requires removal of all drainage improvements from the 100-foot setback area and restoration of the land to its original condition. - GP2025-15C - APN 102-050-020 located at 12580 S Indian Road Smith River, CA 95567.

PLACE OF HEARING: 981 H Street, Suite 100, Crescent City, CA 95531
*** Minor Subdivision of a 2-acre parcel into two parcels .99 acres and 1.01 acres in size. The project is located on the south side of Washington Boulevard across from the Summer Lane intersection. Both lots will be developed with commercial (retail and restaurant) uses. Future development will be serviced by public water and public sewer. Because the parcel shares a property line with an R-1 (Single-Family Residential) zoned development to the west, adherence to codified setbacks and implementation of additional mitigation measures will be required to ensure compatibility between the commercial and residential land uses. The parcel previously developed with a manufactured home sales and showroom business. MS2501 - APN 117-020-044 located at 915 E. Washington Boulevard, Crescent City, CA 95531. Made pursuant to Section 3351, Revenue and Taxation Code
I, Barbara M. Lopez, Del Norte County Tax Collector, State of California, certify as follows:
That at 12:01 a.m. on July 1, 2025, by operation of law, any real property (unless previously tax-defaulted and not redeemed) that has any delinquent taxes, assessments, or other charges levied for the fiscal year 2024-25, and/or any delinquent supplemental taxes levied prior to the fiscal year 2025-25 shall be declared tax defaulted. That unless the tax defaulted property is completely redeemed through payment of all unpaid amounts, together with penalties and fees prescribed by law or an installment plan is initiated and maintained; the property will become tax-defaulted and may be sold subsequently at a tax sale to satisfy the tax lien.
That a detailed list of all properties remaining tax-defaulted as of July 1, 2025, and not redeemed prior to being submitted for publication, shall be published on or before September 8, 2028.
That information concerning redemption or the initiation of an installment plan for redemption of tax defaulted property will be furnished, upon request, by Barbara M. Lopez, Del Norte County Tax Collector, 981 H Street, Suite 150, Crescent City, CA 95531 or by calling (707) 464-7283.
I certify under penalty of perjury that the foregoing is true and correct.
Barbara M. Lopez, Del Norte County Tax Collector, State of California
Executed at Crescent City, Del Norte County, California on May 13, 2025.

NOTICE OF PETITION TO ADMINISTER ESTATE OF: \charscalex94 JIMMY G. CADJEW, Decedent
Case Number: **PB257032**
To all heirs, beneficiaries, creditors, contingent creditors, and persons who may otherwise be interested in the will or estate, or both, of: **JIMMY G. CADJEW.**
A Petition for Probate has been filed by: **TASHA R. RIDDLE AND JOHN C. RIDDLE III**, in the Superior Court of California, County of: Del Norte.

The petition for probate requests that: **TASHA R. RIDDLE AND JOHN C. RIDDLE III** be appointed as personal representative to administer the estate of the decedent.
The petition requests the decedent's will and codicils, if any, to be admitted to probate. The will and any codicils are available for examination in the file kept by the court.
The petition requests authority to administer the estate under the Independent Administration of Estates Act. (This Authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.
A hearing on the petition will be held in this court as follows:
Date: **July 11, 2025**
Time: **10:00am** Dept.: **2**
Address of the Court: **450 H Street, Crescent City, CA 95531**

If you object to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney. If you are a creditor or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the

California Probate Code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.
You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for Special Notice form is available from the court clerk.

