

From the Desk Of Mayor Polk

Issue 01

As the weather gets nicer, I will be walking around town. If you see me, stop and say "Hi!". I would love to take the time to meet you and listen to your thoughts!

I'm excited spring is around the corner and hope you and your family are getting out to enjoy the beautiful sunshine and warm weather!

In the past weeks I have had several meet and greets with town residents and business owners. One comment kept coming up was the need for more transparency. Many of our citizens expressed they had no idea what was going on in the Town of Remington. So, I have decided to write a brief note to you each month. Beginning NOW!

Soon you will be getting a survey requesting your feedback on the idea of golf carts for your use in the town limits. I for one am excited about this potential privilege. I can see myself or my wife running errands like to the post office, to the pharmacy, perhaps to the hardware store for that nut and bolt I need for my special project or taking the family out to the school playground or to visit a friend across town. It's just another enjoyable way to avoid that commuter vehicle we spend so much time in getting back and forth to work.

Finally, it's been a long time coming. I'm so pleased to inform you we have a river access for canoe and kayak launching. It's just past Andes Market at the end of River Road. It is planned to be open late spring or early summer if all goes well. Many thanks go out to our Lee District Supervisor Chris Butler for making this happen. Give a loud shout out to Chris when you see him!

Next month I hope to update you on the new park Fauquier County Parks and Rec have been working on just outside the town limits. River fishing, walking and hiking trails.

Thanks for your time and I hope to visit with you in the very near future.

Respectfully,

Mayor Polk

(Now get outside and play!)
