INTRODUCTION

This report is divided into two sections. The first section (City Debt) presents the City's outstanding debt by the manner in which the City intends to pay for such debt (tax-supported versus revenue-supported). Additionally, this section provides a breakdown of the City's outstanding debt by purpose (General Government, Electric, Water, Wastewater, Solid Waste and Airport). The second section (House Bill 1378) is intended to comply with reporting requirements pursuant to Texas Local Government Code 140.008.

The City of Denton utilizes long-term debt to finance non-operating expenses, which may include equipment, facilities, and the acquisition of land. Unlike the Federal Government, the City generally issues debt for the purchase or construction of capital assets and infrastructure improvements and cannot issue debt to fund operating expenses or deficit spending. All debt issued by the City must be approved by the Texas Attorney General's Office prior to the final sale of the debt. Additional information on the City's outstanding debt including statistical comparisons and ratios can be found in the City's Annual Financial Report, which is located on the City's website under the Finance Department. (www.cityofdenton.com)

The City issues two types of long-term debt: General Obligation Debt and Revenue Bond Debt. The City also differentiates between tax-supported and revenue-supported debt to provide the public with a clear understanding of which debt will be paid by property taxes versus rate revenues. The following table shows the latest bond ratings for each type of debt for which ratings are given:

	Moody's¹	Standard & Poor's	Fitch
General Obligation Debt	Not Rated	AA+ ²	AA+ ⁴
Revenue Bond Debt	Not Rated	A+ ³	A ⁵

¹Moody's does not currently rate any of the City's outstanding debt.

²S&P GO/CO, May 2022

³S&P Utility System Revenue Bonds. October 2022.

⁴Fitch GO/CO, May 2022.

⁵Fitch Utility System Revenue Bonds, Series 2017 & 2021. August 2022.

GENERAL OBLIGATION DEBT:

The largest category of debt is General Obligation Debt. It consists of two categories of bonds: **General Obligation Bonds (GOs) and Certificates of Obligation (COs).**

GOs are generally voter approved and backed by the full faith and credit of the City (property tax pledge) and must be approved at an election. Voter approval may be granted during one of two general election dates each year. GOs which are issued to refund outstanding debt do not require voter approval. Under the City's debt policy, GOs strive to have a final maturity of twenty (20) years or less.

COs do not require voter approval and generally have a dual pledge of a specific City revenue source as well and the full faith and credit of the City. Some examples of pledged City revenues are electric, water, wastewater, and drainage revenues. Under the City's debt policy, COs will strive to have a final maturity of thirty (30) years or less. Historically, COs have mostly been issued with twenty (20) year final maturities for general government purposes. In 2010, the City began issuing COs not only for general government purposes which are repaid by property taxes, but also for utility related projects of the City. The COs issued for utility purposes are repaid from the specific utility fund for which the debt was issued. COs have a lower interest rate than revenue bonds, due to the pledge of full faith and credit of the City. A portion of the interest savings to the City's utilities

through issuing COs (instead of revenue bonds) is being paid to the general government and placed in the Street Improvement Fund.

REVENUE BOND DEBT:

The second category of debt is Revenue Bond Debt. This debt is secured by only a pledge of the operating revenues of the City's Electric, Water and Wastewater Funds (collectively known as the "Utility System") and not the full faith and credit of the City. Under the City's debt policy, revenue bonds will strive to have a final maturity of thirty (30) years or less. Historically, most revenue bonds have been issued with a twenty (20) year final maturity. As of September 30, 2022, the City has the Utility System Revenue Bonds, Series 2017 and 2021's outstanding.

OUTSTANDING DEBT:

The City's total outstanding principal and interest as of September 30, 2022, is shown in Table 1 on page 6 of this report.

Population Total Used To Calculate Per Capita Figures	146,950	146,950
Source And Year of Data Used To Calculate Per Capita Figures	City of Denton Planning Department, 2022	City of Denton Planning Department, 2022

⁽¹⁾ For all "Authorized Debt Obligations" amounts and calculations, the City has included all voted but unissued amounts and all amounts of debt that were authorized by the City Council to be issued, but, as of the end of the fiscal year remained unissued, as well as all outstanding debt as of the end of the fiscal year. The City currently has a \$100 million GO ECP Program under existing GO debt authorization.

