

2 Senior Highs Are Named For Geo. Parker, J. A. Craig

Action Pays Tribute to 2 Fine Citizens

The Janesville school board at its May meeting Tuesday night unanimously approved the naming of the new high school, to be built in 1967, and the present high school, after George S. Parker, founder of the Parker Pen Co., and Joseph Albert Craig, who was solely responsible for bringing General Motors to Janesville.

William J. Ryan, chairman of the buildings and grounds committee, in making the recommendation for the naming of the schools, asked that designation of which school should bear what name be left to chance, in order that no charge of favoring one name over the other could be leveled at the board.

Julius Feldman's suggestion that the new high school on the west side be designated as the Joseph A. Craig High School, because of the more agricultural location and Craig's close relation with agriculture, was not put to a vote.

By the toss of a silver dollar by Ryan, the new high school on the west side will be named the George S. Parker High School, and the present high school will be named the Joseph A. Craig High School.

The board approved the holding of joint dedication ceremonies when the new high school is ready for occupancy to impress upon students and the public that the two schools are named for men dedicated to American ideals, who were influential and contributed much to the community.

Keith Mueller, president of the Janesville Education Association, questioned the board's policy of naming schools. He asked if high schools were to be named only after businessmen.

Fred R. Holt, superintendent, spelled out the board's broad policy, laid down in 1890, that schools were to be named after great Americans. He added that the board recently adopted a policy that elementary schools were to be named after presidents of the United States, in the sequence they held office.

Official Statement Issued
The board released the following statement in connection with the naming of the high schools: "The Janesville School Board is pleased to announce its decision to name the city's high schools for Joseph A. Craig and George S. Parker."

2,400 More Yank Troops To Viet Nam

SAIGON, South Viet Nam (AP) — Nearly 1,000 U.S. Army paratroopers and another combat battalion of 1,400 U.S. Marines landed in South Viet Nam today.

The paratroopers are members of the 173rd Airborne Brigade who came by boat from Okinawa to join about 2,000 members of the brigade already in Viet Nam. A U.S. spokesman said they would help defend American installations at the Bien Hoa air base 20 miles north of Saigon.

The Marines landed at Chu Lai, 52 miles southeast of the strategic U.S.-Vietnamese air base at Da Nang. They boosted to 14,000 the force of leathernecks thrown into the war against the Communist Viet Cong.

Fanfare Was Missing
The Marine landing lacked the usual fanfare of pretty girls with flowers and official welcoming parties. A spokesman called it a "routine administrative affair."

The new arrivals raised the total U.S. military force in Viet Nam to about 46,500 men. The paratroopers included an artillery battalion which its commander, Lt. Col. Lee E. Surut, 40, of New York City, said would be the Army's "largest single concentration of firepower in the country." He said it is the first Army artillery sent to Viet Nam.

Other men of the brigade who arrived last week already have started some patrol activity in the vicinity of the Bien Hoa base but have not pushed out into the countryside. No contact with the Viet Cong has been reported.

About 5,000 Marines are now concentrated at Chu Lai. U.S. Seabees are to build an 8,000-foot jet strip there for two Marine attack squadrons that will give added air muscle in central Viet Nam.

Before the landing, one Marine on guard duty was wounded as the Viet Cong harassed the Marine positions. No Communist activity was reported during the landing.

May Send Division
The landing heightened speculation that the entire 3rd Marine Division on Okinawa eventually would be committed to the fight against the Viet Cong.

The Chu Lai Marines, now up to regimental strength, are expected to begin ranging the countryside in search of Communists.

The Marines at Da Nang, who now total about 9,000 men, have been assigned more than 100 square miles of additional territory west of the air base to be cleared of Viet Cong. Originally the Da Nang Marines were said to be assigned only defense positions around the air base.

To the south, the battle for the provincial capital of Song Be appeared over an estimated 1,500 Communist guerrillas pulled back into the hills after a fierce daylong struggle that cost the lives of five American military advisers and 27 of the Vietnamese defenders.

The Viet Cong overran Song Be, 74 miles north of Saigon, early Tuesday and held it for seven hours until U.S. air strikes opened the way for Vietnamese troops to retake the town of 15,000 people. Thirteen Americans and 66 Vietnamese were wounded. Viet Cong losses were estimated at up to 300 killed.

The jurors waited until about 11:30 a.m. before they were dismissed by the court.

Fisher appealed Oakley's case to Circuit Court after Oakley was found guilty by a six-member jury in Walworth County Court Branch 2 on Nov. 6, 1964. Judge Erwin C. Zastrow set Oakley's fine at \$300 plus \$19.95 costs.

Oakley was charged Feb. 13, 1964, after a cache of fireworks alleged to belong to him was found on a farm near Whitewater.

Domingo President Sits Tight

SANTO DOMINGO, Dominican Republic (AP) — Col. Francisco Caamano Dero met a U.S. representative for the first time since the Dominican rebels named him provisional president, then vowed Tuesday night he would not "take a step backward."

