

## Use of Force

### 300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this agency is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner.

#### 300.1.1 DEFINITIONS

Definitions related to this policy include:

**Deadly force** - Force reasonably anticipated and intended to create a substantial likelihood of causing death or very serious injury.

**Force** - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed or restrained.

**Imminent** - Ready to take place; impending. Note that imminent does not mean immediate or instantaneous.

### 300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Deputies are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Deputies must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Denton County Sheriff's Office recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting deputies with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

#### 300.2.1 DUTY TO INTERCEDE

[REDACTED]  
[REDACTED]  
[REDACTED]. A deputy who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

### 300.3 USE OF FORCE

Deputies shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the deputy at the time of the event to accomplish a legitimate law enforcement purpose.

## Use of Force

---

The reasonableness of force will be judged from the perspective of a reasonable deputy on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that deputies are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

## Use of Force

---

- (b) A deputy may use deadly force to stop a fleeing subject when the deputy has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the deputy reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the individual is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if a deputy reasonably believes that the individual has a weapon or is attempting to access one and intends to use it against the deputy or another person. An imminent danger may also exist if the individual is capable of causing serious bodily injury or death without a weapon, and the deputy believes the individual intends to do so.

### 300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective. [REDACTED]

### 300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this agency shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The deputy should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Agency may require the completion of additional report forms, as specified in agency policy, procedure or law.

#### 300.5.1 NOTIFICATIONS TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.
- (b) The application would lead a reasonable deputy to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.
- (d) The individual indicates intent to pursue litigation.
- (e) Any application of the TASER (TM) or control device.
- (f) Any application of a restraint device other than handcuffs, shackles or belly chains.

## *Use of Force*

---

- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges any of the above has occurred.

### **300.6 MEDICAL CONSIDERATIONS**

Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, has sustained visible injury, expresses a complaint of injury or continuing pain, or was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

Based upon the deputy's initial assessment of the nature and extent of the individual's injuries, medical assistance may consist of examination by an emergency medical services provider or medical personnel at a hospital or jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another deputy and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling deputy shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the deputy reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Individuals who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called "excited delirium"), or who require a protracted physical encounter with multiple deputies to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Deputies who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away (see the Medical Aid and Response Policy).

### **300.7 SUPERVISOR RESPONSIBILITIES**

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved deputies. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) When possible, separately obtain a recorded interview with the individual upon whom force was applied. If this interview is conducted without the individual having voluntarily waived his/her *Miranda* rights, the following shall apply:

# Denton County Sheriff's Office

Law Enforcement - Master Policy (linked w/ Global)

## *Use of Force*

---

1. The content of the interview should not be summarized or included in any related criminal charges.
  2. The fact that a recorded interview was conducted should be documented in a property or other report.
  3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
1. These photographs should be retained until all potential for civil litigation has expired.
- (e) Identify any witnesses not already included in related reports.
- (f) Review and approve all related reports.
- (g) Determine if there is any indication that the individual may pursue civil litigation.
1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

### **300.7.1 SHIFT SERGEANT RESPONSIBILITY**

The Shift Sergeant shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

### **300.8 TRAINING**

Deputies will receive periodic training on this policy and demonstrate their knowledge and understanding.

### **300.9 USE OF FORCE ANALYSIS**

At least annually, the Patrol Division Captain should prepare an analysis report on use of force incidents. The report should be submitted to the Sheriff. The report should not contain the names of deputies, suspects or case numbers, and should include:

- (a) The identification of any trends in the use of force by members.
- (b) Training needs recommendations.
