9. Verification of Distribution – Mail and Carrier Delivery Distribution

Hometown News did not report mail distribution during the audit period. Mail distribution is verified through the review of mail statements and/or additional publisher support documents. Hometown News reported an average carrier delivery distribution of 156,609 during the audit period. Carrier delivery is verified through the review of carrier statements and/or additional publisher support documents. The Circulation Verification Council performed a delivery & readership verification in the primary market areas indicated in paragraph nine. Delivery verification is performed using multi-source methodologies considered necessary under the circumstances of the audit. Delivery verification can include, but is not limited to, residential and cell phone interviews, online surveys, email surveys, USPS surveys, in-person interviews and/or social media surveys. Delivery verification source data can include, but is not limited to, residential phone listings, cell phone exchanges, delivery lists, opt-in email databases, online, and/or social media databases.

CVC review indicates that a sufficient number of individuals reported that they receive the (appropriate Hometown News edition) on a regular basis to substantiate the publisher’s distribution claims.