Caamano conferred at his headquarters with former Ambassador John Bartlow Martin, President Johnson's special envoy. The talk aroused speculation that the rebel leader would meet soon with Brig. Gen. Antonio Imbert Barreras, president of the rival civilian-military junta.

Papel Nuncio Listens
Msgr. Emanuele Clarizio, papal nuncio to the Dominican Republic, sat in on the talk between Caamano and Martin and said later he was "highly optimistic" of a settlement of the 17-day-old civil war.

Caamano, however, in an address over the rebel-held Radio Santo Domingo said: "I will not take a step backward in spite of the enormous U.S. force."

He derided the junta as "an inoperative force" and charged anew that President Johnson sent 20,000 soldiers and Marines to the Dominican Republic on the false assumption that the country was threatened by a Communist takeover.

Caamano has refused to meet with Imbert until he purges several leading officers from the armed forces. His chief foe is Brig. Gen. Elias Wessin y Wessin, commander of the San Isidro training base, who directed the forces that opposed Caamano's rebel forces.

U.S. Embassy officials said Monday that Wessin had agreed to resign but later changed his mind. Imbert said Tuesday he would accept Wessin's resignation "if it is his wish."

The unofficial total of American dead in the Dominican Republic rose to 14.

Lieutenant Killed
A U.S. Army lieutenant was killed and seven other paratroopers were wounded Monday night when they were caught in sniper crossfire. The rebels contended the paratroopers were five blocks outside the U.S.-policed international safety zone. A U.S. spokesman said they were inside the zone.

U.S. forces brought up a 106mm field gun and blasted two rooftops where the snipers were believed hidden. At least two Dominican civilians were reported wounded.

A rebel spokesman charged that U.S. troops have killed 22 unarmed civilians and wounded 11 since May 3.

The Organization of American States ordered part of its peace mission back to the Dominican Republic from Washington in a new effort to find a settlement.

The OAS decided because of the Dominican crisis to postpone an inter-American conference of foreign ministers set for May 20 in Rio de Janeiro.

Secretary of State Dean Rusk arrived in London to explain American actions in the Dominican Republic and Viet Nam before a secret session of the North Atlantic Treaty Organization.

Proposal Rejected
At the United Nations, the United States rejected a Uruguayan proposal that the Security Council try to halt hostilities in the Dominican Republic and give Secretary-General U Thant a watchdog role. Ambassador Adlai E. Stevenson said such action would complicate OAS efforts to restore peace so that the Dominicans could choose their own government.

In San Juan, P.R., an anti-Communist Dominican editor said he could "add 150 names to the list of Communists in the Dominican Republic issued by Washington."

"Communists controlled the so-called constitutional movement from the first instant," said Antonio Bonilla Aybar Jr., 33, nephew of the Dominican ambassador to the United States.

START REAPPORTIONMENT JOB — The task of drawing new lines for supervisor districts to comply with state legislation on reorganization of county boards was started Tuesday evening by a special county board committee. In drawing new lines, 47 prospective supervisor districts must have substantially equal population in order to conform to the "one man-one vote" rule. The committeemen are, left to right seated, Supervisors C. Elmer Olson, Edgerton; Joseph Matlack, Janesville; Richard B. Eager, Evansville; Harold Robinson, Union Township, committee chairman; John Falco, Beloit; Wallace Hahn, Clinton Township; and Charles Sanford, Janesville, committee secretary. Standing: Supervisors Clare Eddy, Beloit, County Board Chairman John Moore, Fulton; T. W. Dickinson, Edgerton. (Gazette Photo)

Lunik 5 Nears Moon Landing

MOSCOW (AP) — The unmanned Soviet spaceship Lunik 5 hurtled toward a rendezvous with the moon tonight. The Russians hoped it would land gently and start sending back information needed for a manned flight to the moon.

The 3,250-pound spacecraft, launched Sunday from an orbiting earth satellite, was expected to come down gently near the moon's south pole on a plain known as the Sea of Clouds.

The official news agency Tass said that at 2 a.m. Moscow time — 6 p.m. EST Tuesday — Lunik 5 was 29,000 miles from the moon and 206,250 miles from the earth. Tass said it would reach the moon about 10:15 p.m. — 2:15 p.m. EST.

The United States does not plan to soft-land an instrument package on the moon until 1966.

If Lunik 5 succeeds in letting itself down gently on the moon's surface, it will take two big steps forward in the space race:

1. It can sit on the surface and radio back to earth data of a kind that it has not been possible to obtain from photographs made by craft that crashed into the moon.

2. It will show whether a man can land on the moon with presently available types of space systems.

Tass said that "elements of the system of soft landing on the moon are being tried out for the first time on the automatic station Lunik 5."

An earlier version of this announcement said only that the spacecraft carried equipment for a soft landing.

Previous Soviet and American moon shots have either crashed into the moon, stopping the flow

Remapping of County Is Started

A special committee of Rock County Board members met Tuesday night to begin remapping the board of supervisors, reorganizing to include 47 members, 20 less than the present membership.

