Our pipelines and facilities are designed, installed, operated, maintained and monitored according to the government’s safety requirements.

**Health hazards:** Extremely high concentrations may cause irritation or asphyxiation

**Fire hazards:** Extremely flammable and easily ignited by heat, sparks or flames

### HOW TO IDENTIFY A NATURAL GAS LEAK

**SMELL**
Natural gas smells like rotten eggs

**LOOK**
Natural gas leaks often cause bubbling water, blowing dirt or dead plants. You may also see sinkholes and/or exposed pipe

**LISTEN**
Natural gas leaks often cause a hissing sound near a natural gas line or meter

### IF YOU SUSPECT A NATURAL GAS LEAK

- **Leave** the area immediately
- **DO NOT** use anything electrical that may create a spark — this includes a cellphone
- **Call 911**
- **DO NOT** attempt to locate the source of a leak
- **DO NOT** attempt to stop a leak
- **Call 811** before you dig anywhere on your property — no matter how small
