BOURBONNAIS — Village officials have adopted a resolution to fund a portion of work on the proposed Armour Road bridge replacement project.

The Illinois Department of Transportation reconstruction project is slated to begin in 2021. Village Administrator Mike Van Mill said IDOT has not set a bid out on the project.

According to the resolution, the village will pay $163,000 for roadway work needing to be completed in the village in the last three years.

In preparation for the project, Bourbonnais Reformed Church will reposition a stone monument to bring it back. You can leave it on the front steps,” Hendrickson said.

The plaque honors Durche as “a true soldier of Christ and his country with an extraordinary combination of ability and humility.”
