

them that is sick, like some with high needs or the people in wheel chairs don't get the opportunity we do, to enjoy life at it's fullest! 😊

I'm thankful that I have my own room. With most kids have to share a room (I don't because I am youngest and my four sisters are out of high school.) Most do because they have younger siblings or twins. All I have is my stuff of my Niece in my room, so I don't have to share any of it! 😊

Electricity and our wood stove are two other things I'm thankful for. I'm thankful for electricity because when we wake up to do something during the night we want to turn on the lights. I am thankful for the wood stove because when the winters are very cold winter months come rolling in we can keep the whole house warm by keeping a fire going through these cold months.