NOTICE OF IMPENDING POWER TO SELL TAX-DEFAULTED PROPERTY

Pursuant to Revenue and Taxation Code sections 3691 and 3692.4, the following conditions will, by operation of law, subject real property to the tax collector's power to sell: All property for which property taxes and assessments have been in default for five or more years. Any property the tax collector has received a request to bring the property to the next scheduled tax sale from a person or entity that has a nuisance abatement lien recorded against the property and for which property taxes and assessments have been in default for three or more years. Any property that has been identified and requested for purchase by a city, county, city and county, or nonprofit organization to serve the public benefit by providing housing or services directly related to low-income persons and for which property taxes and assessments have been in default for three or more years. The parcels listed herein meet one or more of the conditions listed above and thus, will become subject to the tax collector's power to sell on July 1, 2025, at 12:01 am, by operation of law. The tax collector's power to sell will arise unless the property is either redeemed or made subject to an installment plan of redemption initiated as provided by law prior to close of business on the last business day in June. The right to an installment plan terminates on the last business day in June, and after that date the entire balance due must be paid in full to prevent sale of the property at a tax sale. The right of redemption survives the property becoming subject to the power to sell, but it terminates at close of business on the last business day prior to the date of the tax sale by the tax collector. All information concerning redemption or the initiation of an installment plan of redemption will be furnished, upon request, by Barbara M. Lopez, Del Norte County Tax Collector, 981 H Street, Suite 150, Crescent City, CA 95531 or by calling (707) 464-7283. **The amount to redeem, including all penalties and fees, as of June 2025, is shown opposite the assessment number and next to the address of the assessment.** PARCEL (ASSESSMENT) NUMBERING SYSTEM EXPLANATION. The Assessor's assessment number, when used to describe property in this list, refers to the assessor's map book, the map page, the block on the map, if applicable, and the individual parcel on the map page or in the block. The assessor's maps and further explanation of the assessment numbering system are available in the assessor's office.

BOB, The Watermelon Bus is back for this Summer's Meal Program, School District also to Offer Free Meals

Photos/images courtesy of Brookings-Harbor School District
BOB Bus: The Watermelon Bus Hits the Road Again in Brookings

The Brookings-Harbor School District will offer free summer meals for all from Monday, June 9th through Thursday, July 31st at the Brookings-Harbor High School Cafeteria. The summer food service program provides healthy meals to children ages one to eighteen free. With summer meals, children continue to get the nutrition they need to learn, play, and grow when school is out. Children that attend camps, tournaments, practices, playing outside, visiting from out of town or state, summer school, clubs and just hanging

out with friends are all welcome to participate at no cost. All are welcome to join us at the Brookings Harbor High School Cafeteria where children can enjoy our famous salad bar and fun meals. From June 9th to July 31st. Cafeteria meal times are: Breakfast: 7:45 a.m. to 9:00 a.m. and Lunch: 10:45 a.m. to 12:00 p.m. Meals are available Monday through Thursday and must be consumed on site. The cafeteria will be closed on Fridays and Thursday, July 4th, in observance of Independence Day. The summer food ser-

vice program helps ensure that children continue to receive nutritious meals during the summer months when school is not in session. Meals include a variety of fruits, vegetables, whole grains, protein and milk. No application or registration is required to participate. Parents, guardians and babysitters are welcome to join. Adult meals are \$4 for breakfast and \$6 per lunch. Adults are not permitted to eat off the child's plate. The B.O.B. (Bites of Brookings) Bus, recognizable by its colorful water-

melon-themed design, will provide additional access to free meals on Wednesdays only from July 2nd through July 30th. Children and teens can enjoy dine-in meals at multiple convenient community locations. **BOB Bus Wednesday Route and Stop Times:**
 • 10:45 to 11:05 a.m. at the Chetco Community Public Library
 • 11:10 to 11:30 a.m. at the Harbor Fire Department
 • 11:35 to 11:55 a.m. at Kemp Auto
 • 12:00 to 12:20 p.m. at the Azalea Park

Meals on the BOB Bus will include sandwiches, fresh fruit or vegetable sides and milk. All meals must be eaten on site. Also, the Brookings Harbor Community Helpers (BHCH) Food Bank and Resource Center is once again offering the Summer Youth Snack Pack Program for children ages two to seventeen. The program dates are June 9th to August 22nd with the distribution days of Mondays, Wednesdays and Fridays and the time from 10:00 a.m. to 1:00 p.m. Snack packs will be

distributed at the BHCH Resource Office as well as along the BOB Bus route on designated days. The snack packs contain a variety of kid-friendly items such as granola bars, fruit cups, trail mix and shelf-stable drinks. In August, after the district meal program concludes, snack packs will include an extra breakfast bag to help bridge the gap before school resumes. For more information about the Snack Pack Program, please contact Brookings Harbor Community Helpers at (541) 469-6988.

personal achievements and teamwork. In addition to the new Coos Bay session, the program will return to its established locations:
 • Port Orford: Sessions will run from July 14th to 18th daily from 10 a.m. to 3:00 p.m., beginning at Port Point Beach on Dock Road.
 • Brookings: Sessions will be held from August 4th to 8th, daily from 10 a.m. to 3:00 p.m. at Harris Beach State Park, Day Use Area. Limited parking will be available on a first-come, first-served basis.

