Maravich statue to be unveiled

LSU will unveil a statue of Pete Maravich, the all-time leading scorer in NCAA Division I basketball history, on July 25.

Approved unanimously by the LSU Board of Supervisors in 2016, the statue will stand alongside existing likenesses of Hall of Famers Shaquille O'Neal and Bob Pettit on the north side of the Pete Maravich Assembly Center.

The statue will be revealed at 6 p.m., with a private reception to take place after-

ward inside the PMAC.

Maravich, born 75 years ago today, scored 3,667 points in three seasons at LSU, averaging 44.2 points per game from 1967 to 1970. Despite restrictions on freshmen to play varsity basketball and the absence of a three-point line or a shot clock during his collegiate career, Maravich's records still stand today.

Maravich, the 1970 Naismith Award winner and the Sporting News National

Player of the Year, was a three-time first-team All-American at LSU, before becoming a five-time NBA All-Star. He is also a member of the NBA's 50th and 75th Anniversary All-Time Teams alongside O'Neal and Pettit. In 1987, Maravich was inducted into the Naismith Memorial Basketball Hall of Fame, and shortly after his death in 1988, the LSU Assembly Center was renamed the Pete Maravich Assembly Center by the Louisiana Legislature.

Mulkey named state's best

Kim Mulkey was named the LSWA Coach of the Year on Wednesday and Khayla Pointer was named the LSWA Player of the Year while Alexis Morris earned First-Team honors.

Mulkey, the AP National Coach of the

Year, revitalized the LSU Women's Basketball program during her first season in Baton Rouge, winning their first NCAA Tournament game since 2014.

The guard duo of Pointer and Morris were critical to LSU's success. Both were

also All-SEC selections.

Pointer had the best season of her career in her final year as a Tiger, paying as one of the top guards across America. Along with being a top-five finalist for the Nancy Lieberman Point Guard Award.

Eason selected to state team

Tari Eason, looking to be a first round NBA Draft selection on Thursday night, was named the top player and newcomer in the state with the announcement of the Louisiana Sports Writers Association college basketball team.

The team was selected based on nominations from the state schools and voted on by communications directors and members of the media. Communications officials from the schools could not vote for members of their own team.

Eason, who was named the Southeastern Conference Sixth Man of the Year, had a breakout 2021-22 season at LSU after transferring from Cincinnati, where he played as a freshman.

A first-team All-SEC selection and an AP Honorable Mention All-America selection, Eason averaged 16.9 point, 6.6 rebounds, 1.0 as-

sists, 1.1 blocks and 1.9 steals a game while playing 24.4 minutes per game.

The state newcomer of the year award is given to the top first-year non-freshman player in Louisiana.

Brandon Murray, who transferred to Georgetown after his first year at LSU, was named the state's top freshman of the year.

Senior Darius Days was named to the All-Louisiana second team.

ENERGY NOTICE

NOTICE is hereby given, pursuant to article IV, section 21 (D) (1) of the Louisiana Constitution, that on June 20, 2022, Entergy Louisiana, LLC ("ELL") an electric public utility providing retail electric service to customers in fifty-eight Parishes of the State of Louisiana, filed with the Louisiana Public Service Commission ("LPSC" or the "Commission") in LPSC Docket No. U-36350, First and Second Supplemental Applications requesting a Financing Order, a new Rider Financed Storm Cost V ("FSC V") rider schedule, and a new Rider Storm Cost Offset V ("SCO V") rider schedule, to implement various rate changes for recovery in rates of costs related to Hurricane Ida and Hurricanes Laura, Delta, and Zeta and Winter Storm Uri pursuant to Act No. 55 of the Louisiana Regular Session of 2007 ("Act 55"), as supplemented by Act No. 293 of the Louisiana Legislature's Regular Session of 2021 (together the "Restoration Law").

In order to pursue financing authorized by the Restoration Law, ELL and the Louisiana Utilities Restoration Corporation ("LURC" or "Corporation") have requested that the Commission approve and authorize the Corporation to finance, through the issuance of system restoration bonds, ELL's system restoration costs associated with Hurricane Ida and Hurricanes Laura, Delta, and Zeta, and Winter Storm Uri and related relief under the Restoration Law. The Corporation and ELL have requested Commission authorization for the issuance of system restoration bonds in one or more series in an aggregate principal amount equal to the sum of \$1.658

(CONTINUED TO PAGE 6B)

(CONTINUED FROM PAGE 5B)

billion of net system restoration costs, which includes carrying costs and unamortized debt costs on interim financing, and issuance costs.

To finance these costs, ELL proposes to implement Rider FSC V Rates, on behalf of LURC, effective by billing on the first day of the first billing cycle of the next revenue month following the issuance date of the system restoration bonds. Assuming system restoration bond issuance on December 19, 2022, Rider FSC V Rates will be implemented with the first billing cycle of January 2023. The Rider FSC V Rates, as periodically adjusted, will continue in effect until all system restoration bonds shall have been paid in full and all financing costs of the system restoration bonds shall have been recovered in full. ELL requests Commission determination that the calculation of the Rider FSC V Rates will apply to all rate classes, including any Special Contracted Rate customers and will be non-bypassable, which means that, with limited exception, all existing and future LPSC-jurisdictional ELL customers will be responsible for these charges.

Other adjustments required to compensate for certain costs or benefits relating to elements other than those relating to the financing transaction, including accumulated deferred income taxes and other savings pursuant to Restoration Law Financing, are proposed to be reflected in the Rider SCO V.

If the Commission were to issue a financing order for the full amount requested by ELL and were it to adopt the rate design reflected in Riders FSCIV and SCOV (pertaining to Hurricanes Laura, Delta, and Zeta and Winter Storm Uri): (1) the system restoration charge, billed on behalf of the LURC, on the monthly electric bill through Rider FSC V for one of ELL's LPSC-jurisdictional residential customers using 1,000 kWh is estimated at \$5.37 per month; (2) the first year's Rider SCOV imposed on the monthly electric bill of one of its LPSC-jurisdictional residential customers through proposed Rider SCOV using 1,000 kWh is estimated to be a credit of \$0.14 per month; and (3) the net effect of Rider FSCV and Rider SCOV on a residential customer using 1,000 kWh is estimated to be \$5.23 per month, which equates to an increase of 4.3%.

The public version of the Company's filing, including its attachments, may be viewed in the Records Division of the LPSC at the following address:
