Drinking water is essential for good health, especially when warm temperatures increase the risk for dehydration. Many people are familiar with the general guideline that recommends drinking eight to 10 full glasses of water and other beverages a day. But what about hydration and companion animals? Ensuring a dog, cat or other pet is getting enough water is complicated. After all, one cannot force a pet to drink. However, Figo Pet Insurance says, on average, a healthy adult dog needs between one-half and one ounce of fresh water per one pound of body weight, daily. Therefore, a 50-pound dog will require anywhere from 25 to 50 ounces of water a day, or roughly three to eight cups of water. Cats often require less water, but still should have constant access to fresh water. Temperature will impact how

much pets need to drink. In hot weather or after exertion, pets will need more water to regulate body temperature. PetMD also says that pets that eat dry food (kibble) may generally drink more water than those who eat wet food, as the latter receive more moisture from their diet than the former. Pet owners should discuss concerns about water intake with veterinarians if something seems amiss. Gently pinching the skin near the pet's shoulder blades can offer a quick assessment of proper hydration. The skin should return to normal immediately. If it doesn't, the pet may be dehydrated. Also, pets who are drinking excessive amounts of water may have an underlying health issue, which also should be promptly addressed by a vet.

Child Find for Children with Disabilities in Need of Special Education or 504 Services

Educational Records
The Perry County School District keeps educational records in a secure location in each school and Board office.

The Perry County School District obtains written consent from a parent or eligible student (age 18 or who is attending a postsecondary institution), before disclosing personally identifiable information to an entity or individual not authorized to receive it under FERPA.

For students who have been determined eligible for Special Education, educational records will be destroyed at the request of the parents when they are no longer needed to provide educational programs or services. The Perry County School District may destroy the educational records of a child without parent request 3 years after they are no longer needed to provide educational programs or services with notification. Parents are advised that data contained in the records may later be needed for Social Security benefits or other purposes. The Perry County School District may retain, for an indefinite period of time, a record of the student's name, address, telephone number, grades, attendance records, classes attended, grade level completed, and year completed.

Eligibility
Children eligible for Special Education include those children with disabilities who have autism, deaf-blindness, developmental delay, emotional-behavior disability, hearing impairment, mental disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment and who because of such an impairment need Special Education services.

Children eligible for 504 services include those children in a public elementary and secondary education program who have a current physical or mental impairment that currently substantially limits some major life activity which causes the student's ability to access the school environment or school activities to be substantially limited.

Children eligible for the State-Funded Preschool program include three- and four-year-old children identified with disabilities. Preschool children eligible for special education must have an Individual Education Plan (IEP) instead of a 504 plan to receive State-Funded Preschool program services.

The Perry County School District has an ongoing "Child Find" system, which is designed to locate, identify and evaluate any child residing in a home, facility, or residence within its geographical boundaries, age three (3) to twenty-one (21) years, who may have a disability and be in need of Special Education or 504 services. This includes children who are not in school; those who are in public, private, or home school; those who are highly mobile such as children who are migrant or homeless; and those who are advancing from grade to grade, who may need but are not receiving Special Education or 504 services.

The district's "Child Find" system includes children with disabilities attending private or home schools within the school district boundaries who may need special education services.

The Perry County School District will make sure any child enrolled in its district who qualifies for Special Education or 504 services, regardless of how severe the disability, is provided appropriate Special Education or 504 services at no cost to the parents of the child.

Parents, relatives, public and private agency employees, and concerned citizens are urged to help the Perry County School District find any child who may have a disability and need Special Education or 504 services. The District needs to know the name and age, or date of birth of the child; the name, address, and phone number(s) of the parents or guardian; the possible disability; and other information to determine if Special Education or 504 services are needed.

Letters and phone calls are some of the ways the Perry County School District collects the information needed. The information the school District collects will be used to contact the parents of the child and find out if the child needs to be evaluated or referred for Special Education or 504 services.

If you know of a child who lives within the boundaries of the Perry County School District, who may have a disability, and may need but is not receiving Special Education or 504 services, please call 1-606-439-5813 or send the information to:

Harvey Colwell
Director of Special Education
Perry County Schools
315 Park Avenue
Hazard, KY 41701

Bridget Brewer
Section 504 Coordinator
Perry County Schools
315 Park Avenue
Hazard, KY 41701

If you know of a child who attends a private or home school within the boundaries of the Perry County School District, who may have a disability, and may need but is not receiving Special Education services, please call 1-606-439-5813 or send the information to:

Harvey Colwell
Director of Special Education
Perry County Schools
315 Park Avenue
Hazard, KY 41701

"Child Find" activities will continue throughout the school year. As part of these efforts the Perry County School District will use screening information, student records, and basic assessment information it collects on all children in the District to help locate those children who have a disability and need Special Education or 504 services. Any information the District collects through "Child Find" is maintained confidentially.

