McMurray and Sons history began in 1919 in Des Moines, Iowa when our founder Thomas J. McMurray started the company. In 1948, he moved his family to Eureka. His daughter and son-in law, Bob and Darlene Allwine soon joined the company. Later his sons Don, Tom, and Dave followed in their father's footsteps.

McMurray and Sons, Inc. became a major employer in the Eureka area and with the retirement of his father, David W. McMurray took on the role of President and owner of the

corporation until his death in 2021. Under his guidance, the company expanded to include branches in the Crescent City/ Brookings area and in Bend, OR.

Today David W. McMurray's son, David McMurray II, provides strong leadership for the company. Our commitment to providing quality materials and workmanship backed by the best warranties in the industry has never wavered. David's sons, Charles McMurray and David McMurray III continue the family tradition, as the fourth generation of McMurray and Sons, Inc.

# CELEBRATING 50 YEARS OF SERVICE TO CURRY COUNTY

CURRY TRANSFER & RECYCLING

## **We Live Here, Work Here & Play Here!**

In 1971, Pete bought a garbage truck and started picking up garbage in Gold Beach.

Over the years he grew his business and eventually his route expanded to all of Curry County servicing residents and businesses with a variety of services including Roto Rooter.

Waste Connections, then a small start up company, liked what they saw and entered into negotiations to purchase their third garbage company. Today, Curry Transfer & Recycling, also known as CTR, is backed by a strong parent company, but all forty employees live here, work here, and play here. We invite you to meet our team.

- Garbage Service • Curbside Recycling • Clean-up Dumpsters • Drop Boxes
- Bulky Item Pick-Up • Transfer Sites • Portable Storage Units • Portable Toilets

# *Celebrating 65 Years of Service to our Community*

In 1955 Del Norte and Curry County farmers united to form a Farmer's Cooperative. The Co-Op consisted of Dairy, Beef Cattle, Sheep, Daffodils and Lily Bulb farmers.

In the spring of 1956 the Co-Op built and opened a modest store aptly named Del-Cur Supply Co-Op.

In the next few years membership grew to nearly 150 members bolstered by the thriving Lily Bulb industry. The store continued to expand inventories to include hardware, lawn garden & pet supplies.

As the Co-Op entered the 21st century the buildings needed a makeover. In 2004 a new feed shed was constructed followed by the main store in 2005.

Del-Cur Supply remains strong and prosperous, vested in community and serving farmers, ranchers, contractors, and home owners.

Shop and visit the Co-Op where old fashioned customer service is still alive and well, in the Big Red Barn at the State Line.

Chetco Medical & Aesthetics is a medical clinic in Brookings that offers comprehensive medical care as well as aesthetics services. Specialties of the clinic include Internal Medicine, Geriatric Medicine, Weight Loss, and Aesthetics. The services are currently provided by Dr. Jay Patel, MD and Dr. Palak Patel, MD, who will be joined by two new medical providers in January 2022: Viridiana Jefferson, PA-C, and Obiri Yeboah, NP. Chetco Medical & Aesthetics is currently accepting new patients.

Chetco Medical & Aesthetics recently expanded its aesthetics services with Bellezza, a brand-new state-of-the-art medical spa that opened its doors in November 2020. Bellezza offers a broad selection of aesthetics services including Botox, fillers, CoolSculpting/CoolTone, and skin rejuvenation services such as laser resurfacing, sun / age spot removal, microneedling, and medical grade facials and peels. All of the skin rejuvenation procedures are customized to address a broad range of conditions including fine lines and wrinkles, hyperpigmentation, acne, and several others. Other services include cellulite reduction, hair restoration treatments, women's intimate health, laser hair reduction and many more.