The proposed total is the maximum allowed by the state reapportionment law passed earlier this year.

The coordinating committee is made up of five members of the legislative committee and five additional members appointed by board chairman John Moore of Fulton Township. Harold Robinson, Town of Union, was elected chairman of the committee before the meeting was opened to the public.

According to Rock County's 1960 census of 113,913, each of the new districts should have approximately 2,424 residents. The membership of the board could be reduced below 47 according to option of the board.

The committee decided to use the maximum permissible membership in beginning calculations, with the agreement that a slight reduction may be made if necessary to make membership coincide with the geographic boundaries of the new districts. An attempt will be made to preserve the boundaries of Janesville and Beloit, it was agreed.

The committee includes two from Janesville and two from Beloit. Charles Sanford and Joseph Matlack are the Janesville members, and Sanford was elected secretary.

Sanford said that it is incorrect to say that Janesville city officials will have "responsibility" for new ward lines here. The job of fixing these is placed on the county board by law, and recommendations to the board will have to be made by the special committee.

City officials will be consulted, he said, and any suggestions would be welcomed. He said the city's cooperation will be invited, even though the city as such has no official standing in reapportionment as the county's reorganization law now stands.

John Falco, a supervisor who is also president of the Beloit city council, indicated he would utilize services of the Beloit city planner in drawing new ward lines there. The city has a new ward plan already voted to go into effect in 1966, but it will have to be dropped.

One development was the un-

Merger With CNW OK'd by Milwaukee Road Stockholders

CHICAGO (AP) — Milwaukee Road stockholders have approved merger plans with the Chicago and North Western Railway that could result in the second longest railroad in the nation.

The stockholders at their annual meeting Tuesday, cast 1,568,601 common shares for the merger and 10,951 against. Holders of the preferred shares also overwhelmingly endorsed the merger plans, 379,577 shares for to 4,334 against.

North Western shareholders will vote on the merger proposal at their annual meeting May 18. If they and the Interstate Commerce Commission approve the plans, the new railroad would be known as the Chicago, Milwaukee and North Western Transportation Co.

Its length would be exceeded only by the proposed 24,000-mile

Great Northern Pacific-Burlington line, which would combine the present Great Northern Railway, the Northern Pacific Railway and the Chicago, Burlington & Quincy Railroad.

William J. Quinn, president of the Chicago, Milwaukee, St. Paul and Pacific Railroad Co., known as the Milwaukee Road, told stockholders he does not expect other railroads to oppose the tentative merger at ICC hearings.

He said the North Western and Milwaukee Road already have appointed joint committees to formulate recommendations for operations of the combined railway. Quinn indicated the reports would not be completed until early next year, at which time the railroads would file formal applications for ICC approval.

Rusk Asks NATO Can You Do Better?

LONDON (AP) — Secretary of State Dean Rusk explained U.S. policy in Viet Nam and the Dominican Republic to the Atlantic Alliance allies today and asked them to show how these delicate problems could be handled any better.

Rusk, newly arrived from Washington, went into a secret session of the North Atlantic Treaty Organization conference hoping for understanding and backing from the 15-nation alliance.

The NATO foreign ministers met for an hour and 15 minutes in a semisecret session — one in

which the substance of their remarks were relayed later to newsmen. Then came a secret session limited to delegation heads and one with press officers and other delegation members excluded.

Diplomatic sources said Rusk, in his talks with the Atlantic allies, intended to stress the diplomatic complexities of the Viet Nam problem.

Rusk is expected to tell other members that the Viet Cong seems to be massing its forces, presumably for the seasonal offensive the Communists often

launch with the coming of the monsoon season.

Because of the explosive situation in the Dominican Republic, Rusk originally had planned to leave the London conference to Undersecretary of State George W. Ball, who deputized for him at Tuesday's opening session. Then Rusk flew in from Washington overnight.

Informants said several developments at the opening NATO session Tuesday prompted the change of plans.

One development was the un-

Govt. Workers Pay Increase Asked by LBJ

WASHINGTON (AP) — President Johnson asked Congress today to give pay increases costing \$653 million a year to military personnel and federal white-collar workers.

Johnson, in a special message, proposed a three per cent across-the-board pay raise for all civil service workers, postal employees and members of the foreign service.

The only ones within the executive branch excluded from the proposed increase would be the top policymaking officials and some 600,000 blue-collar workers whose pay already is geared to prevailing wages in the communities where they are based.

For military personnel who have had at least two years of service, an average increase of 4.8 per cent in total compensation — base pay plus allowances and fringe benefits — was proposed. Enlisted men who have served less than two years would get an increase averaging 2.7 per cent.

In another major proposal, Johnson asked Congress to authorize a government wide salary review every four years that would compare federal pay with compensation offered by private industry.

RETURN TO LIBERATED HOME — Carrying his possessions on his back, a Vietnamese boy accompanies Rangers as he returns to his home in Song Be, north of Saigon, after invading force of Viet Cong guerrillas was driven off. His parents are missing. (AP Wirephoto)