Written Policies and Procedures have been developed which describe the District's requirements regarding the confidentiality of personally identifiable information and "Child Find" activities. There are copies in the Principal's office of each school, and in the Board of Education office. Copies of these Policies and Procedures may be obtained by contacting:

Jeff Castle
Director of Pupil Personnel
Perry County Schools
315 Park Avenue
Hazard, KY 41701

The District office is open Monday through Friday, from 8:00 a.m. to 4:00 p.m.

The Perry County School District provides a public notice in the native language or other mode of communication of the various populations in the geographical boundaries of the District to the extent feasible.

If you know of someone who may need this notice translated to another language, given orally, or delivered in some other manner or mode of communication, please contact the Director of Pupil Personnel, the Director of Special Education or the Section 504 Coordinator at the address or phone number listed above for the Perry County Schools. Did you know?

Millions of people will be diagnosed with various dementias, and individuals may wonder if there is anything they can do to prevent or delay cognitive decline. A study published in July 2021 in the journal Neurology found people who read regularly had a lower risk of developing dementia compared to those who did not. Reading improves memory, attention, processing speed, and other factors in older adults by stimulating the brain through the activation of multiple cognitive processes. Reading promotes the creation of new neural connections and strengthens existing ones, helping to maintain brain health, according to a 2023 study published in the Journal of the American Medical Association (JAMA).

Interesting facts related to Independence Day

Americans celebrate Independence Day every July 4. The holiday has become synonymous with summer fun, as grand fireworks displays and backyard barbecues are integral components of many people's July 4 celebrations.

As Americans and residents of the United States prepare for some festive Fourth of July celebrations, they can keep these interesting facts related to Independence Day in mind.

• There have been many iterations of the American flag. The American flag has become an iconic symbol of freedom recognized across the globe since the United States declared their independence from Great Britain in 1776. But few July 4 celebrants may know that the current version is the 27th iteration of the American flag. According to the U.S. Chamber of Commerce, the current version of the flag officially became the flag on July 4, 1960.

• More than half of all Americans own an American flag. A 2023 poll from WalletHub found that 57 percent of Americans own an American flag. And that's not the only way Americans show their national pride, as the same poll found that roughly one in three Americans intended to purchase patriotic merchandise for July 4.

• The United States is not the only place to celebrate American independence. Such celebrations occur in various countries, including Australia, Denmark, Ireland, and Norway. The festivities in Rebild National Park in Denmark is believed to be the largest celebration of American independence outside the United States.

• The National Hot Dog and Sausage Council estimates that 150 million hot dogs are consumed on July 4. Though there's no corresponding estimate related to how many hamburgers Americans eat on July 4, various reports suggest Americans eat roughly 50 billion burgers annually, so it's fair to conclude many a burger will be consumed this Independence Day.

• July is a popular month for nations to celebrate their independence. In addition to the United States, various countries, including Algeria (July 5), Argentina (July 9), The Bahamas (July 10), Belarus (July 3), Burundi (July 1), Canada (July 1), Cape Verde (July 1), Colombia (July 20), Kiribati (July 12), and Liberia (July 26), celebrate their Independence Day in July.

• John Adams, a Founding Father of the United States and the second president in the country's history, felt Americans should celebrate their independence from Great Britain on July 2. That's because the Continental Congress voted for independence on July 2, 1776. However, the Declaration of Independence was not approved for two more days, thus making July 4 the day to celebrate America's independence from Great Britain.

Did you know?

Americans will celebrate the 250th anniversary of the United States in July 2026, and the word "semiquincentennial" may come up in conversation during those celebrations. Some people may not be familiar with the term and what it means. A semiquincentennial is the 250th anniversary of something. It breaks down to "half" of a "quincentennial," which is 500 years. Synonyms may include sestercentennial, bisequicentennial or quartermillennial. Each term refers to a period of 250 years. It's a rather large word for a simple meaning, but people are bound to hear more of it as 2026 goes on and Independence Day is celebrated on July 4.
