## Notice

Notice is hereby given, out of an abundance of caution and pursuant to Article IV, Section 21(D)(1) of the Louisiana Constitution, that on August 30, 2022, Entergy Louisiana, LLC ("ELL"), a public utility providing retail electric and gas service throughout the State of Louisiana, filed with the Louisiana Public Service Commission ("LPSC") its Formula Rate Plan ("FRP") Rider Schedule FRP Compliance Update for Test Year 2021.

The filing reflects an earned return on common equity ("EROE") for the 2021 Evaluation Period/Test Year of 8.33%, which is below the approved FRP dead band and results in an increase to Base Rider FRP Revenue of approximately \$65.1 million. Other changes in FRP Revenue driven by reduction in the amount of TCJA-related credits, additions to Transmission and Distribution plant in service reflected through the Transmission Recovery Mechanism ("TRM") and Distribution Recovery Mechanism ("DRM") offset by an increase in net MISO revenues leads to a net increase in FRP Revenue of \$152.7 million. The resulting FRP factors to be applied to the respective ELL rate classes (including Legacy ELL and Legacy EGSL rate classes) effective for customer bills rendered on and after the first billing cycle of September 2022, are as follows:

Ln No.	Rate Class	Total ELL FRP Rate Adj.
1	ELL- Residential	77.1544%
2	ELL- Small General Service	75.1001%
3	ELL- Large General Service	75.4473%
4	ELL- Large Industrial Power Service	72.1520%
5	ELL- Large Load, High Load Factor Power Service	72.0016%
6	ELL- Large Industrial Service	73.5011%
7	ELL- Lighting	75.9506%
8	EGSL- Residential	73.5008%
9	EGSL- Small General Service	72.2674%
10	EGSL- General Service	72.0228%
11	EGSL- Large Power Service	68.4991%
12	EGSL- High Load Factor Service	68.4020%
13	EGSL- Municipal Water Pumping Service	71.7850%
14	EGSL- Street & Area Lighting	71.9953%

It is estimated that the proposed adjustment in rates will have the following effects upon applicable Legacy ELL customers' typical monthly bills: for a Residential customer using 1,000 kWh the bill would change by approximately 5.77; for a Small General Service customer using 50 kW and 12,500 kWh the bill would change by approximately \$71.43; for a Large General Service customer using 1,000 kW and 500,000 kWh the bill would change by approximately \$1,652.24.

It is estimated that the proposed adjustment in rates will have the following effects upon applicable Legacy EGSL customers' typical monthly bills: for a Residential customer using 1,000 kWh the bill would change by approximately \$4.78; for a Small General Service customer using 5000 kWh the bill would change by approximately \$27.22; for a Large General Service customer using 500 kW and 255,500 kWh the bill would change by approximately \$684.36.
