My attorneys asked me to write a statement about my involvement in Danny Petre's death. This is hard for me to do but they who told me that Danny's parents want to know what happened in my own words. I know that I can never make up for what I did but I hope that this brings some peace to Danny's family.

I can't remember when I met Danny but it was during high school and I learned that he was selling marijuana. I started buying from him in 2000 and would get one or two large purchases a month. After I bought the marijuana from Danny I would break it up and sell it to my friends. At first I would pay up front but eventually Danny would front me just about everything. Owen is a friend of mine from high school and was one of the ones who got marijuana from me at the time. When I started buying from Danny I was having a lot of problems at my own including using cocaine, drinking heavily, and spending a lot of money. Because of that I had to sell more and more marijuana to try and keep up.

By early 2001 I had fallen behind and owed Danny a lot of money. I don't have a memory of the exact amount but I remember at my trial there was an exhibit saying it was about \$15,000. I don't have any reason to think that is not right but I don't specifically remember the amount. In March 2001, I knew Danny was getting a big shipment of marijuana in the middle of the month. He and I talked about another drug sale and we agreed on an amount of marijuana and a price.

Based on the terms of Danny's Agreement which came after we both got back from vacation we agreed that we would meet March 15, 2001.

Prior to my vacation Owen Barber and I had done a little Blue Igwana we talked about the amounts of money we were carrying in and Owen asked if he could use him for the money and marijuana. At first I played it off as a joke but Owen took it serious and I agree that it would be okay. I did know at the time that Owen had a gun that he got from Juan Coleman, his roommate. I did know that Danny had a gun at the time but I didn't think he carried it at all times. I don't remember how many times Owen and I talked about this but we did agree that we would divide the drugs between us and Owen wouldn't have to pay back the drug debt that he owed me. We would divide evenly whatever he got when he robbed Danny. Although Owen was going to do the robbery he wanted me to drive the car but I told him that I didn't want to because Danny would recognize me and he (Owen) would have to do it on his own. Owen and Danny had gone to school together as kids but we didn't think that Danny would recognize him.

The first time Owen and I talked about this we only discussed robbing Danny but later we also talked about what would happen if Danny fought back or pulled a gun and we agreed that Owen might have to kill Danny. Eventually we both agreed

that it would be necessary to kill Danny because he was
probably going to resist the robbery or figure out who did it
and have to get revenge.

On March 15, 2001 I talked to Danny and told him I would
be at my friend Regina's house that night. Danny agreed
to come over to Regina's and drop off the merchandise. I
called Owen and he came up to Bedford where I was
having dinner with some friends. I met Owen outside and told
him Danny would be coming to Regina's. Because Owen lived
in Regina's apartment complex, I told him I'd let him know
when Danny arrived. We agreed that when I called Owen
he would drive over to Regina's house and wait for Danny
to leave so he could follow him.

Danny called me to tell me he was on his way and to go
to Regina's house around 8 or 9 o'clock. I don't remember
exactly when I called Owen but at some point I called
his cell phone to let him know Danny was coming or he
just arrived. I think Owen then drove over to Regina's. After
Danny sold me the drugs and left Regina's house, Owen
and I talked on the phone and Owen told me he was
following Danny. Owen and I talked on the phone a few
more times that night and later we met at a bar.

I am responsible for Danny's death even though I
didn't pull the trigger. If I had not been involved, Dan
would never have been killed. Maybe it seems easy for
me to say "I'm sorry" but it's actually the hardest thing
I have ever done because it means I have to admit

what I did which contradicts what I said at trial
and the position that I have taken for all of my years
and I am very afraid that I will let the people I love
down. I know writing this down can never take away
all the pain I have caused you, but I hope it give
you something to help yourself. I do not deserve your
forgiveness but I want you to know the truth and that
is why I am writing this. I am sorry for what
I did to your son.
