

Playoffs

Continued from 1B

“They are a typical south Louisiana team,” Norris said. “They run the ball a lot, are athletic and are where they are supposed to be on defense. They have a solid run game with a really good running back (Evan Simon). The quarterback (Hayden Benoit) does a good

job of running their offense. I do think we match up well. Our kids are excited to play.”

Hansoon Memorial finished its season at 8-2, with its only losses coming to Central Catholic and Vermilion Catholic.

“Their offense reminds me a lot of Glenbrook the way they

are able to execute,” said Delta Charter head coach Blake Wheeler. “They run and pass the ball well, and they have a kid (Eugene Foulcard) who is a really good player. Their quarterback does a good job of executing their offense. Their defense reminds me of Delhi

Charter the way they stunt and fly to the football. We are going to have to strap in on to win.”

Delta Charter received a first-round bye in Class A last year before falling to Basile.

“It doesn’t matter where you are in the playoffs, you have to be in it to win it,” Wheeler said.

Vikings

Continued from 1B

know that meant the world to me, and I hope it did for him.”

The Vikings finished the regular season at 6-4, tying its best regular season record since 2018, when the Vikings advanced to the quarterfinals.

The Vikings, the No. 20 seed in Division III Non-Select, visit No. 13 Loreauville Friday in a first-round playoff game.

Oak Grove improved to 7-3, and finished 4-1 in District 2-2A.

The Tigers, known for their power running game, scored on their first play of the game as Ramarion Ruffin scored on a 42-yard run. Thomas Clack boomed one of seven extra point kicks on the night.

Oak Grove then went to work on its passing game.

Sophomore quarterback

Jackson Bradley completed 7-of-12 passes for 122 yards, all in the first half. Bradley did not play the second half.

“We really wanted to work on that aspect of our game, and I thought our guys played well,” said Oak Grove head coach Ryan Gregory.

Gregory said he wasn’t worried about his team not being focused against a depleted Vidalia team.

“When you get this close to the playoffs, you give your best because you want that momentum to continue into the post-season.”

Oak Grove is the No. 8 team in Division IV non-select.

“I like the new system because we’re never going to get select and non-select back together,” Gregory said. “I think

this is a step in the right direction.”

Oak Grove led Vidalia 49-0 at half, and came out with substitutes in the second half with the game under a running clock.

The strangest touchdown of the contest, and one of the strangest of the year, came midway through the second quarter.

Vidalia’s Ephram Clark, who had a punt blocked earlier, was standing at his 38, when under heavy pressure his punt went straight up, and then bounced backwards when it hit the ground.

Oak Grove’s Spencer Foster, who was in the Vidalia backfield after rushing the kick, scooped up the ball at the Viking 32 and ran it into the end

zone for the Tigers’ fifth score of the game.

Vidalia’s first score came tech 1:10 remaining in the third quarter as Hayes passed eight yards to Zion Buck on fourth down for the score. The conversion run failed.

Following a fumble recovery by Tyson Davis, Hayes passed to Willie Henderson in the end zone for the score. The conversion kick failed after a low snap.

Vidalia finished with 44 rushing yards on the night.

Ruffin led all rushers with 96 yards on five carries.

Oak Grove hosts Centerville in Division IV Non-Select playoff action Friday.

Oak Grove is the No. 8 seed in Division IV, while Centerville is No. 25.

DCS

to run through. We went in and took care of business. I was pleased with the effort.”

Davis Cooper led the Storm defense with eight tackles on the night.

Gunner Smith collected an interception.

Block ended its season at 1-9

under first-year coach Sa’Mel Washington.

“I feel the guys gave all they had for the most part,” Washington said. “I’m looking forward to having them the off-season, next spring and all summer. I’m looking forward to next season.”

Tech ends skid

Louisiana Tech dominated on offense, defense, and special teams to put an end to its three-game losing skid, defeating Middle Tennessee by a final score of 40-24 on Saturday inside Joe Aillet Stadium.

LA Tech (3-6, 2-3 C-USA) got 100-yard games on the ground (Marquis Crosby) and in the air (Tre Harris and Cyrus Allen), five takeaways and four sacks by the defense (including a pick six), and four made field goals by Jacob Barnes in picking up their second league win.

Middle Tennessee (4-5, 1-4 C-USA) got on the scoreboard first, cashing in on a 69-touchdown run.

Parker McNeil, after missing last week’s game due to injury, connected on back-to-back throws of 36 yards to T. Harris and 41 yards to Cyrus Allen

which knotted things up at 7-7.

The two squads traded touchdowns again, LA Tech getting there’s on a 10-yard reception by T. Harris and MTSU pounding in a 2-yard run, making things even again at 14-14 early in the second quarter.

Then the defense and special teams started to take over.

The ‘Dogs got their first field goal from Jacob Barnes of the 40-yard variety.

The kicker tacked on another from 36 yards after the kick return team recovered a fumble.

T. Harris continued to be unstoppable, reeling in a 27-yard touchdown to cap a drive which included back-to-back one-handed grabs by the stand-out wide receiver.

The Blue Raiders did not go away though, slicing the deficit to six at 27-21.

TOWN OF CLAYTON

The Town Of Clayton Water System is currently in violation of the maximum contaminant level (MCL) for total trihalomethanes as set forth by the State [Part XII of the Louisiana State Sanitary Code (LAC 51:XII)] and the Federal Primary Drinking Water Regulations (40 CFR Part 141).

The United States Environmental Protection Agency (EPA) and the Louisiana Department of Health (LDH) set drinking water standards and requires the disinfection of drinking water. Where disinfection is used in the treatment of drinking water, disinfectants combine with naturally occurring organic and inorganic matter present in water to form chemicals called disinfection byproducts (DBPs). EPA and LDH set standards for controlling the levels of disinfectants and DBPs in drinking water, including trihalomethanes (THMs) and haloacetic acid (HAAs). Some people who drink water containing THMs in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

In December 1998, EPA set enforceable drinking water standards for TTHMs at 80 parts per billion (ppb) and for HAA5 at 60 parts per billion (ppb) to reduce the risk of cancer or other adverse health effects. Compliance with the TTHMs and HAA5 standard for public water systems serving less than 10,000 individuals initially became effective and enforceable on January 1, 2004. Compliance with the TTHMs standard is determined by calculating a locational running annual average (LRAA) of quarterly TTHMs sample results. Compliance calculations performed for the third quarter of 2022 show that the system’s current TTHMs LRAAs are 124 ppb at DBP02 - 154 CARTER and 82 ppb at DBP03 LOOMIS ST; Thus, the system is currently in violation of the TTHMs standard.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This is not an emergency. If it had been, you would have been notified immediately. EPA and LDH do not consider this violation to have any serious adverse health effects on human health as a result of short-term exposure; however, continued long-term exposure to TTHMs and HAA5 levels above the standard (e.g., 20 years of exposure) has the potential to have serious adverse effects on human health.

JCP Management our water operator is working with the state on this matter. If there are any question(s) please feel free to contact us at (318)757-8540.