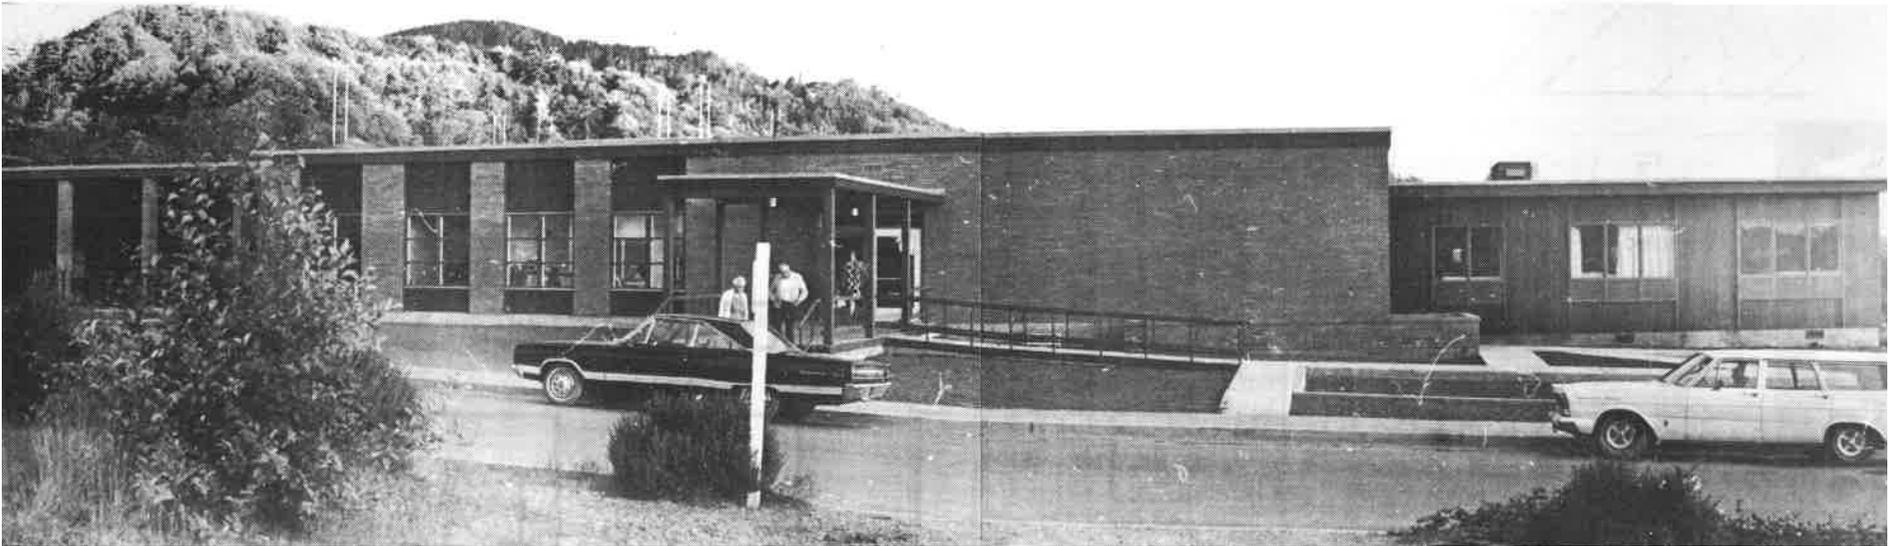

Just over one year ago, Bellezza added Liposuction with radiofrequency-assist to its treatment offerings, which has shown amazing results for fat reduction and body contouring.

Chetco Medical & Aesthetics began with the medical practice of Dr. Jay Patel. He has been board certified in Internal Medicine, Geriatric Medicine, and Obesity Medicine and has been a practicing physician in the Brookings community since 1987. His practice includes treatment of a broad spectrum of medical diseases such as managing both common and complex illnesses of adolescents, adults and the elderly. His son, Dr. Palak Patel, joined the practice in 2016. Dr. Palak is board certified in Internal Medicine and Geriatrics. He grew up in Brookings, along with his twin brother and his sister, Roochita Patel. He attended the University of California San Diego for his undergraduate studies. He completed his medical education at Oregon Health and Sciences University (OHSU) in Portland. He then went on to Dartmouth-Hitchcock Medical Center in New Hampshire to complete his internal medicine training prior to graduating from his geriatric medicine fellowship program at University of Pittsburgh Medical Center in Pennsylvania, one of the top geriatric medicine programs in the country.

In 2016, the fat-freezing CoolSculpting device was added to their practice, and the doctors were pleasantly surprised by the feedback from their patients. They noticed there was a gap in options for medical-grade aesthetics services in the area, so Dr. Palak became trained and certified in aesthetics procedures including

Botox, fillers, and laser treatments and started offering them in the clinic and Chetco Medical and Aesthetics was born. The doctors started seeing increased interest in these types of services over the next two years, so they decided to invest in having a dedicated space and to expand the range of services available to match the community's interest.

Roochita Patel, sister to Dr. Palak, took a sabbatical from her corporate roles in San Francisco to lead the buildout and setup of Bellezza, along with Dr. Palak and Dr. Jay. She grew up in Brookings and attended the University of California, Berkeley for her undergraduate studies, where she earned a double-major in Economics and Legal Studies, and a minor in Business Administration. She has spent the majority of her career working in Silicon Valley where she held executive positions in operations, analytics, and finance at several companies including Walmart.com and Minted, but was very excited to join the team in Brookings to help bring services that typically are only available in larger cities to the town where she grew up. After Bellezza's opening, she has been focused on optimizing the clinic operations, expanding the medical practice to help meet the increasing demand for medical services, and exploring potential new aesthetics service offerings.

RE/MAX Coast & Country is proud and honored to represent the people of Curry County.

Our real estate brokerage was established back in 2004. You may remember the original location at the English Village Mall. Marie Curtis joined RE/MAX Coast & Country in 2005. She quickly established herself as a consistent and prominent real estate professional.

Marie and her husband, Bret Curtis, bought into ownership in 2009. One of their biggest accomplishments was transitioning the office location to the Central Building in 2011, culminating with their purchase of the Central Building in 2017. A second office location was established, to support the growth of their brokerage and meet the needs of their clients, in Harbor at 16218 W. Hoffeldt Lane, in 2016.

"We're always thinking and dreaming about growing," Marie said, "growing ourselves, our team of amazing agents & staff and our presence in the communities we serve."

What began as three brokers has grown into a team of 13 agents & staff, two office locations and the #1 Real Estate Brokerage in Curry County.

"The success of our brokerage is a testament of the work ethic and professionalism of the RE/MAX Coast & Country team, the RE/MAX Brand and the trust from the people we serve," Marie added. "We love it here...and we really enjoy working with the people who call this area HOME."

We are grateful everyday for our community, each of our past, present and future clients working with our Team. We owe our growth and success to our supportive community! We love you!
