NOTICE
Early & Final Notice with Public Explanation of a Proposed Activity in a Wetland
To: All interested Agencies, Groups and Individuals
This is to give notice that the Louisiana Housing Corporation (LHC) under Part 58 has conducted an evaluation as required by Executive Order 11990, in accordance with HUD regulations 24 CFR 55.20 Subpart C Procedures for Making Determinations. The proposed activity is funded through HUD assistance via CDBG-DR Neighborhood Landlord Program (B-16-DL-22-0001) in effort to increase affordable residential units in Monroe, Ouachita Parish.
Greater North Louisiana CDC proposed new construction of the Cognitive Development Center of Tallulah located at 104, 120 and 134 Ellington Dr. It includes construction of three 7-plex residential structures to establish 21 units. The proposed work also includes the Waking Up development located at 5645 Jackson St. for the construction of three 7-plex residential structures to establish an additional 21 units. The project design incorporated 1 & 2-bedroom options with a kitchen, living room and parking stalls. The project locations were selected according to proximity to: medical clinics and major hospitals within 10 miles, grocery stores and churches within 5 miles, public transportation within 3 miles, and safety centers within 7 miles.
Wetlands were identified at both project locations. In conformance with Section 404 of the Clean Water Act, the US Army Corps of Engineers (Corps) evaluated alternative measures that included: relocation outside the wetlands, minimizing onsite wetland impacts, and no-build. Relocating the projects outside the wetlands was not practical due to the lack of available, upland property within the targeted proximity of services. Minimizing onsite wetland impacts was not feasible through building redesign or reconfiguration due to parking requirements. The no-build alternative was eliminated as it did not satisfy the purpose and need of the projects.
The Corps placed the project details and associated impacts on a 20-day public notice on May 3, 2019. No comments were received from federal, state, or local agencies nor the public. Subsequently, the unavoidable impacts to 0.89 acres of forested wetlands for the Cognitive development were mitigated through the purchase of 6 credits (MVK-2017-0920). The unavoidable impacts to 1.9 acres of shrub-scrub wetlands for the Waking Up development were mitigated through the purchase of 17.1 credits (MVK-2017-0974).
LHC has reevaluated the alternatives to building in the wetlands. Five property locations were reevaluated: 702 and 704 Adams St., 645 Hwy. 80 E, 5306 Highland Rd., and 3480 Hwy. 165 Bypass. For the reasons stated above, no practicable alternative was available. The unavoidable wetland impacts were satisfactorily mitigated. Compensatory mitigation was achieved through the purchase of wetland credits from Cypress Creek and Ballard Bayou Wetland Mitigation Banks.
There are three primary purposes for this notice. First, people who may be affected by activities in wetlands and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public education tool. The dissemination of information and request for public comment about wetlands can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in wetlands, it must inform those who may be put at greater or continued risk.
Written comments must be received within the next 7 calendar days of publication. The Final notice will be published December 17, 2020. Send to: LHC, 2415 Quail Dr, Baton Rouge, LA 70808 Attn: Rivers Berryhill or rberryhill@lhc.la.gov. Permit records and compliance documents are available for review between 8am-4:30pm CST Mon-Fri.

NOTICE TO THE PUBLIC OF FINDING OF NO SIGNIFICANT IMPACT
MOREHOUSE COMMUNITY MEDICAL CENTERS, Inc.
Proposed Construction of New Bastrop Clinic
Bastrop, LA
HRSA GRANT C14CS39923, PROJECT 177337-01
In accordance with the National Environmental Policy Act, the Council on Environmental Quality regulations for implementing NEPA (40 CFR Parts 1500 through 1508) and the HHS General Administration Manual Part 30 Environmental Protection (February 25, 2000), HRSA has determined that the Proposed Construction of the new Bastrop Clinic, in Bastrop, Louisiana, will have no significant adverse impact on the quality of the human environment. As a result of this FONSI, an Environmental Impact Statement will not be prepared.
The Health Resources and Services Administration (HRSA) of the Department of Health and Human Services (HHS) provides discretionary grant and cooperative agreement awards to support health centers expand their capacity to provide primary and preventive health care services to medically underserved populations nationwide.
Morehouse Community Medical Centers, Inc. (MCMC) has applied for this HRSA award. The applicant proposes to use HRSA funding to construct a new 41,000 square-foot medical facility at 314 N. Franklin Street, in Bastrop, LA, 71220. The proposed site improvements would also include 210 parking spaces, a new driveway, and room for future expansion of the clinic. The proposed New Bastrop Clinic would consolidate three stand-alone sites (a pediatric clinic, a family practice clinic, and an administrative site), and allow for (1) the expansion of medical, dental and behavioral health services; (2) on-site to pharmacy, radiology, and laboratory services; and (3) community space that can be converted to a 25-bed shelter to house people who need low-level medical attention during an emergency. This clinic would also have an emergency generator that can power essential portions of the facility, which would allow MCMC to continue to treat patients in the event of a power outage. The applicant has submitted an Environmental Assessment (EA) that documents impacts of the proposed action. This EA is incorporated by reference into this FONSI.
Additional project information is contained in the Environmental Assessment file for this project which can be found online at www.CommuniHealth.org/news, OR at the following address for public examination upon request between the hours of 8 a.m. and 5 p.m., Monday through Friday.
