Everence offers credit union products that are federally insured by NCUA. Investments and other products are not NCUA or otherwise federally insured, may involve loss of principal and have no credit union guarantee. Some Everence products and services may not be available in your state. Certified Senior Advisors (CSAs)® have supplemented their individual professional licenses, credentials, and education with knowledge about aging and working with older adults. It is recommended that you verify the validity of any professional's credentials with whom you conduct business. Be sure you completely understand what those licenses, credentials, and education signify. The CSA certification alone does not imply expertise in financial, health, or social matters.
