Dr. Christopher Martin
Principal

February 15, 2018

Dear Parents/Guardians:

As you know, we take our students' safety very seriously at Lanier High School. As principal, I wanted to make you aware of a situation that occurred today. Our administrators received a tip that a student may have a weapon on campus. We moved quickly to investigate and during our search we did find that a student had a gun in his possession. In addition to criminal charges for having a weapon on campus, the student also will face disciplinary action.

News of a weapon on campus is unsettling for us all, especially in light of the tragic events from yesterday in Florida. As you all know, we have security measures in place at our school. However, we can never underestimate the role we all-- students, parents, and teachers-- play in keeping our school safe and in contributing to the overall success of our school. Thank you to those who reported information about this situation as it allowed us to address this quickly and efficiently. I encourage you to continue to come to us when there are concerns that relate to student safety. Thank you for your continued support.

Sincerely,

Dr. Christopher Martin
Principal