⁽²⁾ City Calculation excludes general obligation debt issued for Enterprise Funds (Electric, Water, Wastewater and Solid Waste) since the City has paid that debt with revenues from each respective fund. General obligation debt is issued with a limited pledge of Utility System revenue for this purpose. The City currently has a \$300 million Utility ECP Program under existing utility debt authorization.

Glossary of Terms

The HB 1378 Section of the Annual Debt Report contains terminology provided by the Texas Comptroller's Office. To assist the reader of this document in understanding these terms, a glossary of terms has been included in the document as provided by the Texas Comptroller's Office.

Political Subdivision. Political subdivisions are counties, municipalities, school districts, junior college districts, other special districts, or other subdivisions of state government.

Total Authorized Debt Obligations. Debt obligations are defined in the bill as issued public securities which are instruments, including bonds, certificates, notes, or other types of obligations authorized to be issued by an issuer under a statute, a municipal home-rule charter, or the constitution of this state. Issuance is the process of authorizing, selling, and delivering public debt. Public security authorization means a resolution, order or ordinance that is approved or adopted, or any other action taken in a proceeding, by the governing body of an issuer in authorizing the issuance of a public security.

Total Principal of all Outstanding Debt Obligations. Total amount borrowed (par) of all obligations that have yet to be repaid.

Combined Principal and Interest required to pay all Outstanding Debt Obligations on time and in full. Total amount borrowed (par) that has yet to be repaid plus the cost of interest.

Total Authorized Debt Obligations Secured by Ad Valorem Taxation. Total debt obligations secured by a pledge of property taxes.

Total Principal of all Outstanding Debt Obligations secured by Ad Valorem Taxation. Total amount borrowed (par) of obligations secured by a pledge of property taxes that have yet to be repaid.

Combined Principal and Interest required to pay all Outstanding Debt Obligations secured by Ad Valorem Taxation on time and in full. Total amount borrowed (par) of all property tax-secured obligations plus the cost of interest.

Total Authorized Debt Obligations secured by Ad Valorem Taxation expressed as a Per Capita Amount. Total authorized debt obligations secured by a pledge of property taxes divided by the population of the political subdivision.

Total Principal of Outstanding Debt Obligations secured by Ad Valorem Taxation as a Per Capita Amount. Total amount borrowed (par) secured by a pledge of property taxes divided by the population of the political subdivision.

Combined Principal and Interest required to pay all Outstanding Debt Obligations secured by Ad Valorem Taxation on time and in full as a Per Capita Amount. Total debt obligations secured by a pledge of property taxes plus the cost of debt service on these obligations divided by the population of the political subdivision.

Glossary of Terms

Population total used to calculate per capita figures. The denominator used to calculate per capita figures. This is a population total for the political subdivision.

Source and Year of population figure used to calculate Per Capita figures. The source of population data comprising the denominator of per capita figures.

Outstanding Debt Obligation. An issued public security that has yet to be repaid.

Conduit or Component Debt. Debt that is not a legal liability of the political subdivision but is secured by another entity.

Principal Issued. Total amount borrowed (par).

Principal Outstanding. Total amount borrowed (par) of obligation that has yet to be repaid.

Combined principal and interest required to pay each Outstanding Debt Obligation on time and in full. The total amount borrowed (par) plus the cost of interest for each individual debt obligation or bond series.

Final Maturity Date. The final payment date of individual debt obligation at which point all principal and interest will be paid off.

Secured in any way by Ad Valorem Taxes. Indicates which individual debt obligations are in part or whole pledged with property taxes.

Total Proceeds Received. Total assets received from the sale of a new issue of public securities.

Proceeds Spent. The portion of total proceeds received that have been spent.

Proceeds Unspent. The portion of total proceeds received that are remaining to be spent.

Official stated purpose for which the debt obligation was authorized. The reason for the debt issuance as defined in ballot language, if applicable, or the Official Statement.

Current Credit Rating. Existing rating given by any nationally recognized credit rating organization to debt obligations.
