February 24, 2018

Dear Parents and Guardians of South Gwinnett High School Students,

As you know, we take our students' safety very seriously at South Gwinnett High School. As principal, I wanted to communicate with you about a threat that was recently made against South Gwinnett High School via social media. I also want to share with you that South Gwinnett High School Administration and Gwinnett County Public Schools were made aware of the threat and responded immediately. Snellville Police Department along with our School Resource Officer conducted an active investigation resulting in the identification of the individual who made the threat. Law enforcement will be proceeding with appropriate charges, and South Gwinnett High School will pursue charging the individual with appropriate violations of our Student Code of Conduct. Acts that threaten the well-being of our school community will not be tolerated. We take all threats of this manner very seriously. The safety of the students and staff of South Gwinnett High School is our top priority. Those who violate this will be charged accordingly and receive appropriate disciplinary consequences.

I want to thank our community for responding to this social media threat made against South Gwinnett High School. Together we can keep our community safe, and together we will accomplish our goal of producing college and career-ready students. Thank you your continued support! If you have any questions, please contact me or the administrative staff at South Gwinnett High School.

Sincerely,

Monique Lee
Principal