The program boasts a team of professional instructors and lifeguards from Curry County Aquatic Safety and the California State Parks Trinidad Head Lifeguard Division, all possessing extensive experience in surf and ocean rescue, beach safety, First Aid and CPR. They are supported by trained volunteers and Junior Lifeguard trainees to maintain a low student-to-instructor ratio. Management staff includes Luke Martinez (Curry County Aquatic Safety Officer/Lifeguard II), Shannon Ingram (California State Parks - Lifeguard II/EMT), and Declan Debler (Curry County Aquatic Safety Officer/Lifeguard I). Enrollment operates on a first-come, first-served basis, and due to the program's popularity, sessions are expected to reach full

capacity. The fee for each week-long session is \$200 per student, with shorter sessions priced accordingly. Tuition assistance and scholarship opportunities are available based on need, with generous sponsors covering spots for deserving children. Organizers stress the importance of daily participation, as rigorous physical exercise and ocean swims are integral to the program. A progressive discipline policy is in place to ensure a respectful and productive learning environment. Tryout dates will be posted after registration. For more information and to register, interested individuals can contact: junior.lifeguard@curry-countyor.gov or visit the online portal at: https://www.travelcurrycoast.com/escape/aquatic-safety/.

Construction to close U.S. 101 south of Bandon for one weekend in September

Photo/image courtesy of Oregon.gov
 Highway's Edge: The damage is right at the edge of the highway.
 101 Workzone: This map shows the location of the area where the culvert is.

Risk of Failure: The culvert under U.S. Highway 101 at Bearhead Mountain Lane is located about six miles south of Bandon. The culvert is still at risk of failure, which could compromise the roadway above.

Oregon Department of Transportation (ODOT) plans to close U.S. 101 south of Bandon for one weekend in September to replace a culvert deep under the highway in difficult terrain.

The closure, scheduled for Friday night to Sunday night, Sept. 19th to 21st, will allow contractors to dig down more than twenty feet to remove the failing pipe and install a larger culvert. The work zone is sandwiched between a steep slope on one side of the highway, wetlands on the other and a stream that snakes its way in between.

There are no local road connections around the work zone. During this 48-hour closure, the only available detour is a lengthy drive along U.S. 199 (Redwood Highway), Interstate 5 and Oregon 42 (Coos Bay-Roseburg Highway).

The total construction window will likely extend about four to six weeks, with about two to three weeks of single-lane closures before and after the weekend full closure of the highway.

In most circumstances, ODOT attempts to stage projects in a way that keeps highways open to all traffic at all times. However, that would require a single-lane bypass to be constructed either through a hillside or over wetlands, relocating the stream while adding more cost to the project and disrupting highway traffic for about six months.

"We know how disruptive highway closures can be for communities on the south coast, but we believe this is the best approach and the least impactful option in the long run," said ODOT District Manager Glen Pederson. "We're announcing the closure now because we want to give everybody as much time as possible to plan ahead."

The rapid replacement approach offers several benefits:

- Shrinking the total construction window from six months to six weeks will reduce overall traffic impacts of the project.
- Eliminating the need for a temporary bypass and shortening the construction timeline could save more than \$1 million from the total cost of the project.
- Completing the project in October means the new culvert will be ready before the worst weather hits the south coast this winter. Under the traditional approach, the new culvert wouldn't be operational until a year later.
- Construction in September and October would avoid impacting the local summer tourist season.
- A shortened schedule and reduced number of traffic stages decreases the safety risk to both workers and the traveling public.
- The rapid replacement approach maintains the existing stream alignment and avoids impacts to adjacent wetlands entirely.
- Closing the highway for one weekend will allow construction to take place entirely within existing ODOT right of way.

The pipe failed during a December 2024 storm, washing away the ground under the highway's southbound travel lane. ODOT repaired the culvert, but in its current condition the pipe is unable to handle expected winter stream flows. Another failure could compromise the roadway above.

Unlike the existing pipe, the new 11-foot-wide culvert will meet federal fish passage requirements while accommodating far more water.
