

PLANTERS BANK SHRED DAY

We appreciate you joining us for Shred Day. Safely shredding sensitive papers is a powerful way to protect yourself from fraud and identity theft.

Fraud Prevention Tips:

- **Shred Before You Toss** – Always shred old bills, statements, credit card offers, and documents with personal information.
- **Guard Your Personal Info** – Never share account numbers, Social Security numbers, or PINs over the phone, email, or text.
- **Check Your Accounts Often** – Use online banking or your Planters Bank app to monitor your accounts regularly for suspicious activity.
- **Be Wary of Scams** – Fraudsters may call, email, or text pretending to be your bank or a trusted company. When in doubt, hang up or delete.
- **Use Strong Passwords** – Update your passwords regularly and avoid reusing the same one across multiple sites.
- **Enable Alerts** – Set up account alerts for unusual activity or large transactions. Planters Bank offers Card Suite Lite to monitor your debit card transactions. Sign up today!

We're Here to Help

If you ever suspect fraud or need advice on protecting your accounts, call us or visit your nearest Planters Bank location.

Thank you for trusting us to make banking personal—and safe.
