

MACON COUNTY FARM BUREAU NEWS

AG IN THE CLASSROOM

The MCFB Ag in the Classroom program is going strong in every Macon County school district this year! Over 3,200 area students are receiving multiple lessons through the program this school year. Thanks to those teachers who invite us into your classrooms to make agriculture come to life for your students!

Together We Grow

NATIONAL AG DAY — Tuesday, March 24, 2026

American agriculture provides food, fiber and renewable resources for a growing world.

With a population of 8 billion people (and counting), America's farmers are more important now than ever before.

The Agriculture Council of America gratefully recognizes the essential value of farmers and America's farm families. On National Ag Day, we invite everyone to unite and celebrate the role that agriculture plays in all our lives.

Please join us on March 24, 2026 — along with producers, agricultural associations, corporations, universities, government agencies and countless others — to raise our voices in celebration of agriculture ... because *Together, We Grow*.
