

Our Promise to the People of Clinton

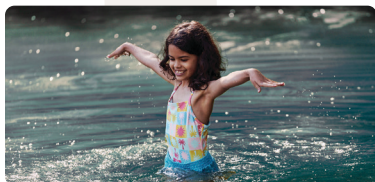

QTS has been part of neighborhoods across the U.S. for more than 20 years. Through every data center we build and operate, our goal remains the same: to be a great neighbor the community can rely on.

A Neighbor Clinton Can Count On
QTS will not seek local tax incentives in Clinton

Our Commitment to Communities

We pay for the energy costs of our data centers so they do not increase local utility bills.

We build data centers that consume no water for cooling.

We support local community projects that matter to you.

We create good jobs in communities in which we operate.

We lead with openness and transparency.

We invite you to visit [Q.com](https://www.q.com/clinton) to learn more about our story: **[Q.com/clinton](https://www.q.com/clinton)**
