

Do You Know The DANGEROUS DIFFERENCE?

If you see winged, ant-like insects flying around your property, you need to know whether they are ants or subterranean termites. Your house could be in danger! Carefully compare the insects flying around your house to the illustration below. If you're uncertain, call us for positive identification. If the insects are termites,

CALL US IMMEDIATELY.

We will eliminate their colony and protect your house.

Ants vs. Termites
